**Evolutionary Paleobiology of Behavior and Coevolution** A.J. Boucot, 2013-10-22 This book is the culmination of many years of research by a scientist renowned for his work in this field. It contains a compilation of the data dealing with the known stratigraphic ranges of varied behaviors, chiefly animal, with a few plant and fungal and coevolved relations. A significant part of the data consists of frozen behavior, i.e., those in which an organism has been preserved while actually doing something, as contrasted with the interpretations of behavior of an organism deduced from functional morphology, important as the latter may be. The conclusions drawn from this compilation suggest that both behaviors and coevolved relations appear infrequently following which there is relative fixity of the relation, i.e., two rates of evolution, very rapid and essentially zero. This conclusion complies well with the author's prior conclusion that community evolution followed the same rate pattern. In fact, communities are regarded here as in large part expressions of both behavior and coevolved relations rather than as random aggregates controlled almost wholly by varied unrelated physical parameters tracked by organisms, i.e., the concept that communities have no biologic reality, being merely statistical abstractions. The book is illustrated throughout with more than 400 photographs and drawings. It will be of interest to ethologists, evolutionists, parasitologists, paleontologists, and palaeobiologists at research and post graduate levels      *Merchant Vessels of the United States...* United States. **In the Highest Degree Tragic** Donald M. Kehn, 2017-08-01 In the Highest Degree Tragic tells the heroic story of the U.S. Asiatic Fleet's sacrifice defending the Dutch East Indies from the Japanese in the first three months of the Pacific War. Donald M. Kehn Jr.'s comprehensive narrative history of the operations involving multiple ships and thousands of men dramatically depicts the chaotic nature of these battles. His research has uncovered evidence of communications failures, vessels sinking hundreds of miles from where they had been reported lost, and entire

complements of men simply disappearing off the face of the earth Kehn notes that much of the fleet went down with guns blazing and flag flying highlighting where many others have failed to do so the political and strategic reasons for the fleet's deployment to the region in the first place In the Highest Degree Tragic rectifies the historical record showcasing how brave yet all too human sailors and officers carried out their harrowing tasks Containing rare first person accounts and anecdotes from the highest command echelons down to the lowest enlisted personnel Kehn's book is the most comprehensive and exhaustive study to date of this important part of American involvement in World War II     *Rambles of a Physician* Matthew Woods, 1889     *Poultry Success*, 1919     *Merchant Vessels of the United States ...
