The Amazon Rubber Boom 1850 1920:

The Amazon Rubber Boom, 1850-1920 Barbara Weinstein, 1983-06-01 The first complete account of the rise and fall of the rubber economy in Brazil provides a dramatic example of one of the boom and bust cycles traditionally associated with Brazilian economic history The Amazon rubber trade was one of the most important export booms in the history of Latin America dominating the economic life of the Amazon for 70 years until the successful cultivation of rubber trees by the British in Southeast Asia Yet this long period of vigorous economic activity left the basic structure of Amazonian society relatively unchanged One of the author's main concerns is to explore why rubber exports did not generate substantial growth in either the industrial or the agricultural sector and she finds the answers primarily in the relations of production and exchange that characterized the Amazon's extractive economy The study also considers the impact of political decentralization and regionalism on the Amazonian economy draws comparisons with the coffee boom in Sao Paulo that induced sustained industrial growth in that area and traces the consequences of the rubber economy's collapse on the social political and economic life in the Amazon

Understories: Plants and Culture in the American Tropics Lesley Wylie, 2023-11-15 Understories Plants and Culture in the American Tropics establishes the central importance of plants to the histories and cultures of the extended tropical region stretching from the U S South to Argentina Through close examination of a number of significant plants cacao mate agave the hevea brasiliensis kudzu the breadfruit soy and the ceiba pentandra among others this volume shows that vegetal life has played a fundamental role in shaping societies and in formulating cultural and environmental imaginaries in and beyond the region Drawing on a wide range of cultural traditions and forms across literature popular music art and film the essays included in this volume transcend regional and linguistic boundaries to bring together multiple plant centred histories or understories narratives that until now have been marginalized or gone unnoticed Attending not only to the significant influence of humans on plants but also of plants on humans this book offers new understandings of how colonization globalization and power were and continue to be imbricated with nature in the American tropics

Intimate Frontiers Felipe Martínez-Pinzón, Javier Uriarte, 2019-05-24 Intimate Frontiers A Literary Geography of the Amazon analyzes the ways in which the Amazon has been represented in twentieth century cultural production With

contributions by scholars working in Latin America the US and Europe *Intimate Frontiers* reads against the grain commonly held notions about the region its gigantism its richness its exceptionality among other choosing to approach these rather from quotidian everyday experiences of a more intimate nature The multinational pluriethnic corpus of texts critically examined here explores a wide range of cultural artifacts including travelogues diaries and novels about the rubber boom genocide as well as indigenous oral histories documentary films and photography about the region The different voices gathered in this book show that the richness of the Amazon lays not in its natural resources or opportunities for economic exploit but in the richness of its histories stories in the form of songs oral histories images material culture and texts

Toward a New Culture of the Material Frank Bauer,Yoonha Kim,Sabine Marienberg,Wolfgang Schäffner,2024-09-03 What happens when we begin treating multi stable ambivalent and adaptive behaviors of active matter as a formative principle The contributions of this volume investigate the potential of the processual and untamable ranging from microbial co designing morphogenetic experimentation and atmospheric creation to plasticity and liveliness in architecture history of art and scientific concepts Walking the line between analog and digital forms the 19 perspectives from the Cluster of Excellence Matters of Activity not only cross disciplinary and methodological boundaries but also aim at installing a new material paradigm between the epistemic cultures of sciences humanities and design Investigating a new culture of the material Interdisciplinary views on active structures adaptive materials and sustainability **Change in the Amazon**
