Depictions and Images of War in Edwardian Newspapers, 1899-1914 G. Wilkinson, 2002-12-13 Through a detailed examination of newspaper coverage from 1899 1914 this book seeks to understand the vicarious experience of warfare held by Edwardians at the outset of the First World War The attitudes towards and perceptions of war held by those who participated in it or encouraged others to do so are crucial to our understanding of the origins of the First World War Taking into account media history cultural studies and military history Wilkinson argues that the press depicted war as distant and safe beneficial and desirable and even as some kind of sport or game We are cautioned to avoid the same misconceptions of war in our own contemporary discussions of armed conflict *Birnbaum's Great Britain, 1990* Stephen Birnbaum, 1989-12

Chivalric Stories as Children's Literature Velma Bourgeois Richmond, 2014-10-01 Knights and ladies giants and dragons tournaments battles quests and crusades are commonplace in stories for children This book examines how late Victorians and Edwardians retold medieval narratives of chivalry epics romances sagas legends and ballads Stories of Beowulf Arthur Gawain St George Roland Robin Hood and many more thrilled

and instructed children and encouraged adult reading. Lavish volumes and schoolbooks of the era featured illustrated texts many by major artists. Children's books, an essential part of Edwardian publishing, were disseminated throughout the English speaking world. Many are being reprinted today. This book examines related contexts of Medievalism expressed in painting, architecture, music, and public celebrations, and the works of major authors including Sir Walter Scott, Tennyson, Longfellow, and William Morris. The book explores national identity expressed through literature, ideals of honor and valor in the years before World War I, and how childhood reading influenced 20th century writers as diverse as C. S. Lewis, J. R. R. Tolkien, Siegfried Sassoon, David Jones, Graham Greene, Ian Fleming, and John Le Carré. *Heinemann Mathematics 4*, 1996. The Heinemann Mathematics scheme has been developed by the authors of the primary course SPMG with the aim of building on established strengths to provide a structured development of children's mathematical knowledge and skills within the revised curricula. **Children's Books in Print**, R. R. Bowker Publishing, Bowker, 1999-12. The Toon, R. Hutchinson, Roger Hutchinson, 2011-11-04. This is the full story, unofficial and uncensored, of one of the greatest football clubs in the country. From its birth in the 1890s to its rebirth in the 1990s and up to season 2003-4, The Toon tells of a small soccer club long in the shadow of an enormous rival which grew to eclipse that rival and every other club in Great Britain. Roger Hutchinson brings to life the sensational early successes of Newcastle United, recreating the great Anglo-Scottish team which dominated the Football League before the First World War. He vividly describes the helter-skelter attacking sides of the 1930s and the Cup giants of the 1950s, and gives us the European conquerors of the 1960s and the squads of the 1970s and 80s, before showing us how today's cosmopolitan side of title-chasing internationals was built. This lively, hard-hitting book portrays the brilliant management of such legends as Frank Watt, and takes us down through the thrilling decades right up to the reign of Sir Bobby Robson. In its pages we see the educated play of Andy Aitken and Colin Veitch; we watch as the fast and furious centre-forward play of Jock Peddie paves the way for the era of the great Hughie Gallacher and the unique Jackie Milburn. It assesses the merits of all of their heirs, from Keegan to Beardsley, from MacDonald to Shearer, from Moncur to Dyer. Exploring and explaining the lean years as well as the successful decades, The Toon exposes the bad managers, incompetent directors, and players who were unworthy of the black and white stripes. It takes an unflinching look at the lost opportunities and the Geordie footballers who went missing. But it also offers us the geniuses, the household names, the men who have lit up Tyneside and the world beyond in a hundred-year sequence of unforgettable League and Cup campaigns. Most of all, The Toon looks from the past towards a glorious future. *A Critical History of Health, Sport, and Physical Education*, Michelle Gorzanelli, Jorge Knijnik, 2025-07-01. This book fills a gap in literature by generating a combined history of Physical Education, PE, School Sport, SS, and Health Education, HE, in New South Wales (NSW) public schools from 1880 to 2024. It includes broad discussions on how political issues such as the World Wars influenced i) the PE curriculum, which was used as a medium to prepare a fit army; ii) the school sport system, which acted as an expression of national strength via showcasing sporting

prowess on the international stages of the Olympic Games and iii the health education curriculum which addressed infectious diseases resulting from poor hygiene associated with poverty The book also adopts a socio cultural perspective to the constructs of PE SS and HE curricula and highlights significant local national and international historical events and issues as factors driving curriculum developments and paradigm shifts in these subjects in the NSW public education and beyond It brings new and engendering socio historical findings to the discipline fields of PE SS and HE combined with an innovative methodology in critical historiographical studies **Sport, Politics and the Working Class** Stephen G. Jones,1992

The Schooling of Girls in Britain and Ireland, 1800- 1900 Jane McDermid,2013-03-07 This book compares the formal education of the majority of girls in Britain and Ireland in the nineteenth century Previous books about Britain invariably focus on England and such British studies tend not to include Ireland despite its incorporation into the Union in 1801 The Schooling of Girls in Britain and Ireland 1800 1900 presents a comparative synthesis of the schooling of working and middle class girls in the Victorian period with the emphasis on the interaction of gender social class religion and nationality across the UK It reveals similarities as well as differences between both the social classes and the constituent parts of the Union including strikingly similar concerns about whether working class girls could fulfill their domestic responsibilities What they had in common with middle class girls was that they were to be educated for the good of others This study shows how middle class women used educational reform to carve a public role for themselves on the basis of a domesticated life for their lower class sisters confirming that Victorian feminism was both empowering and constraining by reinforcing conventional gender stereotypes **Children's Books in Print, 2007** ,2006 **Experiencing Immersion in Antiquity and Modernity** Emma Cole,2025-07-10 This book examines the links between experiencing immersion in antiquity and modernity Immersive experiences are big business within today s creative economy Forms range from immersive museum exhibitions theatrical performances art installations and experiences facilitated through virtual and augmented reality technologies Yet the idea of immersion is not new paintings sculpture and theatre have all been theorised historically in terms of illusion realism and immersion From antiquity to modernity there has been an interest in theorising the relationship between reality and virtual realities and in contemplating whether feeling present in an alternate universe is a sought after experience or something problematic and dangerous The chapters in this volume explore the warnings against immersion voiced by Plato and embodied in the figure of the Homeric sirens contrasted with the pro immersion perspectives championed by Aristotelian mimesis and embodied in the concept of enargeia The volume also examines the integration of the ancient world into immersive novels games museum exhibitions and theatrical performances Practice as Research contributions explore the benefits of this synergy from practitioner perspectives Contributors from diverse fields including classical reception studies art history game studies heritage studies and theatre studies approach the interplay between antiquity and modernity from varied standpoints Together they uncover previously unforeseen connections across disciplines
