Social Capital And Poor Communities:

Social Capital and Poor Communities Susan Saegert, J. Phillip Thompson, Mark R. Warren, 2002-01-10 Neighborhood support groups have always played a key role in helping the poor survive but combating poverty requires more than simply meeting the needs of day to day subsistence *Social Capital and Poor Communities* shows the significant achievements that can be made through collective strategies which empower the poor to become active partners in revitalizing their neighborhoods Trust and cooperation among residents and local organizations such as churches small businesses and unions form the basis of social capital which provides access to resources that would otherwise be out of reach to poor families *Social Capital and Poor Communities* examines civic initiatives that have built affordable housing fostered small businesses promoted neighborhood safety and increased political participation At the core of each initiative lie local institutions church congregations parent teacher groups tenant associations and community improvement alliances The contributors explore how such groups build networks of leaders and followers and how the social power they cultivate can be successfully transferred from smaller goals to broader political advocacy For example community based groups often become platforms for leaders hoping to run for local office Church based groups and interfaith organizations can lobby for affordable housing job training programs and school improvement *Social Capital and Poor Communities* convincingly demonstrates why building social capital is so important in enabling the poor to seek greater access to financial resources and public services As the contributors make clear this task is neither automatic nor easy The book's frank discussions of both successes and failures illustrate the pitfalls conflicts of interest resistance from power elites and racial exclusion that can threaten even the most promising initiatives The impressive evidence in this volume offers valuable insights into how goal formation leadership and cooperation can be effectively cultivated resulting in a remarkable force for change and a rich public life even for those communities mired in seemingly hopeless poverty A Volume in the Ford Foundation Series on Asset Building

Social Capital and Poor Communities Susan Saegert, J. Phillip Thompson, Mark R. Warren, 2005-11-17 Neighborhood support groups have always played a key role in helping the poor survive but combating poverty requires more than simply meeting the needs of day to day subsistence *Social Capital and Poor Communities* shows the significant achievements that can be made through collective strategies which empower the poor to become active partners in revitalizing their neighborhoods Trust and cooperation among residents and local organizations such as churches small businesses and unions form the basis of social capital which provides access to resources that would otherwise be out of reach to poor families *Social Capital and Poor Communities* examines civic initiatives that have built affordable housing fostered small businesses promoted neighborhood safety and increased political participation At the core of each initiative lie local institutions church congregations parent teacher groups tenant associations and community improvement alliances The contributors explore how such groups build networks of leaders and followers and how the social power they cultivate can be successfully

transferred from smaller goals to broader political advocacy For example community based groups often become platforms for leaders hoping to run for local office Church based groups and interfaith organizations can lobby for affordable housing job training programs and school improvement Social Capital and Poor Communities convincingly demonstrates why building social capital is so important in enabling the poor to seek greater access to financial resources and public services As the contributors make clear this task is neither automatic nor easy The book s frank discussions of both successes and failures illustrate the pitfalls conflicts of interest resistance from power elites and racial exclusion that can threaten even the most promising initiatives The impressive evidence in this volume offers valuable insights into how goal formation leadership and cooperation can be effectively cultivated resulting in a remarkable force for change and a rich public life even for those communities mired in seemingly hopeless poverty A Volume in the Ford Foundation Series on Asset Building Social Capital in Poor Communities Carlos Alberto Torres Vitolas,2011 This thesis examines the prospective value of social capital for developmental purposes It contends that the role that social relationships play in poor actors efforts to cope with and move out of poverty needs to be assessed under a dual understanding of social structure as both the medium and outcome of social action The study adopts Bourdieu s theory of practice as its main theoretical approach Actors investments in and uses of relationships were analysed in relation to their objective conditions stocks of capital and associated practices and strategies Social capital was operationalised as both networks of relations local external and vertical and social resources mediated access to assets of local economic relevance This approach was empirically examined via a two year longitudinal study that followed the experiences of residents of two poor rural villages located in the Department of Lambayeque in Northern Peru with regard to their quotidian practices and involvement in a participatory development intervention that conducted basic infrastructure productive and informational investments The study used a mixed method approach comprising in depth and unstructured interviews with residents and project staff household surveys three waves and participatory observation The evidence obtained showed that residents make extensive use of their relationships for economic purposes Most valuable social resources and connections however were unequally accessed by residents according to their levels of poverty This unequal re production of social capital was found to be related to actors material conditions and quotidian practices This social dynamic tended to be reproduced within the participatory intervention examined leading to an unequal expansion of social capital and related benefits among its beneficiaries The study concludes that the structural conditionality of the processes of using and building social capital makes it intimately associated with socioeconomic inequalities The theoretical and practical implications of this work are discussed in the concluding chapter *Paradoxes of Social Capital* Myriam Cherti,2025-10-01 *Paradoxes of Social Capital* critically examines the robustness of social capital theory as an analytical tool in explaining the various integration patterns amongst Moroccans in London The book also considers how structural factors impact on the ways in which Moroccans across generations sustain access and use social

capital at the levels of family ethnic community migrant associations and schools Furthermore this research elaborates on how social capital serves as an identity resource that is continuously negotiated and redefined through in active group family ethnic religious and national memberships An original model of studying the second generation processes of adaptation viewed as transversal adaptation is also introduced shifting the focus from predetermined integration patterns to a circular and a longitudinal approach to integration where new opportunities and constraints emerge structured by the temporal flow of life trajectories

'Social Capital' in deprived neighborhoods Christoph Kraschl, 2009 Seminar paper from the year 2008 in the subject Sociology Social System Social Structure Class Social Stratification grade 8 5 excellent University of Amsterdam International School of Humanities and Social Sciences course Social Problems in Urban Areas Views Concepts Theories 15 entries in the bibliography language English abstract In this article concepts of social capital in the context of social policies are discussed which focus on neighborhood renewal First theories of social capital are illuminated by comparing the concepts of Putnam Bourdieu and Granovetter Second by the example of the German program Socially Integrative City SIC a recent nationwide strategy aimed at revitalizing deprived neighborhoods is analyzed Which of the aforementioned concepts of social capital or concept elements are implemented in the SIC initiative For answering this question key documents that outline the aforementioned policies are reviewed Policies and objectives of the SIC initiative which can be related to the three depicted approaches to social capital are identified In the framework of this analysis there is particular consideration of the sub concepts of social capital bonding bridging and linking With this the author reveals which kinds of social relationships between people and different population groups are planned to be established In this context the function of social capital is particularly considered Finally after the discussion of recent critiques on social capital theories these are evaluated with regard to their usefulness for social policies in deprived urban areas

Encyclopedia of Community DAVID LEVINSON, KAREN CHRISTENSEN, 2003-06-30 Click Additional Materials for downloadable materials and samples Incredibly this is the first encyclopedia to focus on community as concept and experience so stands alone in its field as the one title any library must buy to cover this topic Essential for all readerships CHOICEA timely comprehensive and very welcome overview of a rich and rapidly growing field of inquiry Robert D Putnam Professor at Harvard University and author of *Bowling Alone* With every passing minute it becomes more and more apparent that our world is one community The Encyclopedia of Community serves as recognition of this trend and as a needed resource The four volume set not only explains the emerging buzz words of community such as social capital or civic engagement but also tells many stories of community institutions that work such as public libraries Sarah Ann Long Past President 1999 2000 American Library Association As we yearn to connect with our fellow citizens during these uncertain times we have a unique moment to encourage greater participation in our democracy and reinvigorate our communities The Encyclopedia of Community provides a timely diverse array of theories and practices that will help citizens understand the value of engaging together to

make the critical choices that enrich the way we live learn work and govern in our local communities The Encyclopedia deserves a prime spot in the libraries homes and offices of all communities that want to invest in a brighter future for their residents and their children Nancy Kranich Past President of the American Library Association whose presidential theme was Libraries The Cornerstone of Democracy 2000 2001 American politicians often pair the word community with the word freedom to describe our basic values Yet though used constantly the word community is defined in widely different and contested ways Most people like the idea of community but some intellectuals worry that it might imply collectivism The great value of this new Encyclopedia is that it gives readers a chance to sample the many uses of the term and gain clarity about the issues at stake It is a major contribution to a more coherent understanding of this fundamental idea Robert Bellah Professor of Sociology Emeritus University of California Berkeley and co author of Habits of the Heart SAGE Publications is proud to announce the Encyclopedia of Community a major reference work that summarizes the many fascinating and important concepts of a global topic Community itself is a concept an experience and a central part of being human Whether the reader is a student researcher or professional in the field of psychology sociology or even economics this three volume work will provide the necessary definitions of community beyond traditional views Arranged in an A to Z fashion the Encyclopedia can also be viewed topically via a Reader s Guide This allows for interdisciplinary compare and contrast among topics such as types of communities social capital technology urban life politics and law community design and global studies Edited by the award winning team at Berkshire Reference and assisted by an editorial board of world renowned scholars the Encyclopedia of Community will prove to be one of the most widely used reference works in your collection Key Features 500 signed articles 3 volumes 2000 pages Reader s Guide Master bibliography 250 sidebars Appendices Resource Guides Master Bibliography Libraries Build Community Libraries and Popular Culture Social Capital and Economic Development Jonathan Isham, Thomas Kelly, Sunder Ramaswamy, 2002-01-01 The chapters in this volume explore the challenges and opportunities raised by this concept for researchers practitioners and teachers Social Capital and Economic Development is based upon a consistent policy based vision of how social capital affects well being in developing countries

Organizations, Communication, and Health Tyler R. Harrison, Elizabeth A. Williams, 2015-10-23 Organizations Communication and Health focuses on theories and constructs of organizational communication and their relationship to health The goal of the volume is to offer a current picture of organizational and organizing processes and practices related to health Research in the area of health communication has expanded in recent years and this research has advanced understandings of campaigns patient provider interactions and social support However a gap in the area of health organizations and organizing processes emerged a niche this volume fills It does so by having chapters identify an organizational theory or organizing process and how aspects of that theory relate to health Chapters discuss how to marry theory to practice and the other factors e g organizational structure role occupation industry or environment that need to be

considered in the process of utilizing the theory in organizations This volume aimed at advanced undergraduate and graduate students studying health communication as well as health professionals provides useful theory and practice related the organizations and health and issues a call for further theorizing on the practice of health communication in organizations

Imprisoning Communities Todd R. Clear, 2009-03-27 In the first detailed empirical exploration of the effects of mass incarceration on poor places Imprisoning Communities demonstrates that in high doses incarceration contributes to the very social problems it is intended to solve it breaks up family and social networks deprives siblings spouses and parents of emotional and financial support and threatens the economic and political infrastructure of already struggling neighborhoods Especially at risk are children who research shows are more likely to commit a crime if a father or brother has been to prison Clear makes the counterintuitive point that when incarceration concentrates at high levels crime rates will go up Removal in other words has exactly the opposite of its intended effect it destabilizes the community thus further reducing public safety

Asset Building and Community Development Gary Paul Green, Anna Haines, 2007-08-14 Can residents work together to improve the quality of life in their community Asset Building and Community Development examines the promise and limits of community development and explores how communities are building on their key assets such as physical human social financial environmental political and cultural capital

Sharing Economy at the Base of the Pyramid Israr Qureshi, Babita Bhatt, Dharendra Mani Shukla, 2021-08-20 This book explores how the sharing economy models present opportunities and also pose challenges in achieving sustainable development at the base of the pyramid Through a 3S Framework sharing socialization and social intermediation and Reformative Transformative classification this book demonstrates how sharing economy models offer the potential for more inclusive and sustainable development The book includes case studies on sharing economy models that offer products and services for free or at prices more affordable than traditional options while also finding ways toward economic sustainability and inclusive growth This book identifies how local resources community social capital and bricolage could be leveraged in the development of sharing economy models that take into account the specificities of particular communities while ensuring that the solutions can be quickly modified and replicated Further this book highlights that sharing economy models leverage the digital revolution to take advantage of cheaper computational capacity and global connectivity while rapidly adapting to engage with those that have less digital literacy at the base of the pyramid This edited book aims to present analyses of sharing economy models at the base of the pyramid identifying characteristics that can be particularly important for sustainable development and barriers that would need to be overcome to realize its full potential The chapters in this book are contributed by a wide range of academics and scholars who are experts in the field

Marginality, Power and Social Structure Rutledge M. Dennis, 2005-04-08 The articles in this book are intended to be a much needed corrective to the literature on marginality In the recent past and at present the concept of marginality has been used with little specificity and when used with specificity the delineation of the complex dimensions of the term has been less than satisfactory To illustrate the many ways in which marginality exists and operates in many societies Rutledge Dennis has assembled a rich array of articles designed to highlight the history and evolution of the concept of marginality along with the theorists issues and situations which prompted the use of the term and the issues for which the term is applicable today The very title of the volume comes into play here because though many of the early marginality theorists took the term into the realm of psychology the contributors to this volume who discussed the theory highlighted the social structural foundation of marginality Dennis sought a marriage of theory and research while assembling the articles for this volume For this reason he actively sought papers which used divergent research strategies to uncover the existence of marginality in its various forms and contexts Thus some of the papers utilize ethnographic and life history approaches whereas others use statistical analysis and historical data analysis In addition to theoretical and methodological concerns a major theme for this volume is the combination of both theory and method towards an investigation of issues and problems emanate from the social structure and are closely linked to power and domination

Neoliberalism, Civil Society and Security in Africa P.

Carmody, 2007-10-17 Free market policies have been in operation across Africa for the past 25 years yet they have failed to reverse deepening poverty This book explores with case studies why such policies continue to be implemented and the ways in which they have been reinvented by socialization depoliticization regionalization and securitization
