Explaining and Influencing Chinese Arms Transfers Karl W. Eikenberry, 1995 *To Agree or Not to Agree* Lisa Baglione, 2010-08-04 Why were the leaders of the United States and the Soviet Union able to negotiate a series of arms control agreements despite the deep and important differences in their interests during the Cold War Lisa A Baglione considers a variety of explanations for the successes and failures of these negotiations drawn from international relations theories Focusing on the goals and strategies of individual leaders and their ability to make these the goals and strategies of their nation the author develops a nuanced understanding that better explains the outcome of these negotiations Baglione then tests her explanation in a consideration of negotiations surrounding the banning of above ground nuclear tests the Strategic Arms Limitation Talks of the 1970s the negotiations for the limitation of intermediate range nuclear forces in the 1980s and the last negotiations between the Americans and the disintegrating Soviet Union in 1990 and 1991 How these great rivals were able to negotiate significant arms control agreements not only will shed light on international relations during an important period of history but will help us understand how such agreements might develop in the post Cold War period when arms proliferation has become a serious problem This book will appeal to scholars of international relations and arms control as well as those interested in bargaining and international negotiations and contemporary military history Lisa A Baglione is Assistant Professor of Political Science St Joseph s University **Saving Our Planet** Mostafa K. Goodby, Benoit Morel, 1993 This book presents a detailed assessment of the conditions for security relations between Washington and Moscow in the post cold war era focusing on the scope for future co operative management of common security Three main areas provide the context for a thematically and theoretically varied discussion the security and foreign policy implications of the transition from the Soviet to a Russian Commonwealth regime military power and international stability after the cold war and the political military and technological requirements for a new security relationship Between Development and Destruction Kumar Rupesinghe, Paul Sciarone, Luc van de Goor, 2016-07-27 Much has already been written about the effects of the changes of the Cold War on conflict The ongoing disengagement of East and West from bipolar Cold War politics has resulted in an unstable international political situation which is characterized by regional conflicts Most analyses now concentrate on the consequences for Europe and the former communist Central and East European states This book however explores the effects for the Third World The contributors provide major theoretical analyses of the causes of conflict in developing countries Four main factors are distinguished the processes of state formation and nation building the rise or return of

ethnicity and nationalism socio economic factors and the armaments conflict nexus The volume also provides in depth regional analyses as well as policy perspectives on the issue of conflict and development

Combating Weapons of Mass Destruction Nathan E. Busch, Daniel Joyner, 2009-01-01 The spread of weapons of mass destruction poses one of the greatest threats to international peace and security in modern times the specter of nuclear chemical and biological weapons looms over relations among many countries The September 11 tragedy and other terrorist attacks have been painful warnings about gaps in nonproliferation policies and regimes specifically with regard to nonstate actors In this volume experts in nonproliferation studies examine challenges faced by the international community and propose directions for national and international policy making and lawmaking The first group of essays outlines the primary threats posed by WMD proliferation and terrorism Essays in the second section analyze existing treaties and other normative regimes including the Nuclear Non Proliferation Treaty and the Chemical Weapons and Biological Weapons Conventions and recommend ways to address the challenges to their effectiveness Essays in part three examine the shift some states have made away from nonproliferation treaties and regimes toward more forceful and proactive policies of counterproliferation such as the Proliferation Security Initiative which coordinates efforts to search and seize suspect shipments of WMD related materials

The Politics of Ballistic Missile Nonproliferation W. Bowen, 2000-01-20 During the presidency of George Bush 1989 93 the proliferation of nuclear chemical and biological weapons and the ballistic missiles capable of delivering them rose greatly in significance as issues on the American security agenda In the missile field this became evident by the efforts of certain elements in the executive branch and several congressmen to improve domestic and international implementation of the Missile Technology Control Regime The Politics of Ballistic Missile Nonproliferation examines the political bureaucratic and systemic issues that interacted to determine the outcome of these efforts
