Dogs and mystics How do they compare Do they possess features of such merit that by observing them interacting with them and measuring them side by side we might discover qualities an essence to emulate that could bring peace and comfort to our highly complicated stress filled lives If we follow our canine teachers fine examples of courage strength tenderness loyalty and love our reward will be the gift of grace Dogs are at ease with spontaneous authentic moments their approach to life s events is not dominated by the logic to which we humans often succumb They achieve a greater participation in life as they draw upon all their senses In addition to the intangible capacity to protect to intuit and to be patient dogs truly live in the present moment and authentically experience all that life has to offer They are our steady friends warm reliable light hearted and supportive They share our achievements and sorrows with faithfulness and trust And if we are able to emulate these qualities the lucidity and rich potential of each moment comes into clearer focus We become stronger and wiser as we follow our soul directed paths

Dominion over Wildlife? Stephen M. Vantassel, 2009-04-01 For centuries Christians believed that God granted humanity dominion over the animal kingdom meaning that we had a moral right to kill manage and eat animals including wildlife Recently however environmental and animal rights activists have assaulted this traditional perspective They argue that dominion as expressed in meat eating and hunting has resulted in species extinction and environmental degradation Christian Animal Rights CAR activists suggest that the church must reevaluate its traditional beliefs in light of the fact that God s original creation was free of human on animal violence God they argue did not want man s dominion to be expressed through trapping killing and eating of animals These violent activities only came about after the Fall as God condescended to our hardness of heart CAR activists point to Christ s sacrificial work of reconciliation as a model for modern Christian behavior as Christ sacrificed for us we should avoid eating meat and hunting as ways we can participate in Christ s non violent work of reconciling creation to himself In this book Stephen Vantassel investigates the biblical ethical and scientific arguments employed by the CAR movement concerning human wildlife relations In this regard the book engages in practical theology by addressing several important questions How should Christians treat our wildlife neighbors Has the Church been wrong in its understanding of human dominion Does God want Christians to avoid hunting trapping fishing and to adopt a vegetarian lifestyle This book provides answers to these questions by detailing a theology the author calls Shepherdism

The Longest Struggle Norm Phelps, 2007 Tells the story of animal exploitation Follows the development of animal protection from the ancient world through the Enlightenment the anti vivisection battles of the Victorian Era and the birth of the modern animal rights movement with the publication of Peter Singer s *Animal Liberation*

On God and Dogs Stephen H. Webb, 1998 Many of us keep pet animals we rely on them for companionship and unconditional love For some people their closest relationships may be with their pets In the wake of the animal rights movement some ethicists have started to re examine this relationship and to question the rights of humans to own other sentient beings in this way In this engaging and thought provoking book Stephen Webb brings a Christian perspective to

bear on the subject of our responsibility to animals looked at through the lens of our relations with pets especially dogs Webb argues that the emotional bond with companion animals should play a central role in the way we think about animals in general and against the more extreme animal liberationists defends the intermingling of the human and animal worlds He tries to imagine what it would be like to treat animals as a gift from God and indeed argues that not only are animals a gift for us but they give to us we need to attend to their giving and return their gifts appropriately Throughout the book he insists that what Christians call grace is present in our relations with animals just as it is with other humans Grace is the inclusive and expansive power of God's love to create and sustain relationships of real mutuality and reciprocity and Webb unfolds the implications of the recognition that animals too participate in God's abundant grace Webb's thesis affirms and persuasively defends many of the things that pet lovers feel instinctively that their relationships with their companion animals are meaningful and important and that their pets have value and worth in themselves in the eyes of God His book will appeal to a broad audience of thoughtful Christians and animal lovers

The Dominion of Love Norm Phelps, 2002 Many commentators and users of the Bible have over the centuries and up to the present day used the Bible to argue that animals have no rights that they were put on this earth for our use and that we have no obligations to them In his cogent honest and fully researched and referenced work *The Dominion of Love* Norm Phelps attempts to encourage all who revere the Bible as holy scripture to open their hearts to the suffering that we inflict upon our nonhuman neighbors He shows that the right of animals not to be imprisoned harmed and killed for our benefit flows naturally from the Bible's message of love and compassion and argues that this is the message of the Bible's most important passages dealing with our relationship to animals He further responds to the defenses of animal exploitation that are often made based on the Bible Beautifully written *The Dominion of Love* is an essential addition to a growing body of literature that argues for a compassionate and non-exploitative reading of Holy Scripture

Elenchus of Biblica, 1993 [To Eat Flesh They are Willing are Their Spirits Weak?](#) Kristin Aronson, 1996 *God's Covenant with Animals* J. R. Hyland, 2000 From Genesis to Christ the Bible testifies to God's love and concern for animals The same self-centeredness that led to the violence and abuse that has marked human relations also caused the abuse and exploitation of animals The Bible argues the author calls upon human beings to stop their violence and abuse of each other and all other creatures It promises that when they do the sorrow and the suffering that marks life on Earth will give way to the joy and peace that God ordained at the creation of the world In these compelling essays Rev J R Hyland explores the Old and New Testament and reveals the prophetic voices that called for compassion over killing and humane concern for all of God's creation
