The Big Bang The Creation Of The Universe:

The Big Bang Lydia Bailey, Nancie Warner, 1982 *Genesis and the Big Bang Theory* Gerald Schroeder, 2011-09-21 A ground breaking book that takes on skeptics from both sides of the cosmological debate arguing that science and the Bible are not at odds concerning the origin of the universe The culmination of a physicist's thirty five year journey from MIT to Jerusalem *Genesis and the Big Bang* presents a compelling argument that the events of the billions of years that cosmologists say followed the Big Bang and those of the first six days described in Genesis are in fact one and the same identical realities described in vastly different terms In engaging accessible language Dr Schroeder reconciles the observable facts of science with the very essence of Western religion the biblical account of Creation Carefully reviewing and interpreting accepted scientific principles analogous passages of Scripture and biblical scholarship Dr Schroeder arrives at a conclusion so lucid that one wonders why it has taken this long in coming The result for the reader whether believer or skeptic Jewish or Christian is a totally fresh understanding of the key events in the life of the universe **The Big Bang** Joseph Silk, 1989 Describes the Big Bang scientific theory of creation of the universe The Creation of the Universe George Gamow, 2004-01-01 Lively and authoritative this survey by a renowned physicist explains the formation of the galaxies and defines the concept of an ever expanding universe in simple terms 1961 edition 40 figures , **The Big Bang the Creation and Evolution of the Universe** Joseph Silk, 1980 **Creation and the God of Abraham** David B. In a world filled with scientific explanations and theories it can be easy to lose sight of the ultimate truth of our existence The truth is that the universe with all its intricate complexities did not come into being by mere chance or a random explosion It was carefully designed and orchestrated by a higher power a Creator who holds everything together When we look up at the night sky and see the countless stars and galaxies stretching out into infinity we cannot help but be in awe of the sheer magnitude and beauty of it all The heavens declare the glory of God as it says in the Bible and remind us of the greatness of the one who made it all The theory of the Big Bang which posits that the universe began as a singular point and expanded over billions of years is a flawed explanation for the origin of the universe It fails to account for the intricate design and order that we see in the cosmos as well as the existence of life on earth The marvel of our planet Earth with its perfect conditions for sustaining life points to a Creator who had a purpose and a plan in mind when he made it The countless galaxies and stars that we observe in the universe are a testament to the power and creativity of God They show us that we are part of a vast and wondrous creation one that was made by an intelligent designer who had a vision for it all The theory of evolution put forth by Charles Darwin is another flawed explanation for the diversity of life on earth It fails to explain the intricate complexities of living organisms and their unique design as well as the existence of the human soul It is clear that we are not the product of blind chance or random mutations but rather the handiwork of a loving and powerful Creator The truth of the origin of the universe points to a Creator who holds everything together and has a purpose and a plan for it all God stretches out the heavens and allows light to reach us here on earth showing us his care and provision for his creation We are not the product of random chance or blind evolution but rather the cherished creation of a loving God who made us in his image Let us never forget the marvel and wonder of the universe and the greatness of the one who made it all
