Philosophy Paschall Mungwini,2017-12-29 Some of the most provocative questions confronting philosophers in Africa are grounded in the historical memory of conquest and the peripheralisation the continent Mungwini offers a critical reconstruction of indigenous Shona philosophy as an aspect of the African intellectual heritage held hostage by colonial

modernity In this comprehensive work he lays bare the thoughts of the Shona who are credited with the founding of the ancient Great Zimbabwe civilisation Retracing the epistemic thread in the fabric of Shona culture and philosophy he explores the assumptions that inform their thinking The exchange of such knowledge is fundamental to the future of humanity

devoted to the major substantive themes in historical sociology ranging from state formation nationalism social movements classes patriarchy architecture religion and moral regulation to problems of periodization and East West divisions Each part includes an introduction that summarizes and contextualizes chapters A general introduction to the volume outlines the current situation of historical sociology after the cultural turn in the social sciences It argues that historical sociology is deeply divided between explanatory sociological approaches and more empirical and interpretative historical approaches Systematic and informative the book offers readers the most complete and authoritative guide to historical sociology

Fazendeiro, 2017-08-25 Uzbekistan's foreign policy from 1991 to 2016 starting from independence right up to the death of its first president Islam Karimov is one of the more distinctive approaches to international politics since the end of the Cold War This distinctiveness rests on the republic's gradual struggle for self reliance upon becoming independent Authorities in Uzbekistan especially its President were sceptics of the norms that came to prevail across regional and broader international politics This book addresses the making of Uzbekistan's general foreign policy and its corresponding effects outside Central Asia particularly at the highest level among state officials heads of state and ministers It shows how a particular set of promises slogans and attitudes became the pillars upon which Uzbekistan's international role was shaped a role which then affected Tashkent's twenty five year relations with Russia the United States Germany and Turkey The book argues that the Government of Uzbekistan sought to be recognised as a self reliant power after independence but that the international norms of the post Cold War order coupled with the conflicting aims of the partners with whom it interacted hindered acknowledgement and contributed to a twenty year struggle for recognition Providing a thorough assessment of President Karimov's legacy in the foreign policy domain this book contributes to the developing field of role theory and recognition in International Relations It will also be of interest to academics in the fields of Central Asian and Eurasian politics and international relations
