## **The Big Scam Religion:**

*The Big Scam-- Religion* Al Long, 1994-01-01      **The Biggest Scam in Human History** Joyce Seagraves, 2021-03-01 My intention for writing this book is that it will enhance people's lives so they spend more time doing good instead of praying and wishing something will come to be. To question all the stories we have been taught through are church leaders and our government's. Think of all the time mankind has spent in churches, temples, mosques, and what they could have accomplished if they had put their energy into something that has been proven scientifically for the good of mankind. The money people have spent in the church to hear a bunch of nonsense. This time and money could have been spent on knowledge of science and helping out other people without the church. To learn the real truth about mankind instead of worshipping people like Jesus, Mohammad, or a God that is made up with fictitious facts. How many people have been killed for the sake of religion and how many wars have we fought over religious dogma. Our civilization would be so advanced and maybe even civilized if we embraced science instead of religion. We might have even wiped out famine, war, diseases by now and be living on another planet. Our ancestors were ignorant of the world by no fault of their own; after all, we haven't evolved that long compared to the universe and we couldn't evolve until the conditions were right. A world where we were one people instead of people divided by my countries and religions that don't get along, where women, children, and the oppressed are treated with respect and dignity. I like to acknowledge all the scientists, philosophers, and all those who sought knowledge instead of fables. I could never have written this book without the knowledge that has come before me and the research and dedication to finding out the real truth is beyond measurement. The church wants you to give them your money so they can buy their gold chalices, crosses, feed them, clothe them, and build the most expensive churches. Wouldn't it be easier to cut out the middleman and go directly to the people? Volunteers, community services, and prisoners can do the same work as the church and it would save a lot of money and time.

When Texas Prison Scams Religion Michael G. Maness, 2023-05-22 When Texas Prison Scams Religion exposes corruption in the Texas Department of Criminal Justice, especially in the abuse of religion. In many ways, this book is a literature review of 1,800 plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that buys faith with favor from prisoners. The state veritably ordains the prisoner a Field Minister that represents the offices of the Governor, TDCJ Director, and wardens throughout the prison. Therein, TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors. Why is the director sponsoring psychopaths counseling psychopaths? In fact, TDCJ pays 314 million a year to UTMB for psychiatric care and receives not a single report of the care given and worse for UTMB generates no reports itself. The underbelly of TDCJ's executive culture of cover-up is exposed. TDCJ has hired the lowest qualified of the applicant pool many times in the last 25 years and regularly destroys statistics on violence. TDCJ Dir. Collier led the prison to model Louisiana Warden Burl Cain, the most scandal-ridden in penal history according to a host of published news stories for 20 years. Therein

Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism Texas has no business endorsing the truth of any religion over another We close with a proposal that utilizes the 400 000 000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision Maness has been lobbying Austin for 15 years to definitively access staff for his 100 000 Mothers 1% Certainty Parole Texas Constitutional Amendment which would revolutionize prison culture and save Texans millions of the dollars

about ways in which structure and power may be conducive to abuse can be made about fraud and deception Both can contribute to abuse yet they are often less easily demonstrated and proven hence less easily prosecuted With a focus on minority religions the book offers a comparative overview of the concept of religious fraud by bringing together analyses of different types of fraud or deception financial bio medical emotional breach of trust and consent Contributors examine whether fraud is necessarily intentional or whether that is in the eye of the beholder certain structures may be more conducive to fraud followers willingly participate in it The volume includes some chapters focused on non Western beliefs Juju Occult Economies Dharma Lineage which have travelled to the West and can be found in North American and European metropolitan areas

**The Bonobo and the Atheist** Frans de Waal, 2013-03-18 In this lively and illuminating discussion of his landmark research esteemed primatologist Frans de Waal argues that human morality is not imposed from above but instead comes from within Moral behavior does not begin and end with religion but is in fact a product of evolution For many years de Waal has observed chimpanzees soothe distressed neighbors and bonobos share their food Now he delivers fascinating fresh evidence for the seeds of ethical behavior in primate societies that further cements the case for the biological origins of human fairness Interweaving vivid tales from the animal kingdom with thoughtful philosophical analysis de Waal seeks a bottom up explanation of morality that emphasizes our connection with animals In doing so de Waal explores for the first time the implications of his work for our understanding of modern religion Whatever the role of religious moral imperatives he sees it as a Johnny come lately role that emerged only as an addition to our natural instincts for cooperation and empathy But unlike the dogmatic neo atheist of his book's title de Waal does not scorn religion per se Instead he draws on the long tradition of humanism exemplified by the painter Hieronymus Bosch and asks reflective readers to consider these issues from a positive perspective What role if any does religion play for a well functioning society today And where can believers and nonbelievers alike find the inspiration to lead a good life Rich with cultural references and anecdotes of primate behavior *The Bonobo and the Atheist* engagingly builds a unique argument grounded in evolutionary biology and moral philosophy Ever a pioneering thinker de Waal delivers a heartening and inclusive new perspective on human nature and our struggle to find purpose in our lives

**Religion Vs. Science** Elaine Howard Ecklund, Christopher P. Scheitle, 2018 At the end of a five year journey to find out what religious Americans think about science Ecklund and Scheitle emerge with the real story of the relationship between science and religion in American culture Based on the most comprehensive survey ever done representing a range of religious traditions and faith positions Religion vs Science is a story that is more nuanced and complex than the media and pundits would lead us to believe The way religious Americans approach science is shaped by two fundamental questions What does science mean for the existence and activity of God What does science mean for the sacredness of humanity How these questions play out as individual believers think about science both challenges stereotypes and highlights the real tensions between religion and science Ecklund and Scheitle interrogate the widespread myths that religious people dislike science and scientists and deny scientific theories Religion vs Science is a definitive statement on a timely popular subject Rather than a highly conceptual approach to historical debates philosophies or personal opinions Ecklund and Scheitle give readers a facts on the ground empirical look at what religious Americans really understand and think about science
