**The Making of Citizen Kane** Robert L. Carringer, 1985 Discusses the script art direction and cinematography of Orson Welles most famous film argues that it was a collaborative effort and examines Welles other efforts for RKO Making of Citizen Kane (the). R.L. Carringer, 1985 Citizen Kane Orson Welles, Herman Jacob Mankiewicz, Pauline Kael, 2002 The complete screenplay of one of the world s most famous and controversial films A definitive chronicle of the making of the film Sheridan Morley Films Filming This is the complete companion to Citizen Kane the film that was designed to shock Kenneth Tynan one of the best loved and best known movies in the history of Hollywood and still the most staggering film debut ever Not only was this Orson Welles s first film as actor and director but most of the cast were also new to the cinema Yet so controversial was the subject matter that an 842 000 bribe and the concentrated wrath of the Hearst newspaper empire combined in an attempt to strangle its distribution And the authorship of the film is still a subject of conflict Pauline Kael s long essay Raising Kane dissects a maze of Hollywood lore to re evaluate these and many other fascinating stories about the making of this remarkable film Her account is followed by the original screenplay illustrated with stills and frame enlargements Citizen Kane revolutionised film making and the question of its authorship is as important to the cinema as that of Hamlet to the theatre Pauline Kael explains how the picture came to be made and concludes that the man most responsible for its creation was not Welles but Herman J Mankiewicz Kenneth Tynan Observer At the End of the Street in the Shadow Matthew Asprey Gear, 2016-02-16 The films of Orson Welles inhabit the spaces of cities from America s industrializing midland to its

noirish borderlands from Europe's medieval fortresses to its Kafkaesque labyrinths and postwar rubblescapes His movies take us through dark streets to confront nightmarish struggles for power the carnivalesque and bizarre and the shadows and light of human character This ambitious new study explores Welles's vision of cities by following recurring themes across his work including urban transformation race relations and fascism the utopian promise of cosmopolitanism and romantic nostalgia for archaic forms of urban culture It focuses on the personal and political foundation of Welles's cinematic cities the way he invents urban spaces on film to serve his dramatic thematic and ideological purposes The book's critical scope draws on extensive research in international archives and builds on the work of previous scholars Viewing Welles as a radical filmmaker whose innovative methods were only occasionally compatible with the commercial film industry this volume examines the filmmaker's original vision for butchered films such as *The Magnificent Ambersons* 1942 and *Mr Arkadin* 1955 and considers many projects the filmmaker never completed an immense shadow oeuvre ranging from unfinished and unreleased films to unrealized treatments and screenplays

*Filming the First* Helen J. Knowles-Gardner, Bruce E. Altschuler, Brandon T. Metroka, 2024-10-15 The First Amendment to the U S Constitution prohibits Congress from abridging freedom of the press But as the printed press has been transformed into mass media with Americans now more likely to get their political information from television or social media than from print confidence in this important mediating institution has fallen dramatically Movies in their role as cultural artifacts have long reflected and influenced those public attitudes inventing such iconic phrases as follow the money from *All the President's Men* and I'm mad as hell and I'm not going to take this anymore from *Network* *Filming the First Cinematic Portrayals of Freedom of the Press* analyzes eighteen films that span from *Citizen Kane* to *Spotlight* showing changes in how the press have been portrayed over time which voices receive the most attention and why the relationship between the press's Fourth Estate role and the imperatives of capitalism and how despite the First Amendment's seemingly absolute language the government has sometimes been able to limit what the public can read or view

W. Murnau Orson Welles and Alfred Hitchcock used camera movement to enrich their stories and deepen their themes Balancing close analysis with a broader poetics of camera movement Keating uses archival research to chronicle the technological breakthroughs and the changing division of labor that allowed for new possibilities as well as the shifting political and cultural contexts that inspired filmmakers to use technology in new ways An original history of film techniques and aesthetics The Dynamic Frame shows that the classical Hollywood camera moves not to imitate the actions of an omniscient observer but rather to produce the interplay of concealment and revelation that is an essential part of the exchange between film and viewer

[The Near-Death of the Author](#) John Potts, 2022-11-01 In the modern world of networked digital media authors must navigate many challenges Most pressingly the illegal downloading and streaming of copyright material on the internet deprives authors of royalties and in some cases it has discouraged creativity or terminated careers Exploring technology's impact on the status and idea of authorship in today's world *The Near Death of the Author* reveals the many obstacles facing contemporary authors John Potts details how the online culture of remix and creative reuse operates in a post authorship mode with little regard for individual authorship The book explores how developments in algorithms and artificial intelligence AI have yielded novels newspaper articles musical works films and paintings without the

need of human authors or artists It also examines how these AI achievements have provoked questions regarding the authorship of new works such as Does the author need to be human And more alarmingly Is there even a need for human authors Providing suggestions on how contemporary authors can endure in the world of data the book ultimately concludes that network culture has provoked the near death but not the death of the author Multiple Authorship and the Myth of Solitary Genius Jack Stillinger,1991 This is a study of the collaborative creation behind literary works that are usually considered the work of a single author Stillinger examines case histories from Keats Wordsworth Coleridge Mill and T S Eliot as well as from American fiction plays and films to demonstrate that multiple authorship is a widespread phenomenon
