The Birth Of A Whale:

The Birth of a Whale John Archambault, 1996 Simple poetic text describes the behavior of humpback whales and the birth of a baby humpback

The Birth of Theory Andrew Cole, 2014-06-15 Modern theory needs a history lesson Neither Marx nor Nietzsche first gave us theory Hegel did To support this contention Andrew Cole's *The Birth of Theory* presents a refreshingly clear and lively account of the origins and legacy of Hegel's dialectic as theory Cole explains how Hegel boldly broke from modern philosophy when he adopted medieval dialectical habits of thought to fashion his own dialectic While his contemporaries rejected premodern dialectic as outdated dogma Hegel embraced both its emphasis on language as thought and its fascination with the categories of identity and difference creating what we now recognize as theory distinct from systematic philosophy Not content merely to change philosophy Hegel also used this dialectic to expose the persistent archaism of modern life itself Cole shows establishing a method of social analysis that has influenced everyone from Marx and the nineteenth century Hegelians to Nietzsche and Bakhtin all the way to Deleuze and Jameson By uncovering these theoretical filiations across time *The Birth of Theory* will not only change the way we read Hegel but also the way we think about the histories of theory With chapters that powerfully reanimate the overly familiar topics of ideology commodity fetishism and political economy along with a groundbreaking reinterpretation of Hegel's famous master slave dialectic *The Birth of Theory* places the disciplines of philosophy literature and history in conversation with one another in an unprecedented way Daring to reconcile the sworn enemies of Hegelianism and Deleuzianism this timely book will revitalize dialectics for the twenty first century

Lesson Guide for Captioned Films, XX, 1984 W. Arthur Lewis and the Birth of Development Economics Robert L. Tignor, 2020-06-23 W Arthur Lewis was one of the foremost intellectuals economists and political activists of the twentieth century In this book the first intellectual biography of Lewis Robert Tignor traces Lewis's life from its beginnings on the small island of St Lucia to Lewis's arrival at Princeton University in the early 1960s A chronicle of Lewis's unflinching efforts to promote racial justice and decolonization it provides a history of development economics as seen through the life of one of its most important founders If there were a record for the number of firsts achieved by one man during his lifetime Lewis would be a contender He was the first black professor in a British university and also at Princeton University and the first person of African descent to win a Nobel Prize in a field other than literature or peace His writings which included his book *The Theory of Economic Growth* were among the first to describe the field of development economics Quickly gaining the attention of the leadership of colonized territories he helped develop blueprints for the changing relationship between the former colonies and their former rulers He made significant contributions to Ghana's quest for economic growth and the West Indies desire to create a first class institution of higher learning serving all of the Anglophone territories in the Caribbean This book based on Lewis's personal papers provides a new view of this renowned economist and his impact on economic growth in the twentieth century It will intrigue not only students of

development economics but also anyone interested in colonialism and decolonization and justice for the poor in third world countries

Whale Asha de Vos, 2026-01-06 A marvelously illustrated look at the life of the whale Whales are the majestic giants of the ocean yet much of their world remains a mystery to us The routes of their vast oceanic migrations are largely elusive as are the intricacies of their behavior and social dynamics This narrative biography takes you out beyond our shorelines and into the depths providing an up close exploration of the life of the whale It covers everything from conception and childhood to family history relationships communication and life challenges and explains why studying whales helps us to monitor the health of our planet's oceans and marine ecosystems Written by internationally acclaimed expert Asha de Vos **Whale** The Illustrated Biography blends engaging profiles of the best known species with stunning illustrations to tell the story of these magnificent creatures in all their diversity and complexity Features a wealth of specially commissioned illustrations Discusses familiar species such as the humpback whale blue whale killer whale and sperm whale as well as smaller and more elusive cousins Covers anatomy hunting and feeding migration habitats whale song conservation human interactions with whales and much more Explains how whales play key roles in nutrient cycling regulating prey populations and influencing carbon sequestration A must have reference for whale watchers everywhere

World Cinema, Theology, and the Human Antonio Sison, 2012-05-04 Forging an open minded but reasoned dialogue between nine acclaimed titles of world cinema and a range of theological perspectives that touch on the theme of human experience World Cinema Theology and the Human offers fresh portals of insight for the interdisciplinary area of Theology and Film In Sison's approach it is the cinematic representation of vivid humanity not necessarily propositional statements about God and religion that lays down a bridge to a conversation with theology Thus the book's project is to look for the divine presence written not on tablets of stone but on tablets of human hearts depicted on screen by way of audiovisual language Seeking to redress the interdiscipline's narrow predilection for Hollywood blockbusters the book casts its net wider to include a culturally diverse selection of case studies from festival gems such as Singapore's *Be With Me* and South Africa's *Yesterday* to widely acclaimed sleeper hits such as Britain's *Slumdog Millionaire* and New Zealand's *Whale Rider* The book will appeal to scholars of theology and religious cultural studies interested in the Theology Religion Film interface and because of its commitment to an examination of film qua film a crossover readership from film studies

A Short Bright Flash: Augustin Fresnel and the Birth of the Modern Lighthouse Theresa Levitt, 2013-07-29 Combines matters of biography science engineering technology art history economics and politics seemingly effortlessly and definitely seamlessly An excellent book and a joy to read Henry Petroski Wall Street Journal Augustin Fresnel 1788-1827 shocked the scientific elite with his unique understanding of the physics of light The lens he invented was a brilliant feat of engineering that made lighthouses blaze many times brighter farther and more efficiently Battling the establishment his own poor health and the limited technology of the time Fresnel was able to achieve his goal of illuminating the entire French coast At first the British sought to outdo the

new Fresnel equipped lighthouses as a matter of national pride Americans too resisted abandoning their primitive lamps but the superiority of the Fresnel lens could not be denied for long Soon from Dunkirk to Saigon shores were brightened with it The Fresnel legacy played an important role in geopolitical events including the American Civil War No sooner were Fresnel lenses finally installed along U S shores than they were drafted the Union blockaded the Confederate coast the Confederacy set about thwarting it by dismantling and hiding or destroying the powerful new lights Levitt s scientific and historical account rich in anecdote and personality brings to life the fascinating untold story of Augustin Fresnel and his powerful invention
