Mukka Marko Tapio and Pentti Linkola Drawing from the study of the imagined North and theories and tools in the study of literature and emotions the analyses show how such moods as melancholia ecstasy or a peculiar sense of November are generated in texts and how literary emotions entangle with the Northern environment they depict By focusing on the imagined North in Finnish modernism and contemporary literature the authors offer original views on experiences of late modernity merging with the changing Northern environment in the age of the Anthropocene

which it has influenced the subsequent course of the genre A wide range of topic entries explore the history criticism theory production dissemination and reception of the novel A very important component of the Encyclopedia of the Novel is its long surveys of development of the novel in various regions of the world Generic Histories of German Cinema Jaimey Fisher, 2013 Generic Histories offers a fresh approach tracing a series of key genres including horror science fiction the thriller Heimat films and war films over the course of German cinema history It also addresses detective films comedies policiers and romances that deliberately localize global genres within Germany a form of transnationalism frequently neglected This focus on genre and history encourages rethinking of the traditional opposition and hierarchy between art and popular cinema that has informed German film studies In these ways the volume foregrounds genre theory's potential for rethinking film history as well as cultural history more broadly Publisher's description **Historical Dictionary of Scandinavian Cinema** John Sundholm, Isak Thorsen, Lars Gustaf Andersson, Olof Hedling, Gunnar Iversen, Birgir Thor Møller, 2012-09-20 Although relatively small the northern countries of Scandinavia have made a disproportionately large contribution to world cinema Indeed some of their films are among the best known of all times including The Seventh Seal Dancer in the Dark and The Girl with the Dragon Tattoo And Scandinavian directors are also among the best known just to mention Ingmar Bergman and Lars von Trier But there is much more to the cinema of Denmark Norway Sweden Finland and Iceland than that and this book shows us what they have been accomplishing over more than a century from the beginnings of cinema until the present The Historical Dictionary of Scandinavian Cinema shows just how long and busy this history has been in the chronology starting in 1896 The introduction then describes the situation in each one of the component countries all of which approached and developed the field in a similar but also slightly different manner The dictionary section with over 400 substantial entries looks at the situation in greater detail with over 400 substantial entries on major actors directors and others significant films various genres and themes and subjects such as animation ethnicity migration and censorship Given its contribution to world cinema it is good to finally have an encyclopedia like this which can meet the interests of the scholar and researcher but also the movie fan World and Its Peoples, 2010 Presents a thirteen volume reference guide to the geography history economy government culture and daily life of countries in Europe *New Dimensions of Diversity in Nordic Culture and Society* Jenny Björklund, Ursula Lindqvist, 2016-04-26 In the new millennium categories of identity have become particularly destabilized with the emergence of a new generation of people in the Nordic region who demand more dynamic and fluid identities New Dimensions of Diversity in Nordic Culture and Society reinvestigates the tired concept of diversity to make room for dynamic new realities as well as the ample new questions to which they give rise This volume assumes diversity to be a fundamental feature of Nordic modernity Given that the Nordic countries consistently rank among the world's wealthiest most educated and most egalitarian these case studies provide important counter narratives to prevailing local and global discourses of Nordicness The contributors not only interrogate historical categories of diversity in

a Nordic context including gender sex class ethnicity and race they also show how these categories intersect They examine new forms of and platforms for diverse ideas and creative expression including fluid masculinities digital cultures new media and fashion They question the terms on which the Nordic region s indigenous peoples the S mi and the Greenlandic Inuit as well as stateless people such as the Kurds are brought into Nordic discussions of diversity citizenship and agency and analyze the implications of particular neo nationalist and patriarchal discourses that have emerged since the turn of the century The book draws from a variety of disciplinary perspectives and interdisciplinary fields and will spark productive and critical conversations among all with an interest in the national and regional cultures subcultures and social dynamics that inform modern life in the Nordic region *Crime and Fantasy in Scandinavia* Andrew Nestingen,2011-12-31 Scandinavian popular novels and films have flourished in the last thirty years In *Crime and Fantasy in Scandinavia* Andrew Nestingen argues that the growth and visibility of popular culture have been at the heart of the development of heterogeneous publics in Scandinavia in opposition to the homogenizing influence of the post World War II welfare state Novels and films have mobilized readers and viewers serving as a preeminent site for debates over individualism collectivity national homogeneity gender and transnational relations *Crime and Fantasy in Scandinavia* provides insight into the changing nature of civil society in Scandinavia through the lens of popular culture Nestingen develops his argument through the examination of genres where the central theme is individual transgression of societal norms crime films and novels melodramas and fantasy fiction Among the internationally known writers and filmmakers discussed are Henning Mankell Aki Kaurismäki Lukas Moodysson and Lars von Trier **Danish Literature as World Literature** Mads Rosendahl Thomsen,Dan Ringgaard,2017-02-09 Despite being a minor language Danish literature is one of the world s most actively translated and the Scandinavian country is the home of a number of significant writers Hans Christian Andersen remains one of the most translated authors in the world philosopher Søren Kierkegaard inspired modern Existentialism Karen Blixen chronicled her life in colonial Kenya as well as writing imaginary cosmopolitan tales and the writers among the circles of literary critic Georg Brandes in the late 19th century were especially important to the further development of European Modernism *Danish Literature as World Literature* introduces key figures from 800 years of Danish literature and their impact on world literature It includes chapters devoted to post 1945 literature on beat and systemic poetry as well as the Scandinavia noir vogue that includes both crime fiction and cinema and is enjoying worldwide popularity *The Foreign in International Crime Fiction* Jean Anderson,Carolina Miranda,Barbara Pezzotti,2012-06-14 The foreigner is a familiar character in popular crime fiction from the foreign detective whose outsider status provides a unique perspective on a familiar or exotic location to the xenophobic portrayal of the criminal other Exploring popular crime fiction from across the world *The Foreign in International Crime Writing* examines these popular works as transcultural contact zones in which writers can tackle such issues as national identity immigration globalization and diaspora communities Offering readings of 20th and 21st century crime

Lukas, John Marmysz, 2010-06-22 This collection was inspired by the observation that film remakes offer us the opportunity to revisit important issues stories themes and topics in a manner that is especially relevant and meaningful to contemporary audiences Like mythic stories that are told again and again in differing ways film remakes present us with updated perspectives on timeless ideas While some remakes succeed and others fail aesthetically they always say something about the culture in which and for which they are produced Contributors explore the ways in which the fears of death loss of self and bodily violence have been expressed and then reinterpreted in such films and remakes as Invasion of the Body Snatchers Night of the Living Dead and Dawn of the Dead Films such as Rollerball The Ring The Grudge The Great Yokai Wars and Insomnia are discussed as well because of their ability to give voice to collective anxieties concerning cultural change nihilism and globalization While opening on a note that emphasizes the compulsion of filmmakers to revisit issues concerning fear and anxiety this collection ends by using films like Solaris King Kong Star Trek Doom and Van Helsing to suggest that repeated confrontation with these issues allows the opportunity for creative and positive transformation Crossover Fiction Sandra L. Beckett, 2010-11-24 In Crossover Fiction Sandra L Beckett explores the global trend of crossover literature and explains how it is transforming literary canons concepts of readership the status of authors the publishing industry and bookselling practices This study will have significant relevance across disciplines as scholars in literary studies media and cultural studies visual arts education psychology and sociology examine the increasingly blurred borderlines between adults and young people in contemporary society notably with regard to their consumption of popular culture
