MacDonald, 2011-11-01 The Haida of the Queen Charlotte Islands in British Columbia constructed some of the most magnificent houses and erected some of the most beautifully carved totem poles on the Northwest Coast During the last quarter of the nineteenth century images of the Haida's immense cedar houses and soaring totem poles were captured first on glass plates and later on film by photographers who travelled to then remote villages such as Masset and Skidegate to marvel at and record what they saw there Haida Monumental Art initially published as a limited edition hardcover and now available in paperback includes a large number of these remarkable photographs selected from a collection of over 10 000 original prints and photographic plates They depict the Haida villages at the height of their glory and record their tragic deterioration only a few decades later As well this edition contains the complete text from the first edition including site plans and detailed descriptions of fifteen major villages and several smaller sites which are catalogued by house and pole By combining archeology and ethnohistory George MacDonald presents an integrated framework for understanding the physical structure of a Haida village He explains how the houses and poles are part of a fascinating web of myth family history and Haida cosmology which provides a unique insight into Haida culture **It** Stephen King, 2016-01-01 Stephen King's classic 1 New York Times bestseller and the basis for the massively successful films It Chapter One and It Chapter Two as well as inspiration for HBO Max's series It Welcome to Derry about seven adults who return to their hometown to confront a nightmare they had first stumbled upon as teenagers an evil without a name It Welcome to Derry Maine It's a small city a place as hauntingly familiar as your own hometown Only in Derry the haunting is real They were seven teenagers when they first stumbled upon the horror Now they are grown up men and women who have gone out into the big world to gain success and happiness But the promise they made twenty eight years ago calls them reunite in the same place where as teenagers they battled an evil creature that preyed on the city's children Now children are being murdered again and their repressed memories of that terrifying summer return as they prepare to once again battle the monster lurking in Derry's sewers Readers of Stephen King know that Derry Maine is a place with a deep dark hold on the author It reappears in many of his books including Bag of Bones Hearts in Atlantis and 11 22 63 But it all starts with It Stephen King's most mature work St Petersburg Times It will overwhelm you to be read in a well lit room only Los Angeles Times *Surviving Stephen King* Rebecca Frost, 2021-10-25 Stephen King frequently places his human characters in danger against a supernatural antagonist These characters being realists of the late 20th and early 21st centuries must first overcome their disbelief at what is happening to them and then decide what to do about it Both their explanations for the strange happenings and their attempts to deal with them can be divided into four main categories

cultural appropriation Christianity especially Catholic rites attempts at utter destruction and a resignation to simply live or die with the supernatural intact This book examines over 30 of King s works revealing that the overall success of the characters in removing the supernatural threat from their towns or perhaps defeating it entirely does not depend fully on which of these four paths of action they choose It is possible for any attempt to destroy the supernatural threat to fail and what works in one of King s books will not have the same outcome in another For King the most likely success comes when his characters can choose a course of action that allows them to stand and be true to themselves *The Indian Tipi* Gladys Laubin,Reginald Laubin,2012-11-28 When the first edition of this book was published in 1957 the art of making a tipi was almost lost even among American Indians Since that time a tremendous resurgence of interest in the Indian way of life has occurred resurgence due in part at least to the Laubins life long efforts at preservation and interpretation of Indian culture As The Indian Tipi makes obvious the American Indian is both a practical person and a natural artist Indian inventions are commonly both serviceable and beautiful Other tents are hard to pitch hot in summer cold in winter poorly lighted unventilated easily blown down and ugly to boot The conical tipi of the Plains Indian has none of these faults It can be pitched by one person It is roomy well ventilated at all times cool in summer well lighted proof against high winds and heavy downpours and with its cheerful fire inside snug in the severest winter weather Moreover its tilted cone trim smoke flaps and crown of poles presenting a different silhouette from every angle form a shapely stately dwelling even without decoration In this new edition the Laubins have retained all the invaluable aspects of the first edition and have added a tremendous amount of new material on day to day living in the tipi the section on Indian cooking has been expanded to include a large number and range of Indian foods and recipes as well as methods of cooking over an open fire with a reflector oven and with a ground oven there are new sections on making buckskin making moccasins and making cradle boards there is a whole new section on child care and general household hints Shoshoni Cree and Assiniboine designs have been added to the long list of tribal tipi types discussed This new edition is richly illustrated with color and black and white photographs and drawings to aid in constructing and living in the tipi It is written primarily for the interested amateur and will appeal to anyone who likes camping the out of doors and American Indian lore **The Indian Tipi** Reginald Laubin,Gladys Laubin,2012-11-28 When the first edition of this book was published in 1957 the art of making a tipi was almost lost even among American Indians Since that time a tremendous resurgence of interest in the Indian way of life has occurred resurgence due in part at least to the Laubins life long efforts at preservation and interpretation of Indian culture As The Indian Tipi makes obvious the American Indian is both a practical person and a natural artist Indian inventions are commonly both serviceable and beautiful Other tents are hard to pitch hot in summer cold in winter poorly lighted unventilated easily blown down and ugly to boot The conical tipi of the Plains Indian has none of these faults It can be pitched by one person It is roomy well ventilated at all times cool in summer well lighted proof against high winds and heavy downpours and with its cheerful fire inside snug in the
