The Magic Chanter:

Dillingham, 2008 This study treats comprehensively the sixteen short works of fiction that Herman Melville wrote between 1853 and 1856 most of which were published in Harper's and Putnam's magazines Concentrating on the writer's two basic motivations for writing as he did in these stories Dillingham argues that Melville created a surface of almost inane congeniality in many of the works an illusion of vapidness that camouflages a profundity often missed by his readers He sought to hide disturbing themes because the magazines for which he was writing would almost certainly have rejected his attempts to be more direct Dillingham's method is not however confined to a reading of the texts Melville's stories contain so many allusions to the contemporary scene that they constitute in themselves a cultural study An important contribution of Melville's Short Fiction is its discussion of these allusions Finally Dillingham examines the relationship between the short fiction and Melville's own life Much of the writer's frustration and struggle is concealed in these early works Melville's friendship with Hawthorne for example an intense and yet in some ways disappointing relationship for both men is explored as an important influence on several of the stories Old and New World Highland Bagpiping John Graham Gibson, 2002 Old and New World Highland Bagpiping provides a comprehensive biographical and genealogical account of pipers and piping in highland Scotland and Gaelic Cape Breton The work is the result of over thirty years of oral fieldwork among the last Gaels in Cape Breton for whom piping fitted unself consciously into community life as well as an exhaustive synthesis of Scottish archival and secondary sources Reflecting the invaluable memories of now deceased new world Gaelic lore bearers John Gibson shows that traditional community piping in both the old and new world G ihealtachlan was and for a long time remained the same exposing the distortions introduced by the tendency to interpret the written record from the perspective of modern post eighteenth century bagpiping Following up the argument in his previous book Traditional Gaelic Bagpiping 1745-1945 Gibson traces the shift from tradition to modernism in the old world through detailed genealogies focusing on how

the social function of the Scottish piper changed and step dance piping progressively disappeared Old and New World Highland Bagpiping will stir controversy and debate in the piping world while providing reminders of the value of oral history and the importance of describing cultural phenomena with great care and detail **Queen of Avalon** Jamie

categories or genres covering the spectrum from ditties children chant while spinning a top to gossip songs tales and myths The typology is based on Kilivila metalinguistic terms for these genres and considers the relationship they have with registers or varieties which are also metalinguistically distinguished by the native speakers of this language Rooted in the ethnography of speaking paradigm and in the anthropological linguistics linguistic anthropology approach the book highlights the relevance of genres for researching the role of language culture and cognition in social interaction and demonstrates the importance of understanding genres for achieving linguistic and cultural competence In addition to the data presented in the book its readers have the opportunity to access the original audio and video data presented via the internet on a special website which mirrors the structure of the book Thus the reader can check the transcriptions against the original data recordings This makes the volume particularly valuable for teaching purposes in general Austronesian Oceanic documentary and anthropological linguistics and ethnology

Perceptions of Magic in Medieval Spanish Literature Jennifer M. Corry, 2005 It is an attempt to capture a more comprehensive view of medieval Spain's perceptions of magical practice in order to determine why Spain did not explode into Witchcraze as occurred in so many other European regions when the Middle Ages slipped into the Renaissance

The End of Magic Ariel Glucklich, 1997-03-06 Throughout history magic has been as widely and passionately practiced as religion But while religion continues to flourish magic stumbles towards extinction What is magic What does it do Why do people believe in magic Ariel Glucklich finds the answers to these questions in the streets of Banaras India's most sacred city where hundreds of magicians still practice ancient traditions treating thousands of Hindu and Muslim patients of every caste and sect Through study and interpretation of the Banarsi magical rites and those who partake in them the author presents fascinating living examples of magical practice and contrasts his findings with the major theories that have explained or explained away magic over the last century These theories he argues ignore an essential sensory phenomenon which he calls magical experience an extraordinary though perfectly natural state of awareness through which magicians and their clients perceive the effects of magic rituals

Music Worlding in Palau Birgit Abels, 2025-10-01 Music Worlding in Palau Chanting Atmospheres and Meaningfulness is a detailed study of the performing arts in Palau Micronesia as holistic techniques enabling the experiential corporeality of music's meaningfulness that distinctly musical way of making sense of the world with which the felt body immediately resonates but which to a significant extent escapes interpretive techniques Drawing on long term ethnographic research alongside Pacific Islander and neo phenomenological conceptual frameworks Music Worlding in Palau distinguishes between meanings and meaningfulness in Palauan music making These are not binary phenomena but deeply intertwined However unlike meanings meaningfulness to a significant extent suspends language and is thus often prematurely considered ineffable The book proposes a broader understanding of how the performing arts give rise to a sense of meaningfulness whose felt bodily affectivity is pivotal to music making and lived realities Music Worlding in

Palau thus seeks to draw the reader closer to the holistic complexity of music making both in Palau and more generally
