The Bolshevik Poster:

The Bolshevik Poster Stephen White, 1990-01-01 Origins Apsit and the early Soviet poster Moor Deni and the military political poster Bolshevik poster and after **The Bolshevik Poster** V. White, 1990-01-01 *Iconography of Power* Victoria E. Bonnell, 1997 This study of the Soviet political posters issued between 1918 and 1953 describes the archetypal images they featured such as the worker the peasant woman the enemy and the leader It analyzes these Bolshevik icons and explains how they defined the popular outlook in Soviet Russia **The personality cult of Stalin in Soviet posters, 1929-1953** Anita Pisch, 2016-12-16 From 1929 until 1953 Iosif Stalin s image became a central symbol in Soviet propaganda Touched up images of an omniscient Stalin appeared everywhere emblazoned across buildings and lining the streets carried in parades and woven into carpets and saturating the media of socialist realist painting statuary monumental architecture friezes banners and posters From the beginning of the Soviet regime posters were seen as a vitally important medium for communicating with the population of the vast territories of the USSR Stalin s image became a symbol of Bolshevik values and the personification of a revolutionary new type of society The persona created for Stalin in propaganda posters reflects how the state saw itself or at the very least how it wished to appear in the eyes of the people The Stalin who was celebrated in posters bore but scant resemblance to the man Iosif Vissarionovich Dzhughashvili whose humble origins criminal past penchant for violent solutions and unprepossessing appearance made him an unlikely recipient of uncritical charismatic adulation The Bolsheviks needed a wise nurturing and authoritative figure to embody their revolutionary vision and to legitimate their hold on power This leader would come to embody the sacred and archetypal qualities of the wise Teacher the Father of the nation the great Warrior and military strategist and the Saviour of first the Russian land and then the whole world This book is the first dedicated study on the marketing of Stalin in Soviet propaganda posters Drawing on the archives of libraries and museums throughout Russia hundreds of previously unpublished posters are examined with more than 130 reproduced in full colour The personality cult of Stalin in Soviet posters 1929 1953 is a unique and valuable contribution to the discourse in Stalinist studies across a number of disciplines Seeing red, 2005 **The Poster**, 1919

Iconography of Power Victoria E. Bonnell, 1998-02-05 Masters at visual propaganda the Bolsheviks produced thousands of vivid and compelling posters after they seized power in October 1917 Intended for a semi literate population that was accustomed to the rich visual legacy of the Russian autocracy and the Orthodox Church political posters came to occupy a central place in the regime s effort to imprint itself on the hearts and minds of the people and to remold them into the new Soviet women and men In this first sociological study of Soviet political posters Victoria Bonnell analyzes the shifts that took place in the images messages styles and functions of political art from 1917 to 1953 Everyone who lived in Russia after the October revolution had some familiarity with stock images of the male worker the great communist leaders the collective farm woman the capitalist and others These were the new icons standardized images that depicted Bolshevik heroes and

their adversaries in accordance with a fixed pattern Like other invented traditions of the modern age iconographic images in propaganda art were relentlessly repeated bringing together Bolshevik ideology and traditional mythologies of pre Revolutionary Russia Symbols and emblems featured in Soviet posters of the Civil War and the 1920s gave visual meaning to the Bolshevik worldview dominated by the concept of class Beginning in the 1930s visual propaganda became more prescriptive providing models for the appearance demeanor and conduct of the new social types both positive and negative Political art also conveyed important messages about the sacred center of the regime which evolved during the 1930s from the celebration of the heroic proletariat to the deification of Stalin Treating propaganda images as part of a particular visual language Bonnell shows how people read them relying on their habits of seeing and interpreting folk religious commercial and political art both before and after 1917 as well as the fine art traditions of Russia and the West Drawing on monumental sculpture and holiday displays as well as posters the study traces the way Soviet propaganda art shaped the mentality of the Russian people the legacy is present even today and was itself shaped by popular attitudes and assumptions Iconography of Power includes posters dating from the final decades of the old regime to the death of Stalin located by the author in Russian American and English libraries and archives One hundred exceptionally striking posters are reproduced in the book many of them never before published Bonnell places these posters in a historical context and provides a provocative account of the evolution of the visual discourse on power in Soviet Russia

Soviet and Nazi Posters Kees Boterbloem, Lisa Pine, 2025-01-23 This book examines the key content and propaganda value of posters in the dictatorships of Stalin's USSR 1927-53 and Hitler's Germany 1933-43 using posters as a point of entry for discussing key Soviet and Nazi policies In so doing *Soviet and Nazi Posters* provides a compelling account of the posters utilised by both regimes for the first time Kees Boterbloem and Lisa Pine employ a comparative approach throughout analysing commonalities and differences and inspecting the regimes use of posters as propaganda Richly illustrated with 50 images 25 of which are in colour *Soviet and Nazi Posters* encourages the development of vital source skills in the pursuit of understanding the complexities of 20th century European dictatorships What do these posters yield to the historian What do they tell us about the regimes and their intentions Ultimately they offer a compelling visual point of entry into Nazism and Stalinism here explored in rewarding detail Boterbloem and Pine convincingly make the case that the use of posters as a medium of propaganda by Stalin and Hitler was advanced at the time and far reaching The poster campaigns were very powerful in terms of the impact on their populations and point to how the regimes could influence people outside their homes and in public places to support the regimes and their policies The book looks at specific posters to discuss key regime policies associated with them and this offers us new insights into the nature of these authoritarian governments and the way in which they addressed their populations

Making Workers Soviet Lewis H. Siegelbaum, Ronald Grigor Suny, 2018-07-05 Drawing on such diverse sources as propaganda art the trade union press workers memoirs and materials in recently opened Soviet archives this is

the first book to examine the shifting identity of the working class in late tsarist and early Soviet societies New essays by fifteen leading historians show how Russian workers responded to attempts to make them Soviet Initial chapters consider power relations and working class identity in imperial Russia The effects of the revolutionary upheavals of 1917 to 1921 on labor relations among printers and coal miners are then discussed Addressing subsequent decades other essays document the situation of cotton workers and white collar workers embroiled within the ambiguities of the New Economic Policy or challenge the appropriateness of class analysis for the Stalin era Additional chapters reconstruct workers responses to the Great Purges and trace the significance of class in visual and verbal discourse Making Workers Soviet will be central to the current rethinking of Soviet history and of class formation in noncapitalist settings
