

Welcome To
**The
Many-Colored
Land**

Now, you travelers, listen! Any of you who think you'd like to escape, just think about the fossil zoo waiting: bright-eyed and bushy-tailed. We got superlions and hyenas the size of grizzly bears. We got wild boars bigger'n oxen and man-eaters that'll stomp you to death if they even catch sight of you. The creeks are full of pythons and crocs. The woods have poisonous spiders with bodies like peaches and fangs like gahoon vipers. You get away from the animals and the Firruvag will track you down and play devil-tunes on your mind until you go mad.

"It's bad out there, travelers! It's not the pretty Eden world they told you about in A.D. 2110."

"Gloomy? Feel out of place? Try the Pliocene; six million years in the past, no pollution, no taxes, equable climate. Climb into your Guderian Effect one-way time machine...it's an SF adventure novel on a grand scale."

The Many Colored Land:

The Many-Colored Land Julian May, 1981-04-17 In the year 2034 Theo Quderian a French physicist made an amusing but impractical discovery the means to use a one way fixed focus time warp that opened into a place in the Rhone River valley during the idyllic Pliocene Epoch six million years ago But as time went on a certain usefulness developed The misfits and mavericks of the future many of them brilliant people began to seek this exit door to a mysterious past In 2110 a particularly strange and interesting group was preparing to make the journey a starship captain a girl athlete a paleontologist a woman priest and others who had reason to flee the technological perfection of twenty second century life Thus begins this dazzling fantasy novel that invites comparisons with the work of J R R Tolkien Arthur C Clarke and Ursula Le Quin It opens up a whole world of wonder not in far flung galaxies but in our own distant past on Earth a world that will captivate not only science fiction and fantasy fans but also those who enjoy literate thrillers The group that passes through the time portal finds an unforeseen strangeness on the other side Far from being uninhabited Pliocene Europe is the home of two warring races from another planet There is the knightly race of the Tanu handsome arrogant and possessing vast powers of psychokinesis and telepathy And there is the outcast race of Firvulag dwarfish malevolent and gifted with their own supernormal skills Taken captive by the Tanu and transported through the primordial European landscape the humans manage to break free join in an uneasy alliance with the forest dwelling Firvulag and finally launch an attack against the Tanu city of light on the banks of a river that eons later would be called the Rhine Myth and legend wit and violence speculative science and breathtaking imagination mingle in this romantic fantasy which is the first volume in a series about the exile world The sequel titled **The Golden Torc** will follow soon
