published in 1983 The volume Cyclical Time and Ismaili Gnosis brings together in English translation three of Henry Corbin s
richest and most complex studies originally presented at the Eranos conferences of 1951 and 1954 and another conference in
1956 Each of these three relatively early studies is built around a complex highly creative comparison of the
phenomenological correspondences between texts often highly fragmentary from a vast range of spiritual traditions from late
Antiquity including Manichaenism and the sects of Sassanid Iran all gnostic in the root Greek sense of that term favoured by
Corbin though not in the narrower historical sense used by most contemporary scholars and comparable spiritual themes in

into three main parts the environment life work and person of Paul Paul s letters and theological themes and the reception of
Paul and his letters As such it provides a comprehensive overview of scholarship on Paul and is the perfect handbook for the
serious student wishing to engage with some of the most important writings in the New Testament This book features maps

Materials for the Study of the Apostolic Gnosis Thomas Simcox Lea, Frederick Bligh Bond, 1922 *Mark's Other Gospel* Scott G. Brown, 2006-01-01 Did the evangelist Mark write two versions of his gospel According to a letter ascribed to Clement of Alexandria Mark created a second more spiritual edition of his gospel for theologically advanced Christians in Alexandria Clement's letter contains two excerpts from this lost gospel including a remarkably different account of the raising of Lazarus Forty five years of cursory investigation have yielded five mutually exclusive paradigms abundant confusion and rumours of forgery Strangely one of the few things upon which most investigators agree is that the letter's own explanation of the origin and purpose of this longer gospel need not be taken seriously Mark's Other Gospel Rethinking Morton Smith's Controversial Discovery calls this pervasive bias into question After thoroughly critiquing the five main paradigms Scott G Brown demonstrates that the gospel excerpts not only sound like Mark but also employ Mark's distinctive literary techniques deepening this gospel's theology and elucidating puzzling aspects of its narrative This mystic gospel represents Mark's own response to the Alexandrian predilection to discover the essential truths of a philosophy beneath the literal level of revered texts **Comparing Christianities** April D. DeConick, 2023-08-22 A ground breaking introductory

textbook for the study of the New Testament and the first Christians written for the next generation of students Comparing Christianities An Introduction to the New Testament and the First Christians maps the historical rise of Christianity out of a network of early Christian movements This major new textbook systematically explores the struggles to define the faith by presenting Christianity as the result of a lengthy process of religious consolidation which emerged from a landscape of persistent Christian diversity The book delves into the history of the first five generations of Christians from Paul to Origen The first chapter considers the challenges of constructing Christian histories and offers a new model of Christian families to organize and explain the emergence and competition of different varieties of Christianity Each successive chapter focuses on key issues that Christian leaders engaged over the centuries demonstrating how the questions they posed and the answers they provided gave Christianity its distinct shape As the movements competed for social advantage Christians began identifying certain Christian movements as enemies and consolidated against them The final chapter schematizes the Christians studied in the book into three families of Christian movements based on the particular God they worshipped and other shared patterns of thought and practice This chapter also explains where the varieties of Christianities came from and how the process of consolidation undertaken by some churches shaped Christian identity within a forge of intolerance that still affects us today Comparing Christianities explores the answers to questions Who were the early Christians and what did they write What did Christians think about sex women immortality Judaism suffering and death What rituals did the first Christians practice and what did their religious experiences mean to them How did Christians live in a Roman dominated world How did the first Christians explain the origins of their movement Comparing Christianities An Introduction to the New Testament and the First Christians serves as an excellent primary textbook in undergraduate classrooms for Introduction to Christianity Introduction to Religion New Testament Studies Christian Origins World Religions and Western World Religions and a thought provoking resource for anyone wishing to know more about Christianity **Cyclical Time and Ismaili**

Scott Spencer, 1997-01-01 Appraisals of early Christian leaders in Acts typically neglect or minimize the contribution of Philip the evangelist This study establishes Philip s pivotal place in the overall structure of Luke Acts stressing the significance of his roles as the first missionary to the marginalized Samaritans and God fearers of a charismatic prophet in the tradition of Moses and Elijah and a versatile servant in both domestic diaconal and itinerant kerygmatic capacities This investigation utilizes close literary analysis of the Lukan narrative informed by social historical assessments of the ancient Mediterranean world to create a comprehensive multidimensional portrait of Philip in Acts

Hans Jonas Daniel M. Herskowitz, Elad Lapidot, Christian Wiese, 2024-11-28 This book offers new perspectives on the early and formative years of the German Jewish philosopher Hans Jonas through innovative studies of his German and Hebrew work in pre war Germany and Palestine Covering all facets of Jonas s early work the book brings together leading

scholars to explore key conceptual historical genealogical and biographical contexts Some of the main topics examined include his deep intellectual history of Western thought and its origins in late antiquity through the category of Gnosis the intellectual influence of Heidegger Bultmann Husserl and Spengler his relation to Christian theology and his interest in Judaism and Zionism Existing research on his early work is not only limited in size but also often methodologically deficient for it is common to interpret the early in light of the late and as teleologically leading to it By introducing new materials and addressing new questions this book offers innovative perspectives on Jonas s intellectual project as a whole and provides a historical and conceptual foundation for further scholarly explorations of his oeuvre Providing fresh insights into the work of one of the twentieth century s most influential philosophers the book will appeal to students and researchers working in intellectual history Jewish studies and religion
