Our America Felipe Fernández-Armesto, 2014-01-13 A rich and moving chronicle for our very present Julio Ortega New
York Times Book Review The United States is still typically conceived of as an offshoot of England with our history unfolding
east to west beginning with the first English settlers in Jamestown This view overlooks the significance of America s Hispanic
past With the profile of the United States increasingly Hispanic the importance of recovering the Hispanic dimension to our
national story has never been greater This absorbing narrative begins with the explorers and conquistadores who planted
Spain s first colonies in Puerto Rico Florida and the Southwest Missionaries and rancheros carry Spain s expansive impulse
into the late eighteenth century settling California mapping the American interior to the Rockies and charting the Pacific
coast During the nineteenth century Anglo America expands west under the banner of Manifest Destiny and consolidates
control through war with Mexico In the Hispanic resurgence that follows it is the peoples of Latin America who overspread
the continent from the Hispanic heartland in the West to major cities such as Chicago Miami New York and Boston The
United States clearly has a Hispanic present and future And here is its Hispanic past presented with characteristic insight
