**Sketches from the Life-Work of Rudolf Steiner** George Kaufmann, 2005-12 This scarce antiquarian book is a facsimile reprint of the original. Due to its age it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high-quality modern editions that are true to the original work.

*Rudolf Steiner in Britain* Crispian Villeneuve, 2009-09-14 Rudolf Steiner spent some five months of his life in Britain, visiting there ten times between 1902 and 1924. With the exception of German-speaking countries, the longest time Steiner spent abroad was in Britain, a place he clearly considered central to his work. In this extraordinary, thorough study of more than 1,200 pages and dozens of illustrations, Crispian Villeneuve documents those important visits, reproducing letters, articles, records, and other archival material, much of it published for the first time. He also studies the interconnected theme of the life and work of D. N. Dunlop, Rudolf Steiner's closest British colleague.

*Fruits of Anthroposophy* George Kaufmann, 1922

*The Individuality of Colour* Gerard Wagner, Elisabeth Wagner-Koch, 2025-04-21 What is postulated here is not the dogmatic laying down of a way of working. Rather, the aim is to make evident one possible means of access to an experience of the colour world and guide actual practice to Rudolf Steiner's sketch motifs to their eminent educational power, for we recognize in them a path that can become of great significance to the developing human soul. From the Introduction: This unique workbook describes the early stages of a training for painters, teachers, as well as complete beginners. These stages are based on recommendations Rudolf Steiner gave for the further development of an art of painting suitable for our time. The authors' sources are Steiner's indications for the teaching of painting in the first Waldorf School, his colour and art lectures, and the sketches he made for painters. Together, they form a self-contained system of exercises for a new art that is spiritually alive. The path that Gerard and Elisabeth Wagner have set forth, which leads to experience of the spiritual basis of artistic activity and strengthens the human being's creative potential, can serve as the means for a renewal of the art of painting out of the eternal and inexhaustible sources of the spirit.

*Art and Soul: Rudolf Steiner, Interdisciplinary Art and Education* Victoria de Rijke, 2019-10-11 This book brings together Steiner's philosophical, biodynamic, and cultural contributions to education, where spirit and soul are the creative elements in human evolution. His thought is applied to selected examples of innovative artistic practice and pedagogy of the present. This volume is intended for researchers in the arts and education with an interest in Rudolf Steiner's huge influence on educational thought and policy. This is an urgent point in time to reflect on the role of arts in education and what it might mean for our souls. An accessible yet scholarly study of interdisciplinarity, imagination, and creativity is of critical, widespread interest now when arts education in many countries is threatened with near extinction.

**'The Riddle of the Sophia' and Other Essays** John O'Meara, 2020-11-02 The following collection of essays could have

had as a subtitle Towards a New Sophiology Apart from the final essay Valentin Tomberg and Dostoevski all the other essays appeared in this same order as articles in the Starlight Journal of the Sophia Foundation of North America over the years 2014-2019. The production of these articles took place during the period that immediately followed the publication of O'Meara's book The Way of Novalis and should be seen as an outgrowth from the Sophianic direction of that book. In these essays slightly expanded from the articles O'Meara elaborates on the Sophianic mission of the Foundation with reference to the main Master Individualities to whom the Foundation has linked itself notably Rudolf Steiner, Valentin Tomberg, Novalis, Friedrich von Hardenberg as well as the Master Peter Deunov. However other well known individuals are also considered in some depth including Vladimir Solovyov, Pavel Florensky, Sergius Bulgakov, Fyodor Dostoevski, Carl Jung as well as some of the Master artists of the Renaissance most notably Michelangelo and da Vinci. Estelle Isaacson and Ita Wegman also assume a significant role in this collection.

**Art as Spiritual Activity** Rudolf Steiner, 1997. This book introduces a new way for thinking about creating and viewing art. Rudolf Steiner saw his task as the renewal of the lost unity of science, the arts and religion; thus he created a new cognitive, scientific and religious art in anthroposophy. The implications of his act recognized by such diverse artists as Wassily Kandinsky and Joseph Beuys are only now coming fully to light. In his thorough introduction of more than a hundred pages, Michael Howard takes readers through these thought provoking chapters: Is Art Dead? To Muse or Amuse? Artistic Activity As Spiritual Activity. The Representative of Humanity, Beauty, Creativity and Metamorphosis. New Directions in Art. Lectures include: The Aesthetics of Goethe's Worldview, The Spiritual Being of Art, Buildings Will Speak, The Sense Organs and Aesthetic Experience, The Two Sources of Art, The Building at Dornach, The Supersensible Origin of the Arts, Truth, Beauty and Goodness, Christ, Ahriman and Lucifer. Plus a bibliography and index.

**The Spiritual Origins of Eastern Europe** Sergei O. Prokofieff, 2016-03-21. And however paradoxical it may seem today, the Grail mood is in the fullest sense to be found in Russia. And the future role that Russia will play in the sixth post-Atlantean epoch rests firmly upon this unconquerable Grail mood in the Russian people. Rudolf Steiner. Although Eastern Europe has been part of the Christian world for more than a thousand years, its spiritual identity remains a mystery. This mystery, says Sergei Prokofieff, can only fully be solved by looking behind external events and seeking spiritual, meta-historical dimensions of reality. In illuminating the maya of outer history, Prokofieff reveals the forces that have been at work to hinder the progress of mankind: the materialistic Brotherhoods of the West and the occult aspects of both Jesuitism and Bolshevism. These adversary groups have created a karma of materialism that the eastern Slavic peoples have taken upon themselves out of their exalted willingness for sacrifice. Prokofieff shows how from the earliest times the future conscience of humanity flowed from hidden mystery centres in Hibernia to the eastern Slavic peoples. As a result, qualities of compassion, patience and willingness for sacrifice developed in their souls, creating a truly Christian Grail mood. Despite incalculable suffering from the persecutions of the Mongol hordes to the Bolshevik experiment of the last century, this quality has become an unconquerable force. Will humanity

be able to use the present opportunity granted by this sacrifice to fulfil the primary purposes of the present cultural epoch Can the future mysteries of the Holy Grail be fulfilled In this momentous work breathtaking in its scope and detail the author attempts a truly esoteric approach penetrating to the spiritual wellsprings of Eastern Europe in the light of Rudolf Steiner's research

*The Michael Prophecy and the Years 2012-2033* Steffen Hartmann, 2020-09-17 In a series of vibrant and lively essays Steffen Hartmann focuses on a little known but critically important theme relating to the teachings of Rudolf Steiner Steiner described the collaboration between human souls connected to the Platonic and Aristotelian schools or groupings both here on Earth and in the spiritual world These groupings of souls work within a wider metaphysical collective known as the Michael School led by the ruling Spirit of our age Michael Prior to their births millions of human souls were prepared within this School to help

them face the challenges of the twentieth and twenty first centuries We may have forgotten these pre existence experiences but they can be reawakened within us says Hartmann Indeed it is possible consciously to reconnect to our earlier incarnations and to perceive our karma The book begins with this theme and leads to Rudolf Steiner s Michael Prophecy of 1924 to his vision of the millennium and the era in which we now live especially the crucial period between 2012 and 2033 Dealing with the anthroposophical block in the emerging holistic building of humanity the author contextualizes the topic with reference to direct personal experiences The sharing of such considered experiences can help to stimulate self reflection in the anthroposophical movement and contribute real spiritual substance to contemporary culture This little book provides stimulation to spiritual seekers who carry within them deeper questions about life in the modern world The Creative Power of Anthroposophical Christology Sergei O.
