**Social Change and Prejudice Including Dynamics of Prejudice** Bruno Bettelheim, Morris Janowitz, 1964      **The Romance of American Psychology** Ellen Herman, 2024-03-29 Psychological insight is the creed of our time. A quiet academic discipline two generations ago, psychology has become a voice of great cultural authority informing everything from family structure to government policy. How has this fledgling science become the source of contemporary America's most potent ideology? In this groundbreaking book, the first to fully explore the political and cultural significance of psychology in post-World War II America, Ellen Herman tells the story of America's love affair with the behavioral sciences. It began during wartime. The atmosphere of crisis sustained from the 1940s through the Cold War gave psychological experts an opportunity to prove their social theories and behavioral techniques. Psychologists, sociologists, and anthropologists carved a niche within government and began shaping military, foreign, and domestic policy. Herman examines this marriage of politics and psychology, which continued through the tumultuous 1960s. Psychological professionals' influence also spread among the general public. Drawn by promises of mental health and happiness, people turned to these experts for enlightenment. Their opinions validated postwar social movements from civil rights to feminism and became the basis of a new world view. Fascinating and long overdue, this book illuminates one of the dominant forces in American society. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1995.

***The Anatomy of Prejudices*** Elisabeth Young-Bruehl, 1996 Among the many forms of prejudice, Young-Bruehl pays particular attention to four: antisemitism, racism, sexism, and homophobia, which she exposes in their distinctiveness and their similarities.

***Review of Child Development Research*** Lois Wladis Hoffman, Martin L. Hoffman, 1966-12-31 Makes a major contribution to current research on children by providing a broad view of up-to-date authoritative material in many different areas. Contributors have selected and interpreted the relevant material in reference to the practitioner's interests and needs. The chapters, written by prominent specialists, cover various topics in child development from early periods of socialization to the development of higher mental processes and include two chapters dealing with genetic and neurophysiological bases of behavior.

***Muslims in India*** Qamar Hasan, 1987 The work is unique in the sense that it has not only delved into historical antecedents of the contemporary attitudes of the new generation of Indian Muslims but has also brought out their adjustment mechanisms and reactions to the demands which are made upon them from a section of the majority. For the understanding of different aspects of behaviour of the minority vis-à-vis the majority, the author has liberally drawn upon the relevant literature of three branches of social sciences: viz. Psychology, Sociology, and Political Science. The

studies of minority majority relations elsewhere are referred to for making the reader aware that to a very large extent minorities wherever they are found behave in the similar way. Reviews The perspective offered by the author in the present study augurs well for the cause of nation building in the specific context of the persisting and ever elusive communal problem in India. Prof Iqbal Narain The publication is so fascinating that I read more than half by the time I reached Lucknow. Prof H S Asthana The first full length study of the mass psychology of the Muslim mind after Mujib's *The Indian Muslims*. Qamar Hasan has used the tools of academic research to study the Muslim factor in Indian Politics. read it because it is a same voice in the madness all around. Tapan Basu Sunday The book clearly brings out reactions indicative of fear of domination and urge to dominate. The book has made a definite contribution in the understanding of inter and intra group relationships. Pramod Kumar The author must be complimented for his bold and frank revelations about the attitudes of Muslims and Hindus towards each other, their self appraisals and their assessment. Dr K Ravichandra Review Projector Vol VIII Nos 10 12 The causes and cures of the serious problems bedeviling relations between the Muslim minority in India and the Hindu majority badly need studying within a socio psychological framework. Qamar Hasan is on the right track for a social scientist to throw light on the problems of his people but he needs to settle on just one frame of reference and typology and then test some bolder hypotheses.
