**Resources in Women's Educational Equity**, 1979 *What Your Child Needs to Know About Sex* Dr. Fred Kaeser, 2011-09-06 If you start talking early enough kids will listen FOR MANY PARENTS the talk is one of the most dreaded rites of passage in the child raising experience but it doesn't have to be The key is to start early when talking about sex with your child In Dr Fred Kaeser's progressive approach parents become their child's first resource for sexual information instead of ceding control to peers the school system or the media in order to have a lasting and positive influence over their child's sexual development As the former director of health in the New York City public schools there's nothing Dr Kaeser hasn't been asked by kids or by parents And he has seen firsthand the results of our increasingly sexualized youth culture and how it's making children grow up faster than ever these days From sexting to cyberbullying challenges and pressures abound even for kids in kindergarten This means that parents must begin laying the groundwork for basic conversations about sex when their child is as young as three years old Parents then build their discussions on this early foundation introducing more information at developmentally appropriate ages for example talking about puberty with your eight year old and discussing safe sex with your ten year old *What Your Child Needs to Know About Sex and When* goes far beyond the birds and the bees to discuss uncomfortable issues with a winning frankness and empowering attitude It offers families the tools they need for navigating how and when to have positive dialogues about sexuality and helps parents learn to use everyday teachable moments Open communication about sex with your children isn't necessarily easy but it can be done this indispensable book will guide you every step of the way
