The Billings Method Controlling Fertility Without Drugs Or Devices:

The Billings Method Evelyn Billings, Ann Westmore, 2000 **The Billings Method of Natural Family Planning** Evelyn Billings, Ann Westmore, 1980 *The Subfertility Handbook* Gabor Kovacs, 1997-09-11 An essential practical guide for clinicians treating patients with infertility *Population and Society* Dudley L. Poston, Jr, Leon F. Bouvier, 2016-12-28 This comprehensive yet accessible textbook is an ideal resource for undergraduate and graduate students taking their first course in demography Clearly explaining technical demographic issues without using extensive mathematics *Population and Society* is sociologically oriented but incorporates a variety of social sciences in its approach including economics political science geography and history It highlights the significant impact of decision making at the individual level especially regarding fertility but also mortality and migration on population change The text engages students by providing numerous examples of demography's practical applications in their lives and demonstrates the extent of its relevance by examining a wide selection of data from the United States Africa Asia and Europe This thoroughly revised edition includes four new chapters covering topics such as race and sexuality and encourages students to consider the broad implications of population growth and change for global challenges such as environmental degradation *Pregnancy and Childbirth* Jan de Vries, 2011-06-10 Allaying the doubts and fears which surround the most natural and yet probably the most traumatic experience a woman will go through *Pregnancy and Childbirth* takes you step by step through conception pregnancy labour and the care of your baby Calling upon a lifetime's experience in helping couples who have come to him following years of trying for a baby Jan de Vries explains how he has helped them with either herbal or homoeopathic medicine acupuncture or osteopathy He describes how acupuncture can help especially during labour and provides advice for couples who have undergone severe stress when dealing with problems such as impotence or feelings of inadequacy or rejection What emerges from his extensive research is an overwhelming sense of hope in the wonder of nature and joy at the miracle of each new birth *The Contraception Deception: Catholic Teaching on Birth Control* Patrick Coffin, 2018-05-01 *The Contraception Deception* Catholic Teaching on Birth Control by author Patrick Coffin is a comprehensive assessment of the Church's sexual ethic In this expanded revised edition of *Sex Au Naturel What It is and Why It's Good for Your Marriage* Coffin demonstrates how the rejection of *Humanae Vitae* impacts more than just our national birthrates With relevant insight into the development and reception of Paul VI's landmark 1968 encyclical Coffin explains why *Humanae Vitae* is more timely than ever In *The Contraception Deception* you'll learn where exactly the Bible teaches against birth control the differences between contraception and natural family planning hint they're more profound than you think why other reproductive technologies fall short of God's vision for marriage and family and most importantly how to rely on the ever present grace of God rather than your own strength in faithfully following this challenging life giving aspect of Christian discipleship *Biomedicine and Beatitude* Nicanor Pier Giorgio Austriaco, 2021-06-25 This timely and up to date new edition of *Biomedicine and Beatitude* features an entirely new

chapter on the ethics of bodily modification It is also updated throughout to reflect the pontificate of Pope Francis recent concerns including ethical issues raised by the COVID 19 pandemic and feedback from the many instructors who used the first edition in the classroom

Bodies of Technology Ann Rudinow Saetnan, Nelly Oudshoorn, Marta Stefania Maria Kirejczyk, 2000 This work is based on a concern for women's health and autonomy and on the premise that technology and society mutually shape one another A basic question is one of cultural appropriation Do technologies take on different shapes different practices and have different impacts as they spread from one place to another By juxtaposing a number of culturally and historically contextualized studies of similar technologies the editors demonstrate that although technologies globalize by spreading among cultures they are also localized by the cultures they encounter

The Long Sexual Revolution Hera Cook, 2004-02-05 In this book Hera Cook traces the path of sexuality in England and shows how its route was determined by the gradual exertion of control over fertility Most sexual activity had major economic and social costs the most fundamental of which was the physical cost of children upon women's bodies Around 1800 birth rates reached historical heights Using a combination of demographic and qualitative sources Dr Cook examines the connection between the struggle to lower fertility and the increasing repression of sexuality throughout the nineteenth century Contraception became a viable option in the early twentieth century The book charts the resulting slow relaxation of attitudes to sexuality and the remaking of heterosexual physical behaviour culminating in the sexual revolution of the 1960s
