B C Studies, 1984 **Sheltering in the Backrush** Jeanette Taylor, 2023-04-22 Coastal historian Jeanette Taylor unveils the unique past of Twin Islands Twin Islands form part of the lacey fringe at the southern edge of the Discovery Islands archipelago where it meets the north Salish Sea This is the interface between wilderness and urban settlement To the north heavily treed slopes rise vertically from the sea and fast tides churn through the constricted passages of a maze of islands and inlets Navigating these waters is a white knuckle challenge many recreational boaters avoid ending their travels to the east in Desolation Sound Marine Park To the south the

topography relaxes into a more habitable environment of open waters villages towns and highways Those who do find their way to Twin are richly rewarded by a beautiful and tranquil destination with a fascinating past Discovery of a trove of sepia toned pictures of Twin Islands from the late 1930s drew Jeanette Taylor to research and document the history of the islands She found a live wire cast of characters typical of remote places including a one legged sheep farmer an aristocratic Irish priest who was the victim of an unsolved murder American tycoons fleeing Japan on the cusp of World War II German royalty and an anonymous heiress who rescued the islands from logging Through it all Taylor found a thread among Twin s people passed from one generation to the next like an invisible torch handed over with the deed a love of nature and the place Illustrated with historical photos and engagingly written *Sheltering in the Back Rush* is an important addition to Harbour Publishing s catalogue of coastal BC history *Clam Gardens* Judith Williams,2006 For many years archaeologists were unaware of the ancient clam terraces at Waiatt Bay on Quadra Island Author Judith Williams knew no differently until she was advised of their existence by a Klahoose elder named Elizabeth Harry Keekus By liaising with other observers of clam gardens in the Broughton Archipelago and conducting her own survey of Waiatt Bay and Gorge Harbour on Cortes Island Williams has amassed evidence that the rock structures seen only at the lowest tides were used by native peoples for the purpose of cultivating butter clams Her research does much to challenge the notion of pre contact West Coast indigenous peoples and hunters gatherers alone The clam gardens whose existence she reveals here might also be unique in the world *Clam Gardens Aboriginal Mariculture on Canada s West Coast* is Number 15 in the Transmontanus series of books edited by Terry Glavin **Homesteading and Stump Farming on the West Coast 1880-1930** Barbara Ann Lambert,2015-12-02 Imagine obtaining one hundred and sixty acres of land for FREE Then comes the real payment the sweat and toil of living in a remote wilderness and clearing a landscape where the stumps left behind are so large and so numerous the best bet is to use dynamite to remove them Beginning in 1859 such homesteading typified the arrival of white settlers in British Columbia The Land Act set out rules by which British subjects could for agricultural purposes only pre empt land Along the Upper Sunshine Coast of those who took up the challenge only some succeeded in carving a life out of this wild land while many failed Through prodigious research and the careful cultivation of interviews Barbara Ann Lambert tells the stories of those resourceful arrivals Employing the day journals of homesteaders and interviews with their descendants Lambert conveys the rich history of the Sunshine Coast From Saltery Bay to Lund she evokes the struggles and triumphs of those who once lived in this place Lambert calls paradise **Sea Kayak Desolation Sound and the Sunshine Coast** Heather Harbord,2005 This paddling guide to Desolation Sound and the Strait of Georgia provides historical travel information on a part of the Inner Passage between Vancouver Island and the BC mainland Follow the Marine Trail up the east coast of Vancouver Island with perhaps a digression to Hornby or Denman islands Or tackle the savage inflow outflow winds of Jervis Inlet to reach the jewel of Princess Louisa Inlet *Ecology of Salmonids in Estuaries around the World* Colin D. Levings,2016-08-03 For centuries

biologists have marvelled at how anadromous salmonids fish that pass from rivers into oceans and back again survive as they migrate between these two very different environments Yet relatively little is understood about what happens to salmonid species including salmon steelhead char and trout in the estuaries where they make this transition from fresh to salt water This book explains the critical role estuaries play in salmonid survival Ecology of Salmonids in Estuaries around the World synthesizes information from a vast array of literature to describe the specific adaptation of eighteen anadromous salmonids in four genera Hucho Oncorhynchus Salmo and Salvelinus explain the ecological relationships between anadromous salmonids the fish they coexist with and their estuarine habitat discuss key fitness elements salmonids need for survival including those relating to osmoregulation growth and feeding mechanisms and biotic interactions provide guidance on how to conduct estuarine sampling and scientific aspects of management and recovery plans offer directions for future research The critical reference is further enhanced by extensive supplementary appendices that are available online including data tables additional references on estuarine salmonids and a primer on estuaries and salmonids for citizen scientists

Return to Solitude Grant Lawrence, 2022-04-30 The long awaited sequel to Grant Lawrence s bestselling memoir *Adventures in Solitude* It s been over a decade since renowned broadcaster and indie rock musician Grant Lawrence launched his writing career with the award winning *Adventures in Solitude* yet some things never change including the winding Sunshine Coast Highway close calls at the BC Ferries ticket office and carsick children But this time Lawrence returns as a husband and father not as the vomiting and nerdy kid dragged along by his athletic and unflappable parents In his inimitable high voltage style Lawrence interweaves the rich and harrowing history of the Desolation Sound area with his own experiences of life on the coast This lively book recounts the life and times of the legendary Cougar Lady tracks a phantom like squatter known as the Spaghetti Bandit and details the bizarre exit and even more bizarre death of Bernard the German Here too are many of the beloved personalities introduced in Lawrence s first book including hippie recluse Russell the Hermit plus the continued voyages of Big Buck the decrepit family boat and the incredible return of large ocean mammals to Desolation Sound From a hilarious heartfelt and slightly wiser voice comes a momentous story of time family and place whirling around one increasingly ramshackle cabin on a beautiful and not at all desolate coast
