Social Agency Policy Analysis And Presentation For Community Practice Nelson Hall Series In Social Welfare:

The Handbook of Community Practice Marie Weil, Michael Reisch, 2005 Encompassing community development organizing planning and social change as well as globalisation this book is grounded in participatory and empowerment practice The 36 chapters assess practice theory and research methods Foundations of Social Work Practice in the Field of Aging Roberta Rubin Greene, 2007 The aging of societies is a global phenomenon In the United States alone the life expectancy for both men and women will continue to increase over the next few decades and with that a population explosion of older adults The dramatic increase in the number and diversity of older adults elevates the visibility of gerontological matters As a result social work practice is becoming more multigenerational thereby demanding social workers regardless of their professional endeavors to be equipped with the most innovative theories and practices to serve older adults and their families This comprehensive text spans the new knowledge and skills required in direct practice areas group work and macro practice It also outlines the Geriatric Social Work Competencies as developed by social work educators necessary to serve the older adult population and suggests how these competencies can be integrated into foundation curriculum Social work educators students practitioners administrators and policymakers will find updated useful information in this text regarding assessment tools cultural influences evidence based practices intervention techniques theoretical examples Individuals are living longer and healthier lives in part because of the extraordinary growth of biomedical knowledge and public health initiatives The confluence of the rapid and large increase of the older population and the exponential increase in the dissemination of knowledge create an imperative for social workers to employ the most recent knowledge in their practice with people living increasingly long lives JoAnn Damron Rodriguez Department of Social Welfare University of California Los Angeles Social Agency Policy John P. Flynn, 1992 This text is a practical introduction to social welfare policy analysis and presentation at the local or community level The book's focus on small scale locally oriented practice in human services is a unique feature in that most texts focus on grand scale and national policies ignoring the power reality and necessity of policy practice at the agency community or inter organization levels Flynn also includes an integrated discussion about values and ethics *Cases in Macro Social Work Practice* David P. Fauri, Stephen P. Wernet, F. Ellen Netting, 2000 Each chapter presents theoretical and practice perspectives plus scholarly references that support the exploration of a typical exemplar case Following the case are discussion questions for further examination about the situation presented Some situations are The Interim Director Leadership and Administrative Style organization practice The Reverend and Me Faith Communities and Public Welfare community practice and Carol's Value Dilemmas Implementing Public Services for Disabled Elders policy practice **Child Welfare Revisited** Joyce Everett, Sandra Stukes Chipungu, Bogart R. Leashore, 2004 Why are there proportionally more African American children in foster care than white children Why are white children often readily adoptable while African American children are difficult to place Are these imbalances an indication of institutional racism or

merely a coincidence In this revised and expanded edition of the classic volume *Child Welfare* twenty one educators call attention to racial disparities in the child welfare system by demonstrating how practices that are successful for white children are often not similarly successful for African American children Moreover contributors insist that policymakers and care providers look at African American family life and child development from a culturally based Africentric perspective Such a perspective the book argues can serve as a catalyst for creativity and innovation in the formulation of policies and practices aimed at improving the welfare of African American children *Child Welfare Revisited* offers new chapters on the role of institutional racism and economics on child welfare the effects of substance abuse homelessness HIV AIDS and domestic violence and the internal strengths and challenges that are typical of African American families Bringing together timely new developments and information this book will continue to be essential reading for all child welfare policymakers and practitioners
