Erring,2002 Chinese cities are undergoing profound changes Urban development has transformed the townscape low rise structures based on courtyard type housing horizontal in character have been replaced by vertical constructions In the 1980s and 1990s Chinese cities were featured by the conflicting wishes for rapid modernization and cultural continuity The articles of this book refer to experiences drawn from this particular period of time and are selected among case studies and related theoretical considerations The case studies are concentrated on four cities Beijing Xi an Quanzhou and Shanghai The authors
