The Management Retreat:

The Management Retreat Cleoj, 2002-07 Report of Her Majesty's Commissioners Appointed to Inquire Into the Management and Government of the College of Maynooth Great Britain. Maynooth Commission, 1855 The County companion, diary, statistical chronicle and magisterial and official directory for 1879 (-87,89), ed. by J.R. Somers Vine sir John Richard Somers Vine, 1880 Scholars in the Marketplace. The Dilemmas of Neo-Liberal Reform at Makerere University, 1989-2005 Mahmood Mamdani, 2007 Scholars in the Marketplace is a case study of market based reforms at Uganda's Makerere University With the World Bank heralding neoliberal reform at Makerere as the model for the transformation of higher education in Africa it has implications for the whole continent At the global level the Makerere case exemplifies the fate of public universities in a market oriented and capital friendly era The Makerere reform began in the 1990s and was based on the premise that higher education is more of a private than a public good Instead of pitting the public against the private and the state against the market this book shifts the terms of the debate toward a third alternative than explores different relations between the two The book distinguishes between privatisation and commercialisation two processes that drove the Makerere reform It argues that whereas privatisation the entry of privately sponsored students is compatible with a public university where priorities are publicly set commercialisation financial and administrative autonomy for each faculty to design a market responsive curriculum inevitably leads to a market determination of priorities in a public university The book warns against commercialisation of public universities as the subversion of public institutions for private The Ever Changing Organization Gerald R Pieters, 2017-07-12 If you are overwhelmed by the amount of change purposes and the difficulty in making it happen finding failure or limited success with the implementation of changes disappointed in the growth or financial performance of your organization and are looking for a strategy for improving your organization s capacity for planned and proactive change this book is for you The world is continuing to change at a rapid pace while most organizations are focused on maintaining stability and certainty The price of this growing gap is the diversion of limited resources to reactive fire fighting behaviors and the inability to lead and be proactive Allowing the gap to continue to grow is the formula for failure this book gives you the formula for success In The EverChanging Organization the authors present a model of the EverChanging Organization ECO This is a systems model for understanding an organization s needed capacity for change in a range of change orientations from change averse to change seeking The book includes diagnostic scales tools for assessing need and status as an ECO and a process for selecting and implementing change initiatives to achieve the needed capacity for change in timely and cost effective ways The Sessional Papers Printed by Order of the House of Lords ...
