Spirit Possession around the World Joseph P. Laycock, 2015-05-26 This book provides a fascinating historical and cultural overview of traditional beliefs about spirit possession and exorcism around the world from Europe to Asia and the Middle East to the Americas. Possession and exorcism are elements that occur in nearly every culture. Why is belief in spiritual possession so universal? This accessible reference volume offers a broad sample of the traditions and cultures involving possession and exorcism, presenting thoughts on this widely popular topic by experts from the fields of anthropology, sociology, religious studies, history, neuroscience, forensics, and theology. The entries cover the subject of possession and exorcism across all inhabited continents from the Bronze Age to the 21st century, providing information that is accessible and intriguing as well as scholarly and authoritative. Beyond addressing the Christian tradition of possession and exorcism, Pentecostalism, and New Age, and less widely known Western concepts about possession and exorcism, this work examines ideas about possession and exorcism from other world religions and the indigenous cultures of Asia, Africa, and the Americas. It also covers historic cases of possession and presents biographies of famous theologians, exorcists, and possessed individuals. High school and undergraduate readers will learn about world history, religious and spiritual traditions, and world cultures through a topic that figures prominently in popular culture and modern entertainment. Bibliographies that accompany each entry as well as a selected general bibliography serve to help students locate print and electronic sources of additional information.

Horror in Space Michele Brittany, 2017-10-27 In sharp contrast to many 1960s science fiction films with idealized views of space exploration, Ridley Scott's *Alien* (1979) terrified audiences depicting a harrowing and doomed deep space mission. The *Alien* films launched a new generation of horror set in the great unknown, inspiring filmmakers to take Earth-bound franchises like *Leprechaun* and *Friday the 13th* into space. This collection of new essays examines the space horror subgenre with a focus on such films as Paul W. S. Anderson's *Event Horizon*, Duncan Jones' *Moon*, Mario Bava's *Planet of the Vampires*, and John Carpenter's *Ghosts of Mars*. Contributors discuss how filmmakers explored the concepts of the final girl survivor, the uncanny valley, the isolationism of space travel.

Blockbuster Tom Shone, 2004-12-07 It's a typical summer Friday night and the smell of popcorn is in the air. Throngs of fans jam into air conditioned multiplexes to escape for two hours in the dark blissfully lost in Hollywood's latest glittery confection complete with megawatt celebrities, awesome special effects and enormous marketing budgets. The world is in love with the blockbuster movie and these cinematic behemoths have risen to dominate the film industry breaking box office records every weekend. With the passion and wit of a true movie buff and the insight of an internationally renowned critic Tom Shone is the first to make sense of this phenomenon by taking readers through the decades that have shaped the modern blockbuster and forever transformed the face of Hollywood. The moment the shark fin broke the water in 1975 a new monster was born. Fast, visceral and devouring all in its path the blockbuster had arrived. In just a few weeks *Jaws* earned more than 100 million in ticket sales an unprecedented feat that heralded a new era in film. Soon blockbuster auteurs such as Steven Spielberg, George Lucas and James Cameron would revive the flagging fortunes of the studios and lure audiences back into theaters with the promise of thrills, plenty of action and an escape from art house pretension. But somewhere along the line the beast they awakened took on a life of its own and by the 1990s production budgets had escalated as quickly as profits. Hollywood entered a topsy-turvy world ruled by marketing and merchandising mavens in which flops like *Godzilla* made money and hits had to break records just to break even. The blockbuster changed from a major event that took place a few times a year into something that audiences have come to expect weekly piling into the backs of one another in an annual demolition derby that has left even Hollywood aghast. Tom Shone has interviewed all the key participants from cinematic visionaries like Spielberg and Lucas and the executives who greenlight these spectacles down to the effects wizards who detonated the Death Star and blew up the White House in order to reveal the ways in which blockbusters have transformed how Hollywood makes movies and how we watch them. As entertaining as the films it chronicles *Blockbuster* is a must read for any fan who delights in the magic of the movies.
