The Black Ghetto A Spatial Behavioral Perspective:

The Black Ghetto Harold M. Rose, 1971 **Ethnoburb** Wei Li, 2008-12-09 Winner of the 2009 Book Award in Social Sciences Association for Asian American Studies This innovative work provides a new model for the analysis of ethnic and racial settlement patterns in the United States and Canada Ethnoburbs suburban ethnic clusters of residential areas and business districts in large metropolitan areas are multiracial multiethnic multicultural multilingual and often multinational communities in which one ethnic minority group has a significant concentration but does not necessarily constitute a majority Wei Li documents the processes that have evolved with the spatial transformation of the Chinese American community of Los Angeles and that have converted the San Gabriel Valley into ethnoburbs in the latter half of the twentieth century and she examines the opportunities and challenges that occurred as a result of these changes Traditional ethnic and immigrant settlements customarily take the form of either ghettos or enclaves Thus the majority of scholarly publications and mass media covering the San Gabriel Valley has described it as a Chinatown located in Los Angeles suburbs Li offers a completely different approach to understanding and analyzing this fascinating place By conducting interviews with residents a comparative spatial examination of census data and other statistical sources and fieldwork coupled with her own holistic view of the area Li gives readers an effective and fine tuned socio spatial analysis of the evolution of a new type of racially defined place The San Gabriel Valley tells a unique story but its evolution also speaks to those experiencing a similar type of ethnic and racial conurbation In sum Li sheds light on processes that are shaping other present and future ethnically and racially diverse communities The concept of the ethnoburb has redefined the way geographers and other scholars think about ethnic space place and process This book will contribute significantly to both theoretical and empirical studies of immigration by presenting a more intensive and thorough take on arguments about spatial and social processes in urban and suburban America **The Cultural Meaning of Urban Space** Gary McDonogh, Robert Rotenberg, 1993-04-30 This book presents a cross cultural approach to the study of urban space Essays written by major contributors in contemporary urban studies provide a range of case studies from Asia Latin America North America and Europe to address important questions about space and power processes of change aesthetics and attitudes toward space and social divisions expressed through urban life The essays fall into three interlocking sections conceptual and linguistic approaches to urban space visual and social examinations of world cities and policy examinations of spatial analyses Together with the jointly compiled bibliography this collection of essays is designed to stimulate comparative debate and identify new areas for urban research Essays contrast empty space in Barcelona and Savannah explore the concept of healthy and unhealthy urban environments in the classical writings and in modern day Vienna and develop a model of space for Shanghai from the point of view of privacy The subcultural ethos characterizing Tokyo and the castle as a symbol for the community in Japan are two more essay topics The plaza in Spanish American towns the outdoor spaces in Italy balcony street courtyard and the school in Honduras are

sites for socio cultural analyses in three more essays The last group of essays focus on discourses in urban planning especially the responses of people to the growth marketing and decay of residential places African American neighborhoods and waterfront development provide examples for this section These essays in their theoretical and geographical breadth make significant strides in defining the cultural meaning of urban space They will be read with interest by city planners ecologists and other social scientists involved in finding human solutions to the metropolitan environment **Population**

Geography Huw Roland Jones,1990-12-15 Illustrated with a wide range of case studies drawn from all parts of the world POPULATION GEOGRAPHY clearly depicts the cause and effect links between demographic change and the socio economic transformation of societies Providing timely information in a clear and accessible style the text is an ideal classroom text for instructors who are introducing their students to the topic of population geography **Why Transportation Fails** Astrid

Wood,2025-07-29 Why Transportation Fails offers an in depth critique of transportation failures in South Africa and beyond Minibus taxis are unreliable and overcrowded buses and trains are old and poorly maintained and new services are derailed by spiraling capital and operational costs protracted and politicized rollouts and unsolvable infrastructural challenges Rather than focusing on these failures the conceptual and practical analyses in this book develop a critical understanding of transportation and highlight the opportunities for transportation to be more inclusive innovative and sustainable This book applies cutting edge scholarship from geography and urban studies decolonial geographies Black geographies policy mobilities walking geographies animal geographies art geographies and health geographies to reframe transportation failure The interdisciplinarity of this scholarship builds an approach that not only tells the story of transportation in South Africa but also uncovers a range of conceptual interpretations and imaginations that stretch beyond urban mobilities and urban development In decentering traditional geographies of knowledge production Why Transportation Fails contributes to critical considerations of urban transportation in Africa and aspects of transportation justice within social and spatial transformation Given the never ending financial and political investment in solving transportation Why Transportation Fails is an essential reading for scholars of architecture development geography politics sociology and urban planners and practitioners **The**

Cotton Plantation South since the Civil War Charles S. Aiken,2020-03-24 Winner of the J B Jackson Prize from the Association of American Geographers Originally published in 1998 The plantation writes Charles Aiken is among the most misunderstood institutions of American history The demise of the plantation has been pronounced many times but the large industrial farms survive as significant parts of not just the South s but the nation s agriculture In this sweeping historical and geographical account Aiken traces the development of the Southern cotton plantation since the Civil War from the emergence of tenancy after 1865 through its decline during the Depression to the post World War Two development of the large industrial farm Tracing the geographical changes in plantation agriculture and the plantation regions after 1865 Aiken shows how the altered landscape of the South has led many to the false conclusion that the plantation has vanished In fact he

explains while certain regions of the South have reverted to other uses the cotton plantation survives in a form that is in many ways remarkably similar to that of its antebellum predecessors Aiken also describes the evolving relationship of African Americans to the cotton plantation during the thirteen decades of economic social and political changes from Reconstruction through the War on Poverty including the impact of alterations in plantation agriculture and the mass migration of Southern blacks to the urban North during the twentieth century Richly illustrated with more than 130 maps and photographs many original and many from FSA photographers The Cotton Plantation South is a vivid and colorful account of landscape geography race politics and civil rights as they relate to one of America s most enduring and familiar institutions **Library Book Catalog** United States. Law Enforcement Assistance Administration,1974 **Library Book Catalog** United States. Law Enforcement Assistance Administration. Library,1973 *Emerging Johannesburg* Richard Tomlinson,Robert Beauregard,Lindsay Bremmer,Xolela Mangcu,2014-02-04 Johannesburg is most often compared with Sao Paulo and Los Angeles and sometimes even with Budapest Calcutta and Jerusalem Johannesburg reflects and informs conditions in cities around the world As might be expected from such comparisons South Africa s political transformation has not led to redistribution and inclusive social change in Johannesburg In *Emerging Johannesburg* the contributors describe the city s transition from a post apartheid city to one with all too familiar issues such as urban suburban divide in the city and its relationship to poverty and socio political power local politics and governance crime and violence and especially for a city located in Southern Africa the devastating impact of AIDS *African American Life in the Rural South, 1900-1950* R. Douglas Hurt,2003 During the first half of the twentieth century degradation poverty and hopelessness were commonplace for African Americans who lived in the South s countryside either on farms or in rural communities Many southern blacks sought relief from these conditions by migrating to urban centers Many others however continued to live in rural areas Scholars of African American rural history in the South have been concerned primarily with the experience of blacks as sharecroppers tenant farmers textile workers and miners Less attention has been given to other aspects of the rural African American experience during the early twentieth century *African American Life in the Rural South 1900 1950* provides important new information about African American culture social life and religion as well as economics federal policy migration and civil rights The essays particularly emphasize the efforts of African Americans to negotiate the white world in the southern countryside Filling a void in southern studies this outstanding collection provides a substantive overview of the subject Scholars students and teachers of African American southern agricultural and rural history will find this work invaluable
