Social And Antisocial:

Public Welfare in Indiana Indiana. Dept. of Public Welfare, 1928 **The Indiana Bulletin of Charities and Correction**, 1925 **Human Nature as Capacity** Nigel Rapport, 2010 What is it to be human What are our specifically human attributes our capacities and liabilities Such questions gave birth to anthropology as an Enlightenment science This book argues that it is again appropriate to bring the human to the fore to reclaim the singularity of the word as central to the anthropological endeavor not on the basis of the substance of a human nature To be human is to act like this and react like this to feel this and want this but in terms of species wide capacities capabilities for action and imagination liabilities for suffering and cruelty The contributors approach the human with an awareness of these complexities and particularities rendering this volume unique in its ability to build on anthropology's ethnographic expertise **10. Wolman, 2009-12-30 Antisocial behavior takes on many forms from rebellious teens with green hair and pierced skin to the truly dangerous homicidal individuals whose horrible stories fill our newspapers Parents worry about their children as they are exposed to the heated climate of violence in contemporary society a time of decaying morals and values The rise in sociopathic behavior among adults and children whether in tense inner cities or in tranquil suburban and rural

settings is masterfully chronicled by Dr Benjamin B Wolman a leading psychologist and noted national expert who has studied these trends for over half a century There is a growing incidence of sociopathic antisocial behavior coupled with an attitude of moral apathy Dr Wolman asserts He cites international statistics pointing to a showdown between dangerous individuals the violent the charming and the passive and the societies that create them How has the spread of democratic ideals actually increased the potential for antisocial behavior What social and cultural factors must be changed if free societies are to reduce this alarming trend Rather than simply complain about the problem Dr Wolman examines the familial and societal causes and proposes clear cut solutions to the problem including radical changes to our educational system and the mass media

Apes and Human Evolution Russell H. Tuttle,2014-02-17 In this masterwork Russell H Tuttle synthesizes a vast research literature in primate evolution and behavior to explain how apes and humans evolved in relation to one another and why humans became a bipedal tool making culture inventing species distinct from other hominoids Along the way he refutes the influential theory that men are essentially killer apes sophisticated but instinctively aggressive and destructive beings Situating humans in a broad context Tuttle musters convincing evidence from morphology and recent fossil discoveries to reveal what early primates ate where they slept how they learned to walk upright how brain and hand anatomy evolved simultaneously and what else happened evolutionarily to cause humans to diverge from their closest relatives Despite our genomic similarities with bonobos chimpanzees and gorillas humans are unique among primates in occupying a symbolic niche of values and beliefs based on symbolically mediated cognitive processes Although apes exhibit behaviors that strongly suggest they can think salient elements of human culture speech mating proscriptions kinship structures and moral codes are symbolic systems that are not manifest in ape niches This encyclopedic volume is both a milestone in primatological research and a critique of what is known and yet to be discovered about human and ape potential Criminal Justice in the American City - a Summary Roscoe Pound,1922 Criminal Justice in Cleveland Cleveland Foundation,Raymond Blaine Fosdick,1922
