logically around four major themes the problem of transnational crime analysis of specific transnational crimes approaches to its control and regional geographical analyses Each comprehensive chapter is designed to be explored as a stand alone topic making this handbook an important textbook and reference tool for students and practitioners alike **Governing Guns, Preventing Plunder** Asif Efrat, 2012-07-19 From human trafficking to smuggling small arms to looting antiquities illicit trade poses significant threats to international order So why is it difficult to establish international cooperation against illicit trade Governing Guns Preventing Plunder offers a novel thought provoking answer to this crucial question Conventional wisdom holds that it is criminal groups that obstruct efforts to suppress illicit trade In contrast Asif Efrat explains how legitimate actors such as museums that acquire looted antiquities seek to hinder these regulatory efforts Yet such attempts to evade regulation fuel international political conflicts between governments that demand action against illicit trade and others that are reluctant to cooperate The book offers a framework for understanding the domestic origins of these conflicts and how the distribution of power shapes their outcome Through this framework Efrat explains why the interests of governments vary across countries trades and time In a fascinating empirical analysis he solves a variety of puzzles Why is the international regulation of small arms much weaker than international drug control What led the United States and Britain to oppose the efforts against plunder of antiquities and why did they ultimately join these efforts How did American pressure motivate Israel to tackle sex trafficking Efrat s findings will change the way we think about illicit trade offering valuable insights for scholars activists and policymakers **Small Arms Survey 2012** Graduate Institute of International and Development Studies (Geneva, Switzerland), Small Arms Survey, Geneva, 2012-08-30 The Small Arms Survey 2012 seeks to increase our scrutiny of what is changing and not changing in relation to armed violence and small arms proliferation Chapters on firearm homicide in Latin America and the Caribbean drug violence in selected Latin American countries and non lethal violence worldwide illustrate that security is a moving target armed violence both lethal and non lethal continues to undermine the security and wellbeing of people and societies around the world The goal of curbing small arms proliferation embodied in the UN Programme of Action appears similarly elusive Chapters on illicit small arms in war zones trade transparency Somali piracy and the 2011 UN Meeting of Governmental Experts highlight some of the successes but also the continuing challenges in this area Country studies on Kazakhstan and Somaliland along with the final instalment of the authorized transfers project round out the 2012 edition **Islamist Militancy in Bangladesh** Ali Riaz, 2012-08-21 In an unprecedented show of force organization and skill two proscribed Islamist militant organizations exploded more than 450 bombs within a span of less than an hour throughout Bangladesh on 17 August 2005 sending a strong message that they were a force to be reckoned with This catastrophic event followed by a number of suicide attacks forced the then reluctant Bangladeshi government a coalition of center right parties with two Islamists among them to acknowledge the existence of a network of militants and take action against this threat Against this backdrop this book is the first academic study on the growing Islamist militancy in

Bangladesh It examines the relevance significance and trajectories of militant Islamist groups in Bangladesh exploring the complex web of domestic regional and international events and dynamics that have both engendered and strengthened Islamist militancy in Bangladesh The three factors domestic regional and international aspects are each discussed separately and their connection and links are analyzed It goes on to consider possible future trajectories of militant Islamism in Bangladesh This book addresses an issue of great importance for contemporary Bangladeshi politics and will be of interest to scholars of international politics and security studies including terrorism and the politics of South Asia *Gun Control Policies in Latin America* Diego Sanjurjo, 2019-05-23 This book analyses the crucial role that guns play in the dynamics of extreme violence engulfing Latin America and the policies that are being implemented to confront it Gun control is surprisingly not a prominent issue in most countries of the region but this situation is rapidly changing as proliferation and violence dramatically increase The book adopts an extended version of John Kingdon's influential Multiple Streams Framework to explore how gun control enters political agendas and why some countries act to end gun violence and others do not In this effort the Brazilian Disarmament Statute and the Uruguayan Responsible Firearm Ownership Law serve as in depth case studies that exhibit the region's heterogeneity and put Kingdon's policy theory to the test Gun Control Policies in Latin America is an essential reading for anyone interested in Latin American security and public policies **State of the World 2005** Michael Renner, Linda Starke, Worldwatch Institute, 2005 Tackles the pressing issue of international security and its ramifications on the health of our planet *Conflict and Fragility Armed Violence Reduction Enabling Development* OECD, 2009-03-02 Each year 740 000 people die as a result of armed violence This publication will help the international community to understand the dynamics of armed violence and outlines what can be done to reduce it Transnational Crimes in the Americas Marshall B. Lloyd, 2018-10-30 Transnational Crimes in the Americas addresses contemporary issues with respect to public institutions that are stakeholders in the fight against globalization of crime Regional public organizations with a primary focus on the Americas constitute a framework for understanding the need for an institutional response within the Western Hemisphere While other authors have addressed the growth of organized crime no one has explained institutional developments in the struggle against transnational crimes Transnational Crimes in the Americas highlights existing organizations emphasizing a regional response to transnational crimes suggestions for a permanent criminal court in the Americas and an appraisal of the current state of institutional developments in the region

International Law and International Relations Thomas J. Biersteker, Peter J. Spiro, Chandra Lekha Sriram, Veronica I. Raffo, 2006-10-19 This unique volume examines the opportunities for and initiates work in interdisciplinary research between the fields of international law and international relations disciplines that have engaged little with one another since the Second World War Written by leading experts in the fields of international law and international relations it argues that such interdisciplinary research is central to the creation of a knowledge base among IR scholars and lawyers for the effective

analysis and governance of macro and micro phenomena International law is at the heart of international relations but due to challenges of codification and enforceability its apparent impact has been predominantly limited to commercial and civil arrangements International lawyers have been saying for years that law matters in international affairs and now current events are proving them right International Law and International Relations makes a powerful contribution to the theory and practice of global security by initiating a research agenda building an empirical base and offering a multidisciplinary approach that provides concrete answers to real world problems of governance This book will be of great interest to all students of international law international relations and governance *Victims as Security Threats* Edward O.
