Snake Country:

Snake Country/Classified! ,2007 In Snake country a fictional work a group of students learn about snakes first hand when one student is bitten by a snake on a field trip Classified describes taxonomy and systems of classification for living things *The Lifeline of the Oregon Country* James R. Gibson,2011-11-01 Furs is what brings us remarked an early trader in the Oregon Country adding however that the difficulty of getting the necessary supplies will continue to operate against it located as it was on the worst side of the Rocky Mountains Fortunately the discovery in 1805 by Lewis and Clark that the Columbia River was navigable by canoe or boat to the Pacific led to the logistical linking of the New Caledonia and Columbia Districts by means of the Fraser Columbia brigade system First used in 1811 by the North West Company this transport system of North canoes Indian pack horses and Columbia batteaux eventually became the lifeline of the fur trade of the Hudson s Bay Company s Columbia Department until 1847 when the route was severed by the extension of the Canada US border along the forty ninth parallel to the Pacific In *The Lifeline of the Oregon Country* James Gibson compellingly immerses the reader in one of the most intractable problems faced by the Hudson s Bay Company how to realize wealth from such a remote and formidable land The personalities places obstacles and operations involved in the brigade system are all described in fascinating detail stretch by stretch from Fort St James the depot of New Caledonia on the upper reaches of the Fraser River to Fort Vancouver the Columbia Department s entrep t on the lower Columbia River and back Never before has such a rich collection of primary information concerning the fur trade supply system and the constraining role of logistics been so meticulously assembled *The Lifeline of the Oregon Country* will prove indispensable to historians researchers and fur trade enthusiasts alike and is an important contribution to our understanding of the economic history of the Pacific Slope

North American Exploration John Logan Allen,1997-01-01 The third volume of *North American Exploration* covering 1784 to 1914 charts a dramatic shift in the purpose priorities and results of the exploration of North America As the nineteenth century opened exploration was still fostered by the growth of empire but by the 1830s commercial interests came to drive most exploratory ventures particularly through the fur trade By midcentury however as imperial rivalries lessened and the fur trade declined exploration was driven by the growing scientific spirit of the age although the science was often conducted in the service of a search for railroad routes or natural resources linked to military concerns A clear transition took place as the spirit of the Enlightenment gave way to economic imperatives and to the science of the post Darwinian age and exploration passed beyond discovery and geographical definition This volume explores the resultant beginnings of an understanding of the continent and its native peoples **A Country So Interesting** Richard I. Ruggles,1991-02-01 A vital part of *A Country So Interesting* are the annotated catalogues of all the maps known to have been produced by the Hudson s Bay Company 838 maps and 557 sketches While most are in the Company s archives in Manitoba Ruggles has tracked down maps in other collections particularly in various libraries in London England Also included are sixty six reproductions of the

most important maps and map details **The Old Oregon Country** Oscar Osburn Winther,1950-01-01 The Pacific Northwest the old Oregon country was one of the most remote and inaccessible frontier areas but it was also known to be rich in natural resources The opening up of this region is a story of courage endurance and pioneer enterprise Transportation in this rugged country was a problem to the settlers who would promote commerce and travel just as it was a problem to the earlier fur traders The construction of roads and development of water routes progressed through the years until the railroad finally came to the Northwest but at no time did the scarcity of roads prevent settlers from pushing back the frontier Here the whole story of travel and travelers in this region is told for the first time The book is based largely on primary sources and as such is a contribution to history As an account of courage and ingenuity transportation monopoly against transportation monopoly and man versus nature it is fascinating reading University Professor of History at Indiana University O O Winther is the author of Express and Stagecoach Days in California and Via Western Express and Stagecoach
