Contradictions: From Beowulf to Chaucer Theodore M. Andersson, 2016-12-05 This volume brings together a series of key essays by Larry D Benson well known for his work in editing the Riverside Chaucer Of the studies selected the opening three deal with Old English recasting the possibilities for the critical study of Beowulf above all the relation between oral and written literary production The following ten essays turn to Middle English literature with the focus first on Chaucer and the evolution of his works and his language then on the social and cultural context of medieval chivalric texts Throughout Professor Benson approaches his subjects with a skeptical intent even a seeming contrariness in seeking to contradict received views but in fact with the purpose of questioning in order to understand more deeply Scattered in their original publications and with one hitherto unpublished together these studies present a powerful argument for this questioning approach to fundamental issues and constitute a major contribution to the study of the literary and cultural history of the medieval world Larry D Benson is Francis Lee Higginson Professor of English Harvard University Green Knight Anonymous, 2012-10-19 Sir Gawain and the Green Knight is a masterpiece of medieval English literature and one of the finest Arthurian tales in any language Though its ingenious plotting and verbal artistry continue to dazzle readers it is written in a challenging regional dialect and uses many words that were already archaic when the poem was written in the late fourteenth century This edition is designed to make the poem in its original Middle English accessible to students and general readers Following standards adopted for editing other Middle English poets the edition lightly normalizes spellings to make words more recognizable for a modern audience Extensive marginal glossing of difficult words thorough on page explanatory notes and a comprehensive glossary offer further support for readers The historical appendices include other examples of medieval romance from France and Britain **Sir Gawain and the Green Knight** J. A. Style and Consciousness in Middle English Narrative John M. Ganim, 2014-07-14 John M. Ganim presents a revised theory of late medieval literary history based on the relationship of the poet to the reader His work shows how the increasingly compromised exemplary intent of later medieval poets led them to dramatize the reader as a character in the text and to develop complex forms of narrative characterized by discontinuity distortion and disorientation Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Chaucer and Middle English Studies Beryl Rowland, 2019-09-18 Originally published in 1974 The thirty six essays of this book were written and assembled in hour of an internationally recognised scholar of medieval literature Written by a diverse range of contributors the chapters cover not only various studies of aspects of Chaucer's poetry but also some other medieval authors and investigations about the period particularly referencing carols and hymns Twentieth Century Interpretations of Sir Gawain and the Green Knight Denton Fox, 1968 A great amount of critical commentary has been published on Sir Gawain and the Green Knight since the poem first appeared in print in 1839 In recent years it has become clearer that its author is dealing with profoundly important questions

when he shows Gawain alone in a baffling and inhuman world drawn between the demands of the perfect truth to which he has pledged himself and his own mortal imperfection The essays in this book show the variety of modern critical approaches to Sir Gawain and the Green Knight and to medieval literature in general Although the emphasis of this volume is on the poem s meaning and its literary qualities some essays throw light on the poem by examining fourteenth century attitudes toward chivalry or the legendary history of Gawain The contributors demonstrate that Sir Gawain and the Green Knight is not only the finest of the Middle English romances but one of the great English poems From publisher's description

Reconstructing Alliterative Verse Ian Cornelius, 2017-07-20 The poetry we call alliterative is recorded in English from the seventh century until the sixteenth and includes Caedmon's Hymn Beowulf Sir Gawain and the Green Knight and Piers Plowman These are some of the most admired works of medieval English literature and also among the most enigmatic The formal practice of alliterative poets exceeded the conceptual grasp of medieval literary theory theorists are still playing catch up today This book explains the distinctive nature of alliterative meter explores its differences from subsequent accentual syllabic forms and advances a reformed understanding of medieval English literary history The startling formal variety of Piers Plowman and other Middle English alliterative poems comes into sharper focus when viewed in diachronic perspective the meter was in transition to understand it we need to know where it came from and where it was headed at the moment it Routledge Revivals: Medieval England (1998) Paul E. Szarmach, M. Teresa Tavormina, Joel T. The Passing of Arthur Christopher Baswell, William Sharpe, 2014-08-13 Originally published in 1988 this volume contains papers from and commissioned after The Passing of Arthur a conference on Medieval and Renaissance Studies in November 1986 No Arthurian story is experienced without some foreknowledge of its end which the text acknowledges through a complex range of methods This collection takes this as its point of origin suggesting that all such narratives concern the passing of Arthur even indirectly so the chapters not only look at the death of Arthur but the passing on and development of

the Arthurian literature The figure of Arthur and the Round Table continues to fascinate contemporary readers This interesting collection presents a wide range of Arthurian studies approaches representing some of the vast scholarship on **Pearl** Sarah Stanbury, 2001-12-01 Pearl resists identification by author date occasion or place of composition still it is almost unanimously hailed as one of the masterpieces of our literature so skilled is its author so eloquent its language It is a story according to Sarah Stanbury of crossing over the stepping out from the ordinary life into a parallel universe where things operate by different natural laws down the rabbit hole through the wardrobe or looking glass across the ocean to be shipwrecked on Prospero s island or more recently across a bridge to the island of Willow Springs in Gloria Navlor's haunting novel Mama Day where the crossing over moves into a place of memory and hope the nostalgic space of home as well as Beulah or Eden the earthly paradise Meter and Modernity in English Verse, 1350-1650 Eric Weiskott, 2021-01-15 What would English literary history look like if the unit of measure were not the political reign but the poetic tradition The earliest poems in English were written in alliterative verse the meter of Beowulf Alliterative meter preceded tetrameter which first appeared in the twelfth century and tetrameter in turn preceded pentameter the five stress line that would become the dominant English verse form of modernity though it was invented by Chaucer in the 1380s While this chronology is accurate Eric Weiskott argues the traditional periodization of literature in modern scholarship distorts the meaning of meters as they appeared to early poets and readers In Meter and Modernity in English Verse 1350 1650 Weiskott examines the uses and misuses of these three meters as markers of literary time medieval or modern though all three were in concurrent use both before and after 1500 In each section of the book he considers two of the traditions through the prism of a third element alliterative meter and tetrameter in poems of political prophecy alliterative meter and pentameter in William Langland's Piers Plowman and early blank verse and tetrameter and pentameter in Chaucer his predecessors and his followers Reversing the historical perspective in which scholars conventionally view these authors Weiskott reveals Langland to be metrically precocious and Chaucer metrically nostalgic More than a history of prosody Weiskott's book challenges the divide between medieval and modern literature Rejecting the premise that modernity occurred as a specifiable event he uses metrical history to renegotiate the trajectories of English literary history and advances a narrative of sociocultural change that runs parallel to metrical change exploring the relationship between literary practice social placement and historical time

English Historical Metrics C. B. McCully, J. J. Anderson, 1996-11-13 This volume identifies historical metrics as an important discipline within English studies and raises significant questions about the composition and transmission of early English verse The chronological range of the book covers the Old English to the pre Renaissance periods while its theoretical range is multidisciplinary. The keynote introduction by Thomas Cable identifies major current issues within the field. The work concludes with an extensive and up to date bibliography which includes linguistics philological and text critical work. The distinguished team of contributors includes Russom McCully and Obst focusing on Old English with a conspectus by

Stockwell Minkova on the Ormulum and early Middle English Borroff Matonis and Osberg Middle English verse Bunt and Duggan editing and Middle English metrics and Duffell and Youmans the origin and structure of the Chaucerian long line Ineffability Peter S. Hawkins, Anne Howland Schotter, 2016-03-03 The essays in this volume explore the persistent struggle of language to overcome its own limitations Given their scope from Dante's confrontation with the divine All to Samuel Beckett's obsessive need to speak in the face of Nothing they expand our notion of the extent to which all speech is an assault on silence an attempt to articulate what lies beyond the grasp of words The collection offers the reader in roughly chronological order diverse conceptions of the ineffable as either superfluity or absence of reality It also exposes language in the act of extending its own boundaries drawing attention to those literary tactics by which speech attempts to suggest what cannot be said While largely a study of poetry from medieval to modern the volume also touches upon drama and a variety of prose combining close textual readings with broader thematic discussions
