**Taste and Criticism in the Eighteenth Century** Harold Alfred Needham,1952      **Taste and Criticism in the Eighteenth Century** H. A. Needham,1952      **Taste and Experience in Eighteenth-Century British Aesthetics** Dabney Townsend,2022-06-02 Taste and Experience in Eighteenth Century Aesthetics acknowledges theories of taste beauty the fine arts genius expression the sublime and the picturesque in their own right distinct from later theories of an exclusively aesthetic kind of experience By drawing on a wealth of thinkers including several marginalised philosophers Dabney Townsend presents a novel reading of the century to challenge our understanding of art and move towards a unique way of thinking about aesthetics Speaking of a proto aesthetic Townsend surveys theories of taste and beauty arising from the empiricist shift in philosophy A proto aesthetic was shaped by the philosophers who followed Locke and accepted that theories of taste and beauty must be products of experience alone Francis Hutcheson David Hume Alexander Gerard and Thomas Reid were among the most important advocates joined by others who re thought traditional topics Featuring chapters tracing its philosophical principles issues raised by the subjectivity of the empiricist approach and the more academic proto aesthetic formed toward the end of the century Townsend argues that Lockean empiricism laid the foundations for what we now call aesthetics      The Temporality of Taste in Eighteenth-Century British Writing James Noggle,2012-02-09 This book discusses the disruptive power of the concept of taste in the works of a number of important British writers including poets such as Alexander Pope and Joseph Warton philosophical historians such as David Hume and Anna Barbauld and novelists such as Frances Burney and William Beckford      **Taste and criticism in the eighteenth century : a selection of texts illustrating the evolution of taste and the development of critical theory** H. A. Needham,      **The Emergence of Literary Criticism in 18th-Century Britain** Sebastian Domsch,2014-08-19 This study tries through a systematic and historical analysis of the concept of critical authority to write a history of literary criticism from the end of the 17th to the end of the 18th century that not only takes the discursive construction of its self representation into account but also the social and economic conditions of its practice It tries to consider the whole of the critical discourse on literature and criticism in the time period covered Thus it is distinctive through its methodology there is no systematic account of the historical development of critical authority and no discussion of the institutionalization of criticism of such a scope its material of analysis most of the many hundred texts self reflexively commenting on criticism that are discussed here have been so far virtually ignored and through its results a complex history of criticism in the 18th century that is neither reductive nor the accumulation of isolated aspects or author figures but that probes into the very nature of the activity of criticism The aim of this study is both to provide a thorough historical understanding of the emergence of criticism and as a consequence an understanding of the inner workings and power relations that structure criticism to this day      A Guide to Eighteenth-Century Art Linda Walsh,2016-08-29 A Guide to Eighteenth Century Art offers

B. Nisbet,Claude Rawson,2005-12-08 This is a comprehensive 1997 account of the history of literary criticism in Britain and Europe between 1660 and 1800 Unlike previous histories it is not just a chronological survey of critical writing but a multidisciplinary investigation of how the understanding of literature and its various genres was transformed at the start of the modern era by developments in philosophy psychology the natural sciences linguistics and other disciplines as well as in society at large In the process modern literary theory at first often implicit in literary texts themselves emancipated itself from classical poetics and rhetoric and literary criticism emerged as a full time professional activity catering for an expanding literate public The volume is international both in coverage and in authorship Extensive bibliographies provide guidance for further specialised study *A history of criticism and literary taste in Europe from the earliest text* George Edward Bateman Saintsbury,1902 *A History of Criticism and Literary Taste in Europe from the Earliest Texts to the Present Day* George Saintsbury,1902 The Cambridge History of Literary Criticism: Volume 4, The Eighteenth Century George Alexander Kennedy,1989 This comprehensive 1997 account of eighteenth century literary criticism is now available in paperback *After Taste. *After Taste* is an inquiry into a field of study dedicated to the reconsideration reconstruction and rehabilitation of the concept of Taste Taste is the category whose systematic historical and actual dimensions have traditionally been located in a variety of disciplines The actuality and potential of the study is based on a variety of collected facts from readings and experiences which materialize in the following features One concept figurative Taste two thinking traditions analytic and synthetic continental and three interrelated dimensions systematic historic and actual are presented in three volumes As such the study presents a salient comprehensive companion for wider readership of humanities approaching conceptions of Taste for the first time Moreover *After Taste* is intended for anyone who hopes to make a further contribution to the subject Since its

appearance and apparently short triumph some 250 years ago the concept of non literary Taste remained the linchpin of aesthetic theory and practice but also a category outreaching aesthetics Taste as the personal unity of the production theory and criticism of art and literature which was still largely taken as a given in the eighteenth century has meanwhile given way to a highly differentiated art world in which aesthetic discourse is placed in such a way that it can seemingly no longer have a conceptual or linguistic effect on general opinion making The critical role of Taste judges ratings and rankings in the feuilleton politics and social media on the one hand and the responding search for new canons on the other have had a huge impact on the academic and popular discourse today However Taste s impact on society is in fact all encompassing and yet without getting even close to the magnetic North of the academic compass After Taste fills the gaps of systematic research by a comprehensive tracing of the emergence of the doctrines discourses and disciplinary dimensions of Taste up to the peak of its systematic and historical trajectory in the eighteenth century and onwards into the present day The guiding goal is a post disciplinary rehabilitation of the contested category as a preparation for its productive usage in emerging academic and popular contexts Three intertwined research hypotheses form the guiding goal of an overall study of the agencies of Taste its institutionalizations and expert cultures The 1 first part provides a missing systematic perspective on the concept of Taste as a key factor for understanding the human faculties value theories and practices of valuating The 2 second part traces the events at the peak of Taste s systematic and historical trajectories up until the late eighteenth century and verifies the historiographical hypothesis about the instrumentality of Taste for the production reception and distribution of culture The 3 third part reconstructs the major moments in which the contested concept of Taste experiences its post disciplinary rehabilitation in preparation for its future productive usage in the academic and popular discourses and practices It shows how the category of Taste became the foundation legitimation and the catalyst for the emerging division of labour faculties and disciplines confirming the hypothesis of the immense impact and actuality of Taste in the contemporary world     **A**
