The Man Who Cures Cancer:

Prostate Cancer and the Man You Love Anne Katz, 2015-03-04 Prostate cancer is the most commonly diagnosed cancer in men after skin cancer. However, this cancer is highly curable and most men live for many years after treatment. Only eleven percent of cancer deaths are due to prostate cancer. It is well known that the side effects of the treatment cause more suffering than the disease itself. Side effects of surgery include incontinence and erectile difficulties; radiation therapy leads to urinary and bowel problems; and androgen deprivation hormone therapy leads to a broad range of long-term side effects affecting physical and emotional functioning. But it is not only the man who suffers through treatment and its side effects. The partners and spouses of prostate cancer survivors are known to experience distress as the man they love moves through the various stages of diagnosis, treatment, and survival. While prostate cancer is a couple's disease, there is much attention paid to the man with cancer and very little to the person and his partner or spouse who is his prime supporter and who often struggles to make sense of what has happened and why and how best to support and take care of him. Prostate Cancer and the Man You Love speaks to the loving partners/spouses of men with prostate cancer, whether soon after diagnosis or later when the man gets on with the rest of his life. Katz includes both the medical information necessary to understanding the disease and firsthand accounts from cancer patients and survivors and their partners. Tips for communication and problem solving with both partners and health care teams are offered throughout. Anyone dealing with prostate cancer will find in these pages comfort and insight as well as specific advice for coping, healing, and moving forward in the spirit of healing and love.

Cancer Is a Jinn (Demonic) Possession. the Ultimate Cure Dr Mira Bajirova, 2019-12-05 Medicine instead of healing contributes to the disease progression and creates other diseases, including other Cancer. What comes to you of good is from Allah, but what comes to you of evil, O man, is from yourself. Qur'an An-Nisa 4:79. When a person commits the Sin, a black spot appears on his heart, and if he seeks forgiveness, this black spot is removed; and if he returns to Sin, the black spot grows until his heart becomes black and he will be doomed. Disease is an Expiation of the Sins. In this book, I have described 351 Sins. The Sins involve the Evil Jinn. Demons possess humans because of the Sins: revenge, desire, control, attraction, Sorcery, Evil Eye, anger, fear, and depression. The most frequent Sins: denying or associating partners to Allah, the Creator of all things. Cancer is a Jinn/Demonic Possession. The anti-Cancer treatment excites the hidden Evil Jinn, and the Jinn spread more the disease. Additionally, medicine creates other diseases due to the side effects. Doctors cannot help; cannot remove your Sins and make you sicker and die. Know for certain that when you break, no one will heal you except you. Ibn Al-Qayyim. Repentance from the Sins is obligatory. A trial is not sent down except due to a Sin, and it is not lifted except with repentance. Ali Ibn Abi Talib. Demons are afraid of Allah, only our Creator. The Ultimate Cure is within the Qur'an, Ruqyah, Negative Ions, and Prophetic Medicine. Whoever abandons the Qur'an would abandon treating sickness and seeking healing through it.

How Cancer Cured Me David Gira, 2020-08-25 Battling to beat cancer finding a cure and fighting to survive can become all encompassing Like most people when diagnosed with cancer David only wanted physical healing God had bigger plans and used David s cancer experience to heal many areas of brokenness in his life By the time of his first cancer free report two years later his life had been radically transformed In How Cancer Cured Me David Gira seasoned pastor and cancer survivor shares fifteen ways God used his cancer experience with all its challenges to heal his life in addition to ultimately providing physical healing The topics range from becoming more courageous to finding his get up and go David also writes about the ways God used the cancer journey to positively impact his most important relationships With

refreshing honesty and humor David tells his cancer story shares inspiring stories of other cancer patients and reflects on relevant Scripture How Cancer Cured Me brings together the author s theological training pastoral experience and his personal narrative Cancer patients will find this a helpful companion Christians will be inspired by his testimony The less religious will appreciate his approachable and authentic voice All will enjoy his candor and humor

Novel Approach to Curing Cancer Jianqing Wu, Ping Zha, 2019-08-11 In this book the authors make extensive comparison between medical treatments and health optimization methods an improved mind body model in order to determine their relative and TRUE benefits for cancer patients For the health optimization method they examine its use history acceptance and performance throughout its history and for medicine they examine medical treatment history leading cancer theories standard of care formation formation of legal frameworks and overwhelming performance data we could find from the massive medical literature We can show with irrefutable evidence why medicine cannot cure cancer and what role it is actually playing The book 1 discloses a systematic methodology for curing cancer in confidence 2 extensively discusses how to do right things to win a speed contest in fighting cancer 3 extensively discusses how to do right things to control cancer cell population a critical strategy for survival 4 provides detailed analysis of fatal common mistakes that have taken nine of ten cancer patient lives 5 exposes flaws in the cancer treatment models medical research model the foundation of medicine and 6 conduct a detailed analysis of four killer factors which are routinely found in nearly all cancer care The approach used is similar to one used in Health Optimization Engineering a new branch of health art The book teaches the decisive roles of SPEED NUMBER and MULTIPLE FACTORS and how to fight cancer by using a two way optimization methodology Those three terms and optimization method are not mentioned in medical books cancer research articles and are not part of the language used in hospitals Our simulation and our kinetic studies show that both cancer development and reversal processes would take many years The rates of reversals for cancer and all chronic diseases are so slow that medicine cannot accurately evaluate This is why medicine cannot recognize or refuses to acknowledge any cure that requires half a year to several years to accomplish The approach we use in this book is directly in conflict with three core concepts in medicine dualism reductionism and population based approach Moreover we found that medical treatments can partially neutralize and totally nullify the curative benefits of our optimization method Based on our own findings and the results from reanalyzing massive existing medical publications we inevitably found that medical treatments are primarily responsible for creating the cancer panic and the treatments shorten lives in a super majority of cases We try to analyze every issue in the most comprehensive way Our analysis covers medical model and its legal framework leading cancer theories treatment development histories formation of standard of care control selections in drug trials the massive cancer controversies and mountains of actual performance data The most convincing evidence is the performance verdicts by recent medical studies and latest meta reviews We try to build a watertight case that precludes any of those arguments that have been made by proponents of the reductionist medical model
