The Biochemical And Immunological Basis Of Bronchial Asthma:

The Biochemical and Immunological Basis of Bronchial Asthma Kjell Aas,1972 *Molecular and Biological Aspects of the Acute Allergic Reaction* S. Johansson,2013-03-07 Ladies and Gentlemen dear guests It is my great pleasure and privilege to extend our heartiest welcome to you the participants of this 33rd Nobel symposium To those of you who have not attended a Nobel symposium before I would like just briefly to explain why Nobel's name is linked to this series of symposia Alfred Nobel who died in San Remo in 1896 donated the main part of his fortune to the promotion of international science and culture by establishing annual prizes for outstanding discoveries or contributions within five fields chemistry physics physiology or medicine literature and peace The annual awards should be distributed by five corresponding prize committees out of which four in Stockholm and one in Oslo at that time Sweden and Norway were a united kingdom The Nobel Foundation was instituted in 1900 with the main function to administer economically the Nobel Donation It has done so very successfully The Foundation has even been able to beat the inflation and the prizes have steadily increased during the last 20 years It might interest you to hear that this year's prizes will amount to 681 000 Sw crowns each Due to the favourable financial development and also due to additional donations the Nobel Foundation decided to extend its interests by promoting the arrangements of symposia lectures and other international scientific activities **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1971 **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965-70 *Allergy Frontiers:Classification and Pathomechanisms* Ruby Pawankar,Stephen T. Holgate,Lanny J. Rosenwasser,2009-03-13 When I entered the field of allergy in the early 1970s the standard textbook was a few hundred pages and the specialty was so compact that texts were often authored entirely by a single individual and were never larger than one volume Compare this with Allergy Frontiers Epigenetics Allergens and Risk Factors the present's volume text with well over 150 contributors from throughout the world This book captures the explosive growth of our specialty since the single author textbooks referred to above The unprecedented format of this work lies in its meticulous attention to detail yet comprehensive scope For example great detail is seen in manuscripts dealing with topics such as Exosomes naturally occurring minimal antigen presenting units and Neuropeptide S receptor 1 NPSR1 an asthma susceptibility gene The scope is exemplified by the unique approach to disease entities normally dealt with in a single chapter in most texts For example anaphylaxis a topic usually confined to one chapter in most textbooks is given five chapters in Allergy Frontiers This approach allows the text to employ multiple contributors for a single topic giving the reader the advantage of being introduced to more than one viewpoint regarding a single disease Chemistry and Biology of the Kallikrein-kinin System in Health and Disease John J. Pisano,Karl Frank Austen,1977 The diversity and significance of recent research on the kallikrein-kinin system provided the impetus for this international conference the purpose of which was the assessment of our knowledge and the development of a base from which to plan future research Through the generous

support of the Fogarty International Center and of the National Heart Lung and Blood Institute the Organizing Committee was able to bring together authorities in virtually every aspect of kinin research The kallikrein kinin field was divided into three major areas A Characterization and assays of components of the kallikrein kinin systems B Interacting systems Fibrinolysis complement coagulation and prostaglandins and C Physiological pathological and clinical significance Invited experts were instructed to present concise critical reviews along with any new data Time was also provided for discussants to present relevant comments and data Selected discussions accompany the keynote reports and these comprise the short chapters
