Edgar Huntly Charles Brockden Brown, 2017-04-09 *Edgar Huntly* Or *Memoirs of a Sleepwalker* is a 1799 novel by the American author Charles Brockden Brown In the novel both Clithero and Huntly are sleepwalkers although at the beginning of the book Huntly does not realize it *Sleepwalking* is prevalent in the story and Brown uses this device to drive the plot of the novel For example Huntly first notices Clithero while Clithero is sleepwalking near the Elm tree This is what leads Huntly to investigate into Clithero s activities further and why Huntly accuses Clithero of killing Waldegrave It is while Huntly is following a sleep walking Clithero that he first comes to the cave which plays a major

role in the plot The entire second half of the novel revolves around the travelings of Huntly as he tries to return home this occurs because Huntly wakes up in the bottom of a cave which he entered into by sleep walking Waldegrave s papers also mysteriously disappear but later the reader learns that they were misplaced by Huntly during the night Because Huntly was sleepwalking while he did this he has no recollection of the events and the missing papers are therefore a great concern to him At the end of the novel Huntly no longer has troubles with sleepwalking

The Sleepwalker R. L. Stine,1991-08 Mayra Bates fears that her nocturnal jaunts through the streets of her town will kill her Sleep and the Novel Michael Greaney,2018-04-04 Sleep and the Novel is a study of representations of the sleeping body in fiction from 1800 to the present day which traces the ways in which novelists have engaged with this universal indispensable but seemingly nondescript region of human experience Covering the narrativization of sleep in Austen the politicization of sleep in Dickens the queering of sleep in Goncharov the aestheticization of sleep in Proust and the medicalization of sleep in contemporary fiction it examines the ways in which novelists envision the figure of the sleeper the meanings they discover in human sleep and the values they attach to it It argues that literary fiction harbours on its margins a sleeping partner one that we can nickname the Schlafroman or sleep novel whose quiet absorption in the wordlessness and passivity of human slumber subtly complicates the imperatives of self awareness and purposive action that traditionally govern the novel

Edgar Huntly Charles Brockden Brown,2017-01-01 Edgar Huntly or Memoirs of a Sleep Walker by Charles Brockden Brown Edgar

Huntly Or Memoirs of a Sleepwalker is a 1799 novel by the American author Charles Brockden Brown. Edgar Huntly, a young man who lives with his uncle and sisters, his only remaining family on a farm outside Philadelphia, is determined to learn who murdered his friend Waldegrave. Walking near the elm tree under which Waldegrave was killed late one night, Huntly sees Clithero, a servant from a neighboring farm, half-dressed, digging in the ground and weeping loudly. Huntly concludes that Clithero may be the murderer. He also concludes that Clithero is sleepwalking. Huntly decides to follow Clithero when he sleepwalks. Clithero leads Huntly through rough countryside, but all this following doesn't lead to Huntly learning much about the murder. Eventually, Huntly confronts Clithero when they are both awake and demands that he confess. Clithero does confess, but not to Waldegrave's murder. Instead, he tells a complicated story about his life in Ireland, where he believes he was responsible for the death of a woman who was his patron, after which he fled to Pennsylvania. Clithero claims to know nothing about Waldegrave's murder.
