Yankee Slave Driver, Or, The Black and White Rivals ; with Illustrations Samuel Mosheim Smucker,1857 **White Lies and Black Markets** Karwan Fatah-Black,2015-04-21 In *White Lies and Black Markets* Fatah Black offers a new account of the colonization of Suriname one of the major European plantation colonies on the Guiana Coast in the period between 1650 1800 While commonly portrayed as an isolated tropical outpost this study places the colony in the context of its connections to the rest of the Atlantic world These economic and migratory links assured the colony s survival but also created many incentives to evade the mercantilistically inclined metropolitan authorities By combining the available data on Dutch and North American shipping with accounts of major political and economic developments the author uncovers a hitherto hidden world of illicit dealings and convincingly argues that these illegal practices were essential to the development and survival of the colony and woven into the fabric of the colonial project itself **Painted Past: A Photographer's Guide to**

In Black in White Space Anderson brings his immense knowledge and ethnography to bear in this timely study of the racial barriers that are still firmly entrenched in our society at every class level He focuses in on symbolic racism a new form of racism in America caused by the stubbornly powerful stereotype of the ghetto embedded in the white imagination which subconsciously connects all Black people with crime and poverty regardless of their social or economic position White people typically avoid Black space but Black people are required to navigate the white space as a condition of their existence From Philadelphia street corner conversations to Anderson s own morning jogs through a Cape Cod vacation town he probes a wealth of experiences to shed new light on how symbolic racism makes all Black people uniquely vulnerable to implicit bias in police stops and racial discrimination in our country Back cover **Life in Black and White** Brenda E. Stevenson,1997-11-06

Life in the old South has always fascinated Americans whether in the mythical portrayals of the planter elite from fiction such as Gone With the Wind or in historical studies that look inside the slave cabin Now Brenda E Stevenson presents a reality far more gripping than popular legend even as she challenges the conventional wisdom of academic historians Life in Black and White provides a panoramic portrait of family and community life in and around Loudoun County Virginia weaving the fascinating personal stories of planters and slaves of free blacks and poor to middling whites into a powerful portrait of southern society from the mid eighteenth century to the Civil War Loudoun County and its vicinity encapsulated the full sweep of southern life Here the region s most illustrious families the Lees Masons Carters Monroes and Peytons helped forge southern traditions and attitudes that became characteristic of the entire region while mingling with yeoman farmers of German Scotch Irish and Irish descent and free black families who lived alongside abolitionist Quakers and thousands of slaves Stevenson brilliantly recounts their stories as she builds the complex picture of their intertwined lives revealing how their combined histories guaranteed Loudon s role in important state regional and national events and controversies Both the Declaration of Independence and the U S Constitution for example were hidden at a local plantation during the War of 1812 James Monroe wrote his famous Doctrine at his Loudon estate The area also was the birthplace of celebrated fugitive slave Daniel

Dangerfield the home of John Janney chairman of the Virginia secession convention a center for Underground Railroad activities and the location of John Brown s infamous 1859 raid at Harpers Ferry In exploring the central role of the family Brenda Stevenson offers a wealth of insight we look into the lives of upper class women who bore the oppressive weight of marriage and motherhood as practiced in the South and the equally burdensome roles of their husbands whose honor was tied to their ability to support and lead regardless of their personal preference the yeoman farm family s struggle for respectability and the marginal economic existence of free blacks and its undermining influence on their family life Most important Stevenson breaks new ground in her depiction of slave family life Following the lead of historian Herbert Gutman most scholars have accepted the idea that like white slaves embraced the nuclear family both as a living reality and an ideal Stevenson destroys this notion showing that the harsh realities of slavery even for those who belonged to such attentive masters as George Washington allowed little possibility of a nuclear family Far more important were extended kin networks and female headed households Meticulously researched insightful and moving *Life in Black and White* offers our most detailed portrait yet of the reality of southern life It forever changes our understanding of family and race relations during the reign of the peculiar institution in the American South Advertising & Selling ,1928
