Sarah Frances Mitchell, In the quiet moments before dawn when the world still sleeps and our minds begin to stir many of us find ourselves already cataloguing the day s worries The presentation at work the bills that need paying the family obligations that seem to multiply like weeds in an untended garden This early morning anxiety has become so commonplace that we ve begun to accept it as normal as simply part of being an adult in today s fast paced world But what if this acceptance is part of the problem What if the stress that we ve normalized is actually stealing our capacity for joy creativity and genuine connection with others The truth is that while stress has always been part of the human experience the chronic unrelenting nature of modern stress represents something fundamentally different from what our ancestors faced Our nervous systems evolved to handle acute threats the sudden appearance of a predator a natural disaster or immediate physical danger In these situations stress serves us well flooding our bodies with adrenaline and cortisol to help us fight or flee But our modern stressors rarely resolve themselves in minutes or hours Instead they linger for weeks months or even years keeping our stress response system perpetually activated

Life after Stress M. Shaffer,2012-12-06 *STRESS STYLES* It is late afternoon on the last Friday of the month At the bank the lines of customers waiting to deposit their paychecks or to withdraw money for the weekend have stretched practically to the front doors At one window a customer finishes and the next person a merchant steps up He opens a cloth bag and produces a stack of checks cash and deposit slips almost two inches thick The teller s eyes widen This will be at least ten minutes work maybe fifteen What about those other customers waiting in line How will they react Interestingly enough the reactions of the customers waiting in line behind the merchant vary considerably Gary Johnson for instance is furious He grinds his cigarette under his heel and mutters about inconsiderate jerks who wait until the last minute to deposit their week s receipts Gary shifts back and forth from foot to foot the swaying of his body telegraphing his frustration He probes his pockets to see whether any of his antacid mints are left Finding none
