The Black Power Imperative Racial Inequality And The Politics Of Nonviolence:

Black Enterprise ,1985-06 BLACK ENTERPRISE is the ultimate source for wealth creation for African American professionals entrepreneurs and corporate executives Every month BLACK ENTERPRISE delivers timely useful information on careers small business and personal finance The Black Power Imperative Theodore Lamont Cross,1984 **The Black Power Imperative** Theodore L. Cross,1987 **The Politics of Black Empowerment** James Jennings,2000-01-08 The Politics of Black Empowerment uses the experiences of grassroots activists to develop various conceptualizations and explanations of Black political behavior today In analyzing Black politics since the late 1960s James Jennings focuses on both the behavioral aspects such as individual and group characteristics of voting and nonvoting and elections as well as more fundamental philosophical and cultural questions regarding Black politics This study examines how the traditional face of Black politics and electoral activism interacts with a growing progressive face of Black politics While traditional Black political activists seek access or political incorporation another group aims for power sharing The traditional approach is sometimes satisfied with merely replacing white politicians with Blacks but the progressive constituency focuses on fundamentally changing the whole economic and political pie Activists desirous of Black empowerment are pursuing a political and economic orientation that goes beyond programs based on access to American institutional arrangements and attempting to change or alter given political arrangements and social relations between Blacks and whites on the basis of changing the social structure and the distribution of wealth and power Based on interviews with Black and Latino activists in several big cities as well as on a review of the literature and the Black newspapers around the country The Politics of Black Empowerment describes the characteristics of Black empowerment activism in America The Struggle for Black Equality Harvard Sitkoff,2008-09-30 The Struggle for Black Equality is a dramatic memorable history of the civil rights movement Harvard Sitkoff offers both a brilliant interpretation of the personalities and dynamics of civil rights organizations and a compelling analysis of the continuing problems plaguing many African Americans With a new foreword and afterword and an up to date bibliography this anniversary edition highlights the continuing significance of the movement for black equality and justice **Engines of the Black Power Movement** James L. Conyers, Jr.,2006-12-26 The decade of the 1960s was an era of protest in America and strides toward racial equality were among the most profound effects of the challenges to America s status quo But have civil rights for African Americans been furthered or even maintained in the four decades since the Civil Rights movement began To a certain extent the movement is popularly perceived as having regressed with the real issues tabled or hidden With a view to assessing losses and gains this collection of 17 essays examines the evolution and perception of the African American civil rights movement from its inception through today **Race, Politics, and Community Development Funding** Michael Bonds,2014-01-14 Learn how racial and political bias often contribute to the misuse of funding and affect low income and minority communities Share an insider s view of how race and politics impact the

distribution of city services and how the promises of elected African Americans and liberal whites to poor communities are often broken. Authored by a noted expert in urban studies, *Race Politics and Community Development Funding: The Discolor of Money* follows federal money designated to alleviate urban poverty and blight at the local level. Using a variety of research methods, the author shows how key actors—mayor, council members, public bureaucrats—often contribute to the misuse of funds. *Race Politics and Community Development Funding* follows the trail of over 247 million allocated to the city of Milwaukee, Wisconsin from 1975 to 1997. You'll learn where money designated to address problems of urban blight and poverty really went. Through interviews, participant observation, trace analysis, and a careful review of public records, this illuminating book follows that money and reveals the errors of those who argued that an increase in the number of black elected officials and community activists would result in more resources for low-income areas. Helpful charts, tables, and graphs illustrate the flow of federal dollars. With *Race Politics and Community Development Funding*, you'll gain a better understanding of how public bureaucracies are an extension of the executive branch, as opposed to being independent public agencies; how some agencies have used a variety of inaccurate and biased methods and evaluations to fund or not fund community-based organizations; the shortcomings of African American elected officials and biracial coalitions in obtaining resources for minority communities; how education, job training, and youth/family services are as important as who gets elected to office; and more. *Race Politics and Community Development Funding: The Discolor of Money* is a valuable resource for community organizers, low-income and minority advocates, undergraduate and graduate students interested in public policies, elected officials, and bureaucrats who make funding and implementation decisions, and everyone interested in racial politics and urban community development.

Ella Baker and the Black Freedom Movement, Second Edition Barbara Ransby, 2024-10-15. One of the most important African American leaders of the twentieth century and perhaps the most influential woman in the civil rights movement, Ella Baker (1903-1986) was an activist whose remarkable career spanned fifty years and touched thousands of lives. A gifted grassroots organizer, Baker shunned the spotlight in favor of vital behind-the-scenes work that helped power the Black freedom struggle. Making her way in predominantly male circles while maintaining relationships with a vibrant group of women students and activists, Baker was a national officer and key figure in the NAACP, a founder of the Southern Christian Leadership Conference, and a prime mover in the creation of the Student Nonviolent Coordinating Committee. In this definitive biography, Barbara Ransby chronicles Baker's long and rich career, revealing her complexity, radical democratic worldview, and enduring influence on group-centered grassroots activism. Beyond documenting an extraordinary life, Ransby paints a vivid picture of the African American fight for justice and its intersections with other progressive struggles worldwide throughout the twentieth century.

Critical Race Consciousness Gary Peller, 2015-10-23. Despite the apparent racial progress reflected in Obama's election, the African American community in the United States is in a deep crisis on many fronts: economic, intellectual, cultural, and spiritual. This book sets out to trace the ideological roots of this crisis.

Challenging the conventional historical narrative of race in America Peller contends that the structure of contemporary racial discourse was set in the confrontation between liberal integrationism and black nationalism during the 1960s and 1970s Arguing that the ideology of integration that emerged was highly conservative apologetic and harmful to the African American community this book is sure to provide a new lens for studying and learning from American race relations in the twentieth century Extremist for Love Rufus Burrow Jr. ,2014-01-01 In spite of extensive research and publishing on King insufficient attention has been given to the convergence of ideas and action in his life In an era where people are often sorted into the categories of thinker and doer King stands out a rare mix of the deeply profound thinker and intellect who put the fruit of that reflection into the service of direct social action
