upon his previous books about Marx Hayek and Rand Total Freedom completes what Lingua Franca has called Sciabarra's epic scholarly quest to reclaim dialectics usually associated with the Marxian left as a methodology that can revivify libertarian thought Part One surveys the history of dialectics from the ancient Greeks through the Austrian school of economics Part Two investigates in detail the work of Murray Rothbard as a leading modern libertarian in whose thought Sciabarra finds both dialectical and nondialectical elements Ultimately Sciabarra aims for a dialectical libertarian synthesis highlighting the need not sufficiently recognized in liberalism to think of the totality of interconnections in a dynamic system as the way to ensure human freedom while avoiding totalitarianism such as resulted from Marxism *Appearance and Reality in Politics* W. Dreams in Chinese Fiction Johannes D. Kaminski, 2024-06-07 This book considers the contemporary political formula of the Chinese Dream in the light of the treatment of dreams in Chinese literary history since antiquity Sinic literary and philosophical texts document an extensive spectrum of dream possibilities starting with Zhuangzi's eminent butterfly dream an early example of the inversion of the dreamer's reality through to confusing visions of the spiritual realm In classical dramas novels and ghost stories dreams see the earthly realm enter into conflict with higher realms of existence They indulge the dreamer's quest for sensual pleasures but then spiritual beings relentlessly harvest the dreamer's life energy Dreams promise spiritual enlightenment only to abandon the dreamer in a state of utter confusion In the early twentieth century traditional dream knowledge is abandoned in favour of Freudian episodes of sexual repression In this context the collective national dream emerges as an unexpected vehicle of the pained individual's hope for national rejuvenation

Ollman, T. Smith, 2008-02-27 This anthology contains some of the more important Marxist thinkers now working on dialectics As a whole the book is an unusual Introduction to Dialectics a systematic restatement of what it is and how to use it a survey of most of the main debates in the field and a good picture of the current state of the art of dialectics **Dance of the Dialectic** Bertell Ollman, 2003 Bertell Ollman has been hailed as this country's leading authority on dialectics and Marx's method by Paul Sweezy the editor of *Monthly Review* and dean of America's Marx scholars In this book Ollman offers a thorough analysis of Marx's use of dialectical method Marx made extremely creative use of dialectical method to analyze the origins operation and direction of capitalism Unfortunately his promised book on method was never written so that readers wishing to understand and evaluate Marx's theories or to revise or use them have had to proceed without a clear grasp of the dialectic in which the theories are framed The result has been more disagreement over what Marx really meant than over the writings of any other major thinker In putting Marx's philosophy of internal relations and his use of the process of abstraction two little studied aspects of dialectics at the center of this account Ollman provides a version of Marx's method that is at once systematic scholarly clear and eminently useful Ollman not only sheds important new light on what Marx really meant in his varied theoretical pronouncements but in carefully laying out the steps in Marx's method makes it possible for a reader to put the dialectic to work in his or her own research He also convincingly argues the case for why social scientists and humanists as well as philosophers should want to do so
