with interests in religious orders and transformations of religious life from a social perspective **When the Sisters Said Farewell** Michael P. Caruso, 2012-03-11 *When the Sisters Said Farewell* tells an important story of the contributions of Catholic elementary schools to the United States by chronicling the experiences and insights of religious women nuns who were the last members of their communities to serve in parish elementary schools and of those lay men and women who were the first to serve in those roles traditionally filled by the sisters The dramatic numerical transition from the preponderance of religious women to lay leadership from the 1960s to the 1980s has been documented this book describes the how and why sisters left Catholic schools This narrative also provides instructive insights about leadership transitions and current trends in religious life and Catholic education As all educators in Catholic private and public schools grapple with questions of delivering an excellent education this book offers a glimpse into the workings of one of the most amazing educational enterprises in the history of the United States Listen to a Sirius Radio interview with Fr Michael P Carus here [Catholic nuns and sisters in a secular age](#) Carmen M. Mangion, 2020-01-09 This is the first in depth study of post war female religious life It draws on archival materials and a remarkable set of eighty interviews to place Catholic sisters and nuns at the heart of the turbulent 1960s integrating their story of social change into a larger British and international one Shedding new light on how religious bodies engaged in modernisation it addresses themes such as the Modern Girl and youth culture 1968 generational discourse post war modernity the voluntary sector and the women s movement Women religious were at the forefront of the Roman Catholic Church s movement of adaptation and renewal towards the world This volume tells their stories in their own words *The New Nuns* Amy L. Apostolic Religious Life in America Today Richard Gribble, 2011-08-17 Apostolic religious life in the United States today is in a state of crisis Signs of this situation are readily apparent and well known to all who practice Roman Catholicism The significant decline in the number of priests and religious and fewer vocations to religious congregations have produced a severe blow to formerly active apostolates and brought grave concern for the future of these ministries While the reasons for this present situation are complex interpretation of the documents of Vatican II is clearly one very important factor Scholars hold two basic interpretations of the Council the hermeneutic of rupture sees the Council as a revolution which placed the Church on a completely new trajectory A second hermeneutic however views the Council as reform with continuity While most literature to date has analyzed the hermeneutic of rupture and the consequent transformation of apostolic religious life this book describes the opposite position Divided into two parts this volume first presents an analysis of the problem and secondly a solution to place apostolic religious life on a positive trajectory in the 21st century The first section of this book describes how the hermeneutic of rupture is an incorrect reading of Vatican II Rather the Council in addressing numerous issues did not break from the past but rather sought to understand Church teaching in more contemporary ways but with continuity to the Tradition Essays in this section describe this misreading of Vatican II the consequent misunderstanding of the evangelical counsels and the rejection of religious signs The second section through an analysis of the writings of Hans Urs von Balthasar Basile Moreau Pope Benedict XVI and a reflection on Perfectae Caritatis provides a solution of Christian love as the operative way to reform apostolic religious life today

Haste,2023-10-20 Twenty first century monastic communities represent unique social environments in which music plays an integral part This book examines the role of music in Catholic Anglican Episcopalian and neo monastic communities in Britain and North America engaging closely with communities of practice to provide a penetrating insight into the role of music in self care and as a vector for identity construction on both individual and community levels The author explores the essential role of music in community dynamics the rationale for using instruments the implications of both chant based and freestyle composition gender related differences in musical activity the role of dance music made visible in community life the commodification of monastic music the Singing Nun phenomenon and the role of music in established and emerging neo monastic communities The result is a comprehensive and compelling study of the agency of music in the construction and expression of personal and community identity **Joan Chittister** Roberts, Tom,2015-10-30
