The Lysander Spooner Reader:

The Lysander Spooner Reader Lysander Spooner, 1992 *Review of Lysander Spooner's Essay on the Unconstitutionality of Slavery* Wendell Phillips, 1847 *American Anarchism* Steve J. Shone, 2013-09-05 American Anarchism by Steve J Shone is a work of political theory and history that focuses on nineteenth century American Anarchism together with two European anarchists who influenced some of the Americans The nine thinkers discussed are Alexander Berkman Voltairine de Cleyre Samuel Fielden Luigi Galleani Peter Kropotkin Lucy Parsons Max Stirner William Graham Sumner and Benjamin Tucker Shone emphasizes the value of using ideas from nineteenth century American Anarchism to solve contemporary political problems *Libertarian Anarchy* Gerard Casey, 2012-07-19 Political philosophy is dominated by a myth the myth of the necessity of the state The state is considered necessary for the provision of many things but primarily for peace and security In this provocative book Gerard Casey argues that social order can be spontaneously generated that such spontaneous order is the norm in human society and that deviations from the ordered norms can be dealt with without recourse to the coercive power of the state Casey presents a novel perspective on political philosophy arguing against the conventional political philosophy pieties and defending a specific political position which he identifies as libertarian anarchy The book includes a history of the concept of anarchy an examination of the possibility of anarchic societies and an articulation of the nature of law and order within such societies Casey presents his specific form of anarchy undergirded by a theory of human action that prioritises liberty as a philosophically and politically viable alternative to the standard positions in political theory [The Routledge Companion to Libertarianism](#) Matt Zwolinski, Benjamin Ferguson, 2022-04-28 Have you ever wondered what libertarians think about vaccine mandates About gun control About racial and sexual inequalities While libertarianism is well known as a political theory relating to the scope and justification of state authority the breadth and depth of libertarian work on a wide range of other topics in social and political philosophy is less well known This handbook is the first definitive reference on libertarianism that offers an in depth survey of the central ideas from across philosophy politics and economics including applications to contemporary policy issues The forty chapters in this work provide an encyclopedic overview of libertarian scholarship from foundational debates about natural rights theories vs utilitarian approaches to policy debates over immigration punishment and policing and intellectual property Each chapter presents a comprehensive and up to date overview of historical and contemporary libertarian thought on its subject and thus serves as an essential guide to current scholarship and a starting place for discovering future lines of research The book also contains a section on criticisms of libertarianism written by leading scholars from the feminist republican socialist and conservative perspectives as well as a section on how libertarian political theory relates to various schools of economic thought such as the Chicago Austrian Bloomington and Public Choice schools This book is an essential and comprehensive guide for anyone interested in libertarianism whether sympathizer or critic **The Encyclopedia of Libertarianism** Ronald

Hamowy,2008-08-15 Provides an introduction to and compendium of libertarian scholarship via a series of brief articles on the historical sociological and economic aspects of libertarianism within the broader context *American Memory Hole*

Donald Jeffries,2024-08-27 Donald Jeffries takes another deep dive down the historical rabbit holes with American Memory Hole How the Court Historians Promote Disinformation You will discover how cancel culture was born during the administration of Franklin D Roosevelt And how our interventionist foreign policy was established during the Woodrow Wilson presidency Jeffries documents the tragically common atrocities committed by US troops beginning with the Mexican American War which became official policy under the total war and scorched earth strategy of Abraham Lincoln s bloodthirsty generals He recounts the shocking abuses of our military forces in countries like Mexico Haiti the Philippines and elsewhere Jeffries builds on his groundbreaking investigation into the murder of John F Kennedy Jr uncovering even more evidence of conspiracy and cover up He talked to people no researcher has talked to before in a powerful new section on the assassination of President John F Kennedy Jeffries explores the Kennedy family in general and finds that the establishment especially the Left continues to treat them unfairly The events of September 11 2001 and the Oklahoma City Bombing are investigated in depth as never before There is stunning new information on much maligned Senator Joseph McCarthy who emerges here not as some irredeemable monster but as a genuine American patriot who has been demeaned in death even more than he was in life The reader will never look at the supposed heroes and villains of American history the same way again after reading this book History is written by the victors *The United States Government Is Illegitimate*

Robert G. Beard, Jr., C.P.A., C.G.M.A., J.D., LL.M.,2017-05-23 This book is a draft of chapter one of Mr Beard s dissertation The Impact of Constitutional Interpretation on Individual Freedom He was kicked out of the J S D program by a Dean who graduated from Harvard Law because this project was to put it politely politically incorrect justification was that it would not contribute anything new or important to the existing scholarship Once the Dean was no longer at the law school Mr Beard s supervisor and co faculty director of the program invited him back to finish this project The purpose of this dissertation is to explain how power elites and branches of government have reinterpreted the U S Constitution to increase government power and authority at the expense of individual freedom There are only two ways to interpret the U S Constitution 1 Under the freedom doctrine or 2 as a master slave relationship which is what has been going on for the past 100 years If Americans are not slaves then the U S Government is Illegitimate *The Libertarian Mind* David Boaz,2015-02-10 Rev ed of Libertarian A primer New York Free Press 1997 **Secession, State, and Liberty** David Gordon,2017-09-29 The political impulse to secede to attempt to separate from central government control is a conspicuous feature of the post cold war world It is alive and growing in Canada Russia China Italy Belgium Britain and even the United States Yet secession remains one of the least studied and least understood of all historical and political phenomena The contributors to this volume have filled this gap with wide ranging investigations rooted in history political philosophy ethics and economic theory of secessionist movements

in the United States Canada and Europe **The Debates of Liberty** Wendy McElroy, 2003-01-01 Wendy McElroy provides a comprehensive examination of one of the most remarkable and influential political phenomena in America the anarchist periodical Liberty and the circle of radicals who surrounded it *A Beautiful Anarchy: How to Create Your Own Civilization in the Digital Age* Jeffrey Tucker, 2012 A Beautiful Anarchy How to Create Your Own Civilization in the Digital Age is Jeffrey Tucker s rhapsodic hymn to the digital age and a call to use the tools it has granted us to enhance human freedom and reduce and end intellectual dependency on the state It shows that every truly valuable aspect of our lives extends not from politics and the regime but from our own voluntary choices The aims of A Beautiful Anarchy are 1 to draw attention to the reality that surrounds us but we hardly ever bother to notice much less celebrate 2 to urge a willingness to embrace this new world as a means of improving our lives regardless of what the anachronistic institutions of power wish us to do 3 to elucidate the causes and effects that have created this new world and 4 to urge more of the good institutions that have created this beautiful anarchy This books covers the uses of social media the blessed end of the nation state the way the government is destroying the physical world the role of commerce in saving humanity the depredations of nation state monetary policy the evil of war and the lie of national security and private societies as agents of liberation And it offers a hopeful prognosis for a creative and productive world without central control The book is topical pithy and anecdotal yet points to the big ideas and the larger picture to help frame the great economic and political debates of our time Book description Amazon com [The Libertarian Reader](#) David Boaz, 2015-02-17 The most magnificent collection of libertarian writings ever published Laissez Faire Books An important collection of seminal writings on a movement that is rapidly changing the face of American politics The Libertarian Reader links some of the most fertile minds of our time to a centuries old commitment to freedom self determination and opposition to intrusive government This is the first comprehensive anthology of libertarian thought from the Bible and Lao Tzu to Hayek and Milton Friedman to be published in one volume The 68 selections from great libertarian writers are an intellectual feast covering such key libertarian themes as skepticism about power individual rights spontaneous order free markets and peace For all independent thinkers this unique sourcebook will stand as a classic reference for years to come and a reminder that libertarianism is one of our oldest and most venerable American traditions **Liberty Defined** Ron Paul, 2011-04-19 In Liberty Defined congressman and 1 New York Times bestselling author Ron Paul returns with his most provocative comprehensive and compelling arguments for personal freedom to date The term Liberty is so commonly used in our country that it has become a mere cliché But do we know what it means What it promises How it factors into our daily lives And most importantly can we recognize tyranny when it is sold to us disguised as a form of liberty Dr Paul writes that to believe in liberty is not to believe in any particular social and economic outcome It is to trust in the spontaneous order that emerges when the state does not intervene in human volition and human cooperation It permits people to work out their problems for themselves build lives for themselves take risks and

accept responsibility for the results and make their own decisions It is the seed of America This is a comprehensive guide to Dr Paul s position on fifty of the most important issues of our times from Abortion to Zionism Accessible easy to digest and fearless in its discussion of controversial topics Liberty Defined sheds new light on a word that is losing its shape **Racial Harmony Is Achievable** Michael Haas,2016-07-15 Racial and social relations can become harmonious and serene in every country of the world Racism can be eliminated The Kingdom of Hawai i during the nineteenth century reveals a history of responsive politicians economic progress environmental preservation and serene race relations because of a cultural lifestyle that can be emulated But not everything was rosy Severe challenges emerged after the discovery of the Islands in 1778 The leaders and the people responded to various intrusions in an exemplary manner while the same problems have provoked endless conflict and social disintegration that plague the world today Using analytical methods this book recounts how the people of the Islands overcame civil wars decimating diseases ecosystem despoliation religious conflicts the uprooting of feudalism worker exploitation imperialist threats coups and a massive influx of new residents who quickly became acculturated But the Kingdom of Hawai i ended because of a flagrant violation of international law that calls out to be reversed The world needs to know how a society of Caucasians Chinese Japanese Mexicans Native Hawaiians and others worked together to solve problems that seem intractable elsewhere Until the secret is revealed the world seems doomed to constant turbulence Presenting a plan for social transformation this book will be of key interest in the fields of political science public affairs sociology and Hawaiian studies **Fighting Back: Libertarian Essays on Resisting the State** C. R. Clark, II,2010-05-03 In three essays the author looks at means for resisting the state and the repercussions of putting them into action A history of jury nullification is followed by analysis on whether or not jurors should nullify the law Tax resistance is examined as a civil disobedience tool Finally direct action is considered with discussion of the rights to defense against excessive force and defense against unlawful arrest Original work by C R Clark II **Radicals for Capitalism** Brian Doherty,2009-04-28 On Wall Street in the culture of high tech in American government Libertarianism the simple but radical idea that the only purpose of government is to protect its citizens and their property against direct violence and threat has become an extremely influential strain of thought But while many books talk about libertarian ideas none until now has explored the history of this uniquely American movement where and who it came from how it evolved and what impact it has had on our country In this revelatory book based on original research and interviews with more than 100 key sources Brian Doherty traces the evolution of the movement through the unconventional life stories of its most influential leaders Ludwig von Mises F A Hayek Ayn Rand Murray Rothbard and Milton Friedman and through the personal battles character flaws love affairs and historical events that altered its course And by doing so he provides a fascinating new perspective on American history from the New Deal through the culture wars of the 1960s to today s most divisive political issues Neither an expos nor a political polemic this entertaining historical narrative will enlighten anyone interested in American politics **How to**

Demolish Racism Michael Haas,2016-10-07 This book describes racist rule in Hawai i during the first half of the twentieth century and how statehood made possible a fundamental transformation Based on a multicultural ethos top political power shifted from Whites to Japanese and later to other racial groups Racism was eliminated in the economy environmental policies were modified government operations became more multicultural and the desires of Native Hawaiians to recover what had been lost from the days of the Kingdom of Hawai i were placed on legal and political agendas Even before statehood Hawai i s example of school integration gave birth to the movement resulting in Brown v Board of Education Afterward the Aloha State was the first to adopt many reforms unrestricted abortion universal health care insurance an Equal Rights Amendment a State Ombudsman neighborhood boards classifying Whites as a minority in affirmative action banning strip searches of females and dozens of other innovative reforms that have been adopted elsewhere Hawai i remains the only state that is officially bilingual has required mediation before foreclosures celebrates an Islam Day prohibits discrimination based on credit history and breastfeeding bans smoking until the age of 21 disallows plastic bags has declared an end to the use of fossil fuels by 2045 and has adopted many other measures that lead the world This book explains how developments in the Aloha State which have provided leadership to the United States may be copied elsewhere primarily based on the technique of reverse cultural engineering which is the unrecognized basis for legal systems around the world **The Great**
