Mysticism is the essence and the basis of all knowledge science art philosophy religion and literature These all come under the heading of mysticism When one traces the origin of medicine which has developed into the pure science it is today one will find that its source was in intuition It is the mystics who have given it to the world For instance Avicenna the great Persian mystic has contributed more to medicine than any other man in the world history of medicine We know the meaning of science to be a clear knowledge based on reason and logic but at the same time where did it start Was it by reason and logic First there was intuition then came reason and finally logic was applied to it Furthermore in the lower creation there are no doctors yet the creatures are their own physicians The animals know whether they will best be cured by standing in the sun by bathing in a pool of water by running in the free air or by sitting quietly under the shade of a tree I once knew a sensible dog who used to fast every Thursday No doubt many people of the east would say he was an incarnation of a Brahmin but to me it was a puzzle how the dog knew it was Thursday People think a mystic means a dreamer an impractical person who has no knowledge of worldly affairs But such a mystic I would call only half a mystic A mystic in the full sense of the word must have balance He must be as wise in worldly matters as in spiritual things People have had many misconceptions of what a mystic is They have called a fortune teller a mystic or a medium a clairvoyant a visionary I do not mean that a mystic does not possess all of these qualities but these qualities do not make a mystic A real mystic should prove to be an inspired artist a wonderful scientist an influential statesman He should be just as qualified for business industry social and political life as is the materially minded man When people say to me You are a mystic I thought you would take no notice of this or that I do not like it Why should I not take notice of it I take notice of every little detail although every little detail does not occupy my mind so much that I take notice of nothing else It is not necessary to be unconscious of the world while being conscious of God With our two eyes we see one vision so we should see both aspects God and the world as a clear vision at the same time It is difficult but not impossible *The Sufi Message of Hazrat Inayat Khan: The Sufi Teachings* Hazrat Inayat Khan,2020-09-28

SUFISM has never had a first exponent or a historical origin It existed from the beginning because man has always possessed the light which is his second nature and light in its higher aspect may be called the knowledge of God the divine wisdom in fact Sufism Sufism has always been practiced and its messengers have been people of

the heart thus it belonged to the masters as well as to others Tradition states that Adam was the first prophet which shows that wisdom was already the property of the first man There have always been some among the human race who have desired wisdom These sought out spiritual beings in their solitude serving them with reverence and devotion and learning wisdom from them Only a few could understand those spiritual beings but many were attracted by their great personalities They said We will follow you we will serve you we will believe in you we will never follow any other and the holy ones said to them My children we bless you Do this do that This is the best way to live And they gave their followers precepts and principles such as might produce in them meekness and humility In this way the religions were formed But in the course of time the truth was lost The tendency to dominate arose and with it the patriotism of the community and prejudice against others and thus wisdom was gradually lost Religion was accepted though with difficulty but the evolution of the world at that time was not such as could understand the Sufis They were mocked at ill treated ridiculed they were obliged to hide themselves from the world in the caves of the mountains and in the solitude At the time of Christ there were Sufis among the first of those who gave heed to him and in the time of Muhammad the Sufis on Mount Zafah were the first to respond to his cry One of the explanations of the term Sufi is this association with Mount Zafah Muhammad was the first to open the way for them in Arabia and they had many followers among them Sadik and Ali

Suhrawardi and the School of Illumination Mehdi Amin Razavi,1997 This study examines the life works and legacy of Shihab al Din Yahya Suhrawardi also known as Shaikh al ishraaq or the Master of Illumination

The Sufi Message of Hazrat Inayat Khan: Philosophy, Psychology and Myst Hazrat Inayat Khan,2020-09-28 There are three steps which lead the seeker to the altar of divine wisdom One is philosophy the next is psychology and the third is mysticism Philosophy is learned by the analysis and synthesis of all that we perceive through the five senses Psychology is learned by the analysis and synthesis of all that we can feel in human nature and in our character and mysticism is learned by the analysis and synthesis of the whole of life both that which is seen and that which is unseen Philosophy therefore is learned by the study of things psychology is learnt by thinking and mysticism is learned by meditation The one who takes these three steps towards divine knowledge completes his life s study but he omits the first or the second step philosophy or psychology and arrives directly at mysticism he leaves behind some knowledge that could have helped him impart his knowledge to others Therefore it is most essential that these threes steps be taken one after the other The words philosophy psychology and mysticism should not be interpreted in the sense in which they are generally used today By philosophy is not meant a certain philosophy By psychology is not meant a certain system By mysticism is not meant a certain occult science But by philosophy is meant the knowledge of things perceived through the intelligence or intuition by psychology the knowledge of the human character and of human nature and by mysticism the knowledge of being

The Sufi Message of Hazrat Inayat Khan: The Smiling Forehead Hazrat Inayat Khan,2020-09-28 By forehead is meant man s expression The smiling forehead is the pleasant expression it depends solely

upon man's attitude to life Life is the same for the saint and for Satan and if men are different it is because of their outlook on life The same life is turned by the one into heaven and by the other into hell There are two attitudes to one all is wrong to the other all is right Our life in the world from morning to evening is full of experiences good and bad which can be distinguished according to their degree And the more we study the mystery of good and bad the more we see that there really is no such thing as good and bad It is because of our attitude and the conditions that things seem good or bad It is easy for an ordinary person to say what is good or bad just or unjust it is very difficult for a wise man Although everyone according to his outlook on life turns things from bad to good and from good to bad everyone has his own grade of evolution and reasons accordingly Sometimes one thing is subtler than others and then it is difficult to judge There was a time when Wagner's music was not understood and another time when he was considered the greatest of musicians Sometimes things are good but our own evolution makes them less good for us What we considered good a few years ago may not seem good at a later degree of evolution At one time a child appreciates a doll most later it will prefer the work of great sculptors This proves that at every step and degree of evolution man's idea of good and bad changes Therefore a thinker will understand that there is no such thing as right or wrong If there is wrong all is wrong if there is right all is right The Sufi Message of

Hazrat Inayat Khan: The alchemy of happiness Inayat Khan, 1960 **The Sufi Message of Hazrat Inayat Khan: The Gathas** Hazrat Inayat Khan, 2020-09-28 There is a remarkable phrase in the Bible here it says Eat My flesh and drink My blood says Christ What does He mean by saying this He means in the first place that what a living being loves most is his food what he loves most he eats It has been proved in ferocious and dreadful famines by people eating their own children that food is dearer than their own child The word of Christ therefore Find out what it is in Me that you love which may become your nourishment which may become your food It is not this My flesh and blood this will not be sufficient to satisfy your appetite There is another part of My being which is in abundance and can nourish My numberless devotees Therefore before trying to eat My flesh and blood try to find out on what plane I really exist and what is My true being The lives of all the great saints show that not only their adversaries and opponents but also their near and dear friends have proved to be among their worst enemies There is a creature which loves its mate so much that it eats it Now as to the question what it is that Christ speaks of as his flesh and blood His flesh is the knowledge of God and His blood is the love of God because it is love that has a tendency so to speak to excite the circulation and it is knowledge which has the tendency to strengthen making man firm of which flesh is the symbol One thing without the other would be abnormal For instance flesh without blood or blood without flesh both are not normal conditions What gives normal health to the body and to the soul is flesh and blood both In the religious custom of the sacrament of bread and wine it is this secret which is symbolically expressed

The Sufi Message of Hazrat Inayat Khan: The Art of Personality Hazrat Inayat Khan, 2020-09-28 It is never too soon in the life of a child for it to receive education The soul of an infant is like a photographic plate which has never been exposed

before and whatever impression falls on that photographic plate covers it No other impressions which come afterwards have the same effect Therefore when the parents or guardians lose the opportunity of impressing an infant in its early childhood they lose the greatest opportunity In the Orient there is a superstition that an undesirable person must not be allowed to come near an infant If the parents or relatives see that a certain person should not be in the presence of an infant that person is avoided for the very reason that the infant is like a photographic plate The soul is negative fully responsive and susceptible to every influence and the first impression that falls on a soul takes root in it In the first place an infant brings with it to the earth the spirit with which it is impressed from the angelic spheres and from the plane of the jinn it has also inherited from the earth qualities from both its parents and of their families After coming on earth the first impression that an infant receives is from the environment the surroundings from those who touch it and move and work in its surroundings And the impression after coming to earth is so strong that very often it erases the impressions that an infant has inherited from the higher spheres and also the heritage from its parents This happens because the mind that has been formed of the impressions which the infant has brought from the higher spheres is not yet positive It is just like a pot of clay which has not yet gone through the fire it has not yet developed

Sufi Message of Hazrat Inayat Khan Inayat Khan,1979 *The Sufi Message of Hazrat Inayat Khan: The Art of Being* Hazrat Inayat Khan,2020-09-28

Many think that it is some deformity of the body a curve in the spine or cavity in the brain that affects the mind Few realize that very often the mind produces an irregularity in the spine or in the brain thereby causing an illness The ordinary point of view regards an illness as a physical disorder which can be cured by means of material remedies Then there is another point of view that of people who think deeply and who say that by not taking notice of an illness or by suggesting to oneself that one is well one can be restored to health This point of view can be exaggerated when some people claim that illness is an illusion that it has no existence of its own The ordinary point of view can also be exaggerated when one thinks that medicine is the only means of cure and that thought has little to do with actual illness Both these persons the one who looks at it from the ordinary point of view and the other who sees from a deeper point of view will find arguments for and against their idea Some people go as far as to say that medicine must not be touched by those who have faith and some affirm that an illness is as real as health It is in the absence of illness that a person can easily call pain an illusion but when he is suffering then it is difficult for him to call it an illusion The question who is more subject to illness a spiritual person or a material person may be answered thus a spiritual person who discards spiritual laws No doubt a spiritually inclined person is supposed to have less chance of being ill because his spirit has become harmonious through spirituality He creates harmony and radiates it He keeps to the realm of nature in tune with the Infinite Nevertheless a spiritual person s life in the midst of the world is like the life of a fish on land The fish is a creature of the water Its sustenance its joy its happiness are in the water A spiritual soul is made for solitude His joy and happiness are in solitude A spiritual person set in the midst of the world by destiny feels out of place and the ever jarring

influences of those around him and the continually striking impressions which disturb his finer senses make it more likely that he will become ill than those who push their way in the crowd of the world and are ready to be pushed away
