The Bogomils A Study In Balkan Neomanichaeism

Christian G. Meyer

The Bogomils A Study In Balkan Neomanichaeism:

The Bogomils Dimitri Obolensky, Dimitri Obolensky, 2004-08-19 The Bogomils A Study in Balkan Neo Manichaeism traces the development of this little understood heresy from its Middle Eastern roots The Bogomils derived elements of their doctrine and practice from the Manichaeans and the Paulicians By the reign of Alexius Comnenus Bogomilism was rife within the Bulgarian and Byzantine empire and had taken hold even amongst influential families in Constantinople itself Though they suffered persecution decline and ultimate disappearance in their Balkan heartlands the Bogomils were subsequently an influence upon more celebrated heresies in France and Italy Dimitri Obolensky's magisterial study of Balkan dualism remains the definitive work on Bogomilism *Bogomils, a Study in Balkan Neo-manichaeism* Dimitri Obolensky, 1970 *The Bogomils* Dmitrij Obolenskij, 1948 *Conversion to Islam in the Balkans* Anton Minkov, 2004-04-01 This volume offers a new approach to the subject of conversion to Islam in the Balkans It reconstructs the stages of the Islamization process from the fifteenth to the nineteenth centuries and examines the factors and stimuli behind it The practice of accepting Islam in the front of the sultan characteristic of the last period of Islamization and granting to new Muslims an amount of money known as kisse bahas is shown in the context of Ottoman social development An innovative structural analysis of the petitions requesting kisse bahas leads to examining the origins of the practice and constructing a collective portrait of the new Muslims who submitted them Facsimiles and translations of the most interesting petitions are appended The Balkans and Caucasus Ivan Biliarsky, Ovidiu Cristea, Anca Oroveanu, 2012-01-17 The overall character of the Black Sea region has been defined over time in various ways For specialists in economy and trade it has represented a region at the crossroads of the trade routes between Europe and Asia for political scientists and historians it has been a space of confrontation between the great terrestrial and naval powers for the scholars attentive to its cultural dimensions it has been a contact zone a space of interaction between different peoples religions and cultures These attempts at a definition all revolve around an essential and ambivalent feature of the Black Sea as a factor of connection a bridge and at the same time a border a dividing line between Europe and Asia between the Baltic and the Mediterranean region In this fluctuation between the two the predominance of one over the other bridge or border has depended on a number of factors first among them the distribution of power relations in the region This volume which originated in a symposium hosted by the New Europe College Institute for Advanced Study in Bucharest brings together contributions coming from scholars within the Black Sea region and outside it in an attempt to look at the Balkans and Caucasus from a comparative and multi disciplinary perspective highlighting their differences as well as their common features The overarching question this volume and the papers included in it address and leave open is to what extent we are dealing with a coherent zone whose past present and future can legitimately be considered as being traversed by meaningful interrelations suggesting a shared destiny The Bulgarian-Byzantine Wars for Early Medieval Balkan Hegemony Dennis P. Hupchick, 2017-07-10 This book provides an interpretive narrative of the

wars fought by Bulgaria against the Byzantine Empire for dominant control of the Balkan Peninsula during the early medieval era. Over a span of two centuries from the early ninth through the early eleventh and under the leadership of the Bulgarian rulers Krum, Simeon I and Samuil, those conflicts evolved from simple confrontations for territorial possession into a life or death struggle for imperial precedence within the Orthodox world then emerging in Eastern Europe, a struggle that the Bulgarians ultimately lost. The primary focus is on Bulgaria rather than Byzantium and an effort is made to provide a historically reliable chronology of the assorted campaigns. The various belligerents' military organizations, defensive technologies, armaments and tactics are surveyed in an introduction to the main narrative. A prelude chapter sets the stage for the hegemonic conflict which was divided into three distinct phases by interludes of relative peace between the contending parties during which Bulgaria's domestic, foreign and cultural developments shaped the nature and conduct of the fighting in each successive phase.

Heresy and the English Reformation Georgi Vasilev, 2014-08-23. Medieval Europe was a hotbed of revolt against religious dogma. Particularly offensive to the established church were the views of the Cathars, whose dualist beliefs Rome condemned as heretical. Through a variety of literary works, this book explores the dualist religious movement which developed as a culture of the masses and took place in Europe between the 12th and 17th centuries. It examines the strong parallels between the Bogomils and Cathars and the religious practices of the British Lollards, extrapolating Lollardy's spread from eastern to western Europe. Providing numerous text comparisons, the work focuses on a number of authors including John Wycliffe, William Tynsdale, William Langland and John Milton, whose works exhibit the dualist philosophy.

A Most Holy War Mark Gregory Pegg, 2008-01-28. In January of 1208 a papal legate was murdered on the banks of the Rhone in southern France. A furious Pope Innocent III accused heretics of the crime and called upon all Christians to exterminate heresy between the Garonne and Rhone rivers, a vast region now known as Languedoc, in a great crusade. This most holy war, the first in which Christians were promised salvation for killing other Christians, lasted twenty bloody years; it was a long, savage battle for the soul of Christendom. In *A Most Holy War*, historian Mark Pegg has produced a swift-moving, gripping narrative of this horrific crusade, drawing in part on thousands of testimonies collected by inquisitors in the years 1235 to 1245. These accounts of ordinary men and women remembering what it was like to live through such brutal times bring the story vividly to life. Pegg argues that generations of historians and novelists have misunderstood the crusade; they assumed it was a war against the Cathars, the most famous heretics of the Middle Ages. The Cathars, Pegg reveals, never existed. He further shows how a millennial fervor about cleansing the world of heresy, coupled with a fear that Christendom was being eaten away from within by heretics who looked no different than other Christians, made the battles, sieges and massacres of the crusade almost apocalyptic in their cruel intensity. In responding to this fear with a holy genocidal war, Innocent III fundamentally changed how Western civilization dealt with individuals accused of corrupting society. This fundamental change, Pegg argues, led directly to the creation of the inquisition, the rise of an anti

Semitism dedicated to the violent elimination of Jews and even the holy violence of the Reconquista in Spain and in the New World in the fifteenth century All derive their divinely sanctioned slaughter from the Albigensian Crusade Haunting and immersive A Most Holy War opens an important new perspective on a truly pivotal moment in world history a first and distant foreshadowing of the genocide and holy violence in the modern world **Eastern Europe Bibliography** ,1993 A selective work that documents the formative impact of the region s earlier history Includes reference aids and bibliographies general and descriptive histories of the land peoples and economies and works depicting intellectual and cultural life The Paulician heresy Nina G. Garsoïan,2011-05-02 The Paulician heresy A study of the origin and development of Paulicianism in Armenia and the eastern provinces of the Byzantine empire
