**The Making of a Missile Crisis, October 1962** Herbert Samuel Dinerstein, 1978 Contains primary source material  
*The Cuban Missile Crisis, 1962*, 1990 *We All Lost the Cold War* Richard Ned Lebow, Janice Gross Stein, 1995-07-23 In the 1980s Soviet evidence suggests the Reagan arms buildup delayed rather than hastened the accommodation Gorbachev desired for internal political reasons Both nations the authors argue expended lives and resources out of all reasonable proportion to their legitimate security interests with destabilizing consequences that persist today [The Missile Crisis of October 1962](#) Lester H. Brune, 1985 **The Uses and Limits of Intelligence** Walter Laqueur, 2017-09-29 This is a major survey and assessment of U S intelligence activities over the last forty five years It offers a systematic and authoritative evaluation of American intelligence gathering machinery how it has been used misused and on occasion ignored The book has been hailed as a splendid work reflective and penetrating by James R Schlesinger while Zbigniew Brzezinski describes Laqueur as a man who understands the relationships between history and the world of secret services Henry S Rowen noted that Laqueur brings a rare degree of analytical power to this important subject *Secrets, Spies, and Scholars* Ray S. Cline, 1976 In *Secrets Spies and Scholars* for the first time Ray S Cline a former top level CIA official with operational experience puts the triumphs as well as the disasters of American intelligence into a meaningful perspective encompassing national political processes and decision making The book contains many illustrative accounts of what espionage counterespionage and other intelligence work at the top levels of government are really like including the operational Abebooks com *The American Experiment* James MacGregor Burns, 2013-05-21 The Pulitzer Prize winning author s stunning trilogy of American history spanning the birth of the Constitution to the final days of the Cold War In these three volumes Pulitzer Prize and National Book Award winner James MacGregor Burns chronicles with depth and narrative panache the most significant cultural economic and political events of American history In *The Vineyard of Liberty* he combines the color and texture of early American life with meticulous scholarship Focusing on the tensions leading up to the Civil War Burns brilliantly shows how Americans became divided over the meaning of Liberty In *The Workshop of Democracy* Burns explores more than a half century of dramatic growth and transformation of the American landscape through the addition of dozens of new states the shattering tragedy of the First World War the explosion of industry and in the end the emergence of the United States as a new global power And in *The Crosswinds of Freedom* Burns offers an articulate and incisive examination of the US during its rise to become the world s sole superpower through the Great Depression the Second World War the Cold War and the rapid pace of technological change that gave rise to the American Century [Britain and the World in the Twentieth Century](#) Michael J Turner, 2010-02-26 This is a detailed single volume analysis of Britain s changing position in the world during the twentieth century It places British policy making in the appropriate domestic and international contexts offers an alternative to the more negative decline obsessed assessments of Britain s role

and influence in global affairs This book suggests that Britain's leaders did a better job than some historians think Michael Turner in order to understand why they took the options they did investigates their motives and aims within the international environment within which they operated      *Understanding the Impact of Emotional Stress on Crisis Decision Making* Noel Allan Sawatzky, 2022-01-03 Motivational models are critical to understanding crisis decision making because leaders and their advisors are emotionally involved intent on reducing stress and motivated to find ways of advancing their interests while minimizing the risk of war The principal theoretical work on the subject is Irving Janis and Leon Mann's classic study of decision making published in 1977 While useful the book has a significant flaw Janis and Mann theorize that policy maker stress during crisis is derived from decision deliberation leading to a circular approach This book solves the identified problem by addressing circularity between the rise of psychological stress decision deliberation and dysfunctional behavior with an independent measure of decision conditions using cognitive complexity With an effective independent measure of stress the key contribution of this volume is a reformulation of Janis and Mann's model to render the construct more rigorous and empirically useful to the present day study of crisis decision making      *The Cuba-Caribbean Missile Crisis of October 1962* Lester H. Brune, 1996      ***Sad and Luminous Days*** James G. Blight, Philip Brenner, 2007-02-08 In October 1962 school children huddled under their desks and diplomats feverishly negotiated as the world sat on the brink of nuclear war The Cuban Missile Crisis was the most dangerous moment in modern history and resulted in a changed worldview for the United States the Soviet Union and Cuba In tracing the developments of the missile crisis and beyond *Sad and Luminous Days* presents and interprets a heretofore unavailable and largely unknown secret speech that Castro delivered to the Cuban leadership in 1968 In it Castro reflects on the crisis and reveals the distrust and bitterness that characterized Cuban Soviet relations in 1968 Blight and Brenner frame the annotated speech with an examination of the missile crisis itself and an analysis of Cuban Soviet relations between 1962-1968 ending with an epilogue that highlights the lessons the missile crisis offers us in the current search for security and a stable world order *Sad and Luminous Days* sheds new light on Cuban Soviet relations and should be required reading not only for Cold War scholars and historians but also for anyone intrigued by the drama of the thirteen momentous days in October 1962      ***The Making of a Missile Crisis*** Herbert Samuel Dinerstein, 1976      *Reputation for Resolve* Danielle L. Lupton, 2020-04-15 How do reputations form in international politics What influence do these reputations have on the conduct of international affairs In *Reputation for Resolve* Danielle L. Lupton takes a new approach to answering these enduring and hotly debated questions by shifting the focus away from the reputations of countries and instead examining the reputations of individual leaders Lupton argues that new leaders establish personal reputations for resolve that are separate from the reputations of their predecessors and from the reputations of their states Using innovative survey experiments and in depth archival research she finds that leaders acquire personal reputations for resolve based on their foreign policy statements and behavior *Reputation for Resolve* shows that statements

create expectations of how leaders will react to foreign policy crises in the future and that leaders who fail to meet expectations of resolute action face harsh reputational consequences Reputation for Resolve challenges the view that reputations do not matter in international politics In sharp contrast Lupton shows that the reputations for resolve of individual leaders influence the strategies statesmen pursue during diplomatic interactions and crises and she delineates specific steps policymakers can take to avoid developing reputations for irresolute action Lupton demonstrates that reputations for resolve do exist and can influence the conduct of international security Thus Reputation for Resolve reframes our understanding of the influence of leaders and their rhetoric on crisis bargaining and the role reputations play in international politics

**Cuban Missile Crisis** Jonathan Colman, 2016-02-15 October 1962 The Cuban Missile Crisis the confrontation that brought the world closer to nuclear catastrophe than ever before or since Both John F Kennedy and Nikita Khrushchev were determined to avoid nuclear war but events could easily have spiraled out of control with cataclysmic results Drawing on an extensive body of research including primary sources released only in the last few years this work places the crisis in a broader international and chronological context than previously possible Discover how America was responsible for causing the conflict and Cuba's role as an important actor rather than a superpower pawn

*The Cuban Missile Crisis* Robert A. Divine, 1988 Explores the unresolved questions raised by the Cuban Missile Crisis of October 1962

**Bureaucracies at War** Tyler Jost, 2024-06-27 Rethinks how bureaucracy shapes foreign policy miscalculation is less likely when political leaders can extract quality information from the bureaucracy

**The Oxford Companion to American Military History**, *US Foreign Policy and the Iran Hostage Crisis* David Patrick Houghton, 2001-05-21 Why did a handful of Iranian students seize the American embassy in Tehran in November 1979 Why did most members of the US government initially believe that the incident would be over quickly Why did the Carter administration then decide to launch a rescue mission and why did it fail so spectacularly *US Foreign Policy and the Iran Hostage Crisis* examines these puzzles and others using an analogical reasoning approach to decision making a theoretical perspective which highlights the role played by historical analogies in the genesis of foreign policy decisions Using interviews with key decision makers on both sides Houghton provides an analysis of one of the United States greatest foreign policy disasters the events of which continue to poison relations between the two states The book will be of interest to students and scholars of foreign policy analysis and international relations

*One Minute to Midnight* Michael Dobbs, 2008-06-03 In October 1962 at the height of the Cold War the United States and the Soviet Union came to the brink of nuclear conflict over the placement of Soviet missiles in Cuba In this hour by hour chronicle of those tense days veteran Washington Post reporter Michael Dobbs reveals just how close we came to Armageddon Here for the first time are gripping accounts of Khrushchev's plan to destroy the U S naval base at Guantanamo the handling of Soviet nuclear warheads on Cuba and the extraordinary story of a U 2 spy plane that got lost over Russia at the peak of the crisis Written like a thriller One
