The Moral Dimensions of Public Policy Choice John Martin Gillroy, Maurice Wade, 1992-08-15 Combining philosophy with practical politics an expanding area of policy studies applies moral precepts critical principles and conventional values to collective decisions This evolving new approach to policy analysis asserts that the same variety of ethical principles available to the individual are also available to make collective decisions in the public interest and should be used Although policy analysis has long been dominated by assumptions originally developed for the examination of markets such as efficiency these essays by leading scholars the best work done in the field over the past three decades explore alternatives to the market paradigm and show how moral discrimination and choice can extend beyond the individual to encompass public decisions Chapters by John Martin Gillroy and Maurice Wade review the political philosophies of Immanuel Kant and David Hume as backgrounds for the development of modern concepts

of public policy choice They present this anthology as a first step in codifying options arguments and methods within this important developing area of policy studies *American Book Publishing Record* ,2005 [The Origins and Demise of South African Apartheid](#) Anton David Lowenberg,William H. Kaempfer,1998 What motivated South Africa s former white leaders to hand over the reins of power to a black government Economist Anton D Lowenberg examines the economic interests that led to apartheid and the economic prospects for post apartheid South African society **Sustainable Development and Environmental Management** Corrado Clini,Ignazio Musu,Maria Lodovica Gullino,2010-06-29 This book stems from a four year experience of a Training Programme addressing members of several Chinese governmental Institutions which given the moment of extremely intense and fast development of their country consider the issues of environment and sustainable growth among the foremost priorities In particular they expressed the need and will to develop policy and management tools that could lead to a strategy of sustainable growth from an economic social and environmental point of view The Programme turned out to be a success it involved up to June 2007 more than 2000 trainees from almost all the Provinces of China precisely because the forces that answered those needs are extremely diverse as to include the academia national and local governments public institutions private companies and international agencies Following this feature the book s contributors have been selected among more than 300 professors researchers policy makers and entrepreneurs involved in the Training activities thus offering different approaches to the key questions of environmental management *Social Multi-Criteria Evaluation for a Sustainable Economy* Giuseppe Munda,2007-12-22 The real world is characterized by deep complexity May be a rather unremarkable observation yet it has important implications on the manner policy problems are represented and decision making is framed Is contemporary democracy compatible with science in real world policy making This book gives answers in the affirmative It also asserts that this congruence can have positive implications not only in terms of economic prosperity but also when dealing with the difficult sustainability policy problems of our millennium To address contemporary issues economic science will have to expand its empirical relevance by introducing more and more realistic assumptions to its models One of the most interesting research orientations in recent times in the field of public economics is the explicit attempt to take account of political constraints interest groups and collusion effects One of the main novelties of this book is its establishment of a clear relationship between social and public choice theories on one hand and multiple criteria decision analysis on the other The pioneering research developed by Arrow and Raynaud 1986 has shown that the relationships between multi criteria decision theory and social choice are clear and relevant The main directions of cross fertilization between these research fields are twofold 1 Multi criteria decision theory can be an adequate framework for applied social and public choice 2 Social choice can produce interesting theoretical results for ensuring the axiomatic consistency needed by multi criterion aggregation conventions **Environmental Risk, Environmental Values, And Political Choices** John Martin Gillroy,2019-03-07 Public decisions on environmental risk have traditionally been weighed in terms of the principle of

efficiency and its methodologies such as cost benefit analysis These original essays argue for moving beyond the market paradigm toward making policy that incorporates environmental values *Justice & Nature* John Martin Gillroy,2000 Gillroy environmental policy and law Bucknell U argues against the economic cost benefit model prevalent in environmental policy making and offers an alternative His paradigm based upon Kantian philosophy incorporates non market factors including the intrinsic value of humanity and nature into public decision making This approach is then applied to wilderness preservation national wildlife refuges NIMBY siting dilemmas comparative risk analysis the Food and Drug Administration s risk regulation and the National Environmental Policy Act Annotation copyrighted by Book News Inc Portland OR Gender-sensitive Planning and Policy Making Mr. Rohit Manglik,2024-04-08 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels **Democracy and Decision** Geoffrey Brennan,Loren Lomasky,1997-03-13 The significance of this account should be clear If as economists frequently assert proper diagnosis of the disease is a crucial prerequisite to treatment then the design of appropriate democratic institutions depends critically on a coherent analysis of the way the electoral process works and the perversities to which it is prone The claim is that the interest based account incorrectly diagnoses the disease Accordingly this book ends with an account of the institutional protections that go with expressive voting **BOOK JACKET** **Ethics for Evaluation** Rob D. van den Berg,Penny Hawkins,Nicoletta Stame,2021-12-30 In Ethics for Evaluation the diverse perspectives on ethical guidance in evaluation are untangled and ordered in a theoretical framework focusing on evaluations doing no harm tackling bad and doing good Divided into four parts a diverse group of subject experts present a practical look at ethics utilizing practical experience to analyze how ethics have been applied in evaluations and how new approaches can shape the future of ethics The chapters collectively create a common understanding of the potential role of ethics to infuse policy decisions and stakeholder initiatives with evaluations that provide better insight and potential solutions for problems going beyond what works to what needs to be done and what would help The methodological scope ranges from working in contexts of fragility conflict and violence to participatory and decolonized approaches including the ethical imperatives posed by global crises such as climate change inequity and exploitative international relations Ethics for Evaluation presents evaluators commissioners of evaluation policymakers and practitioners with inspiration for an ethical perspective on how evaluation can contribute towards solving problems It presents a solid foundation for inclusive terminology and ethics guidance that would be the heart of a global exercise in professionalization of ethical evaluation practice Political Virtue and Shopping M. Micheletti,2003-09-05 Political consumerism is turning the market into a site for politics and ethics It is consumer choice of producers and products on the basis of attitudes and values of personal and family well being as well as ethical or political

assessment of business and government practice In the face of economic globalization and a regulatory vacuum consumers increasingly take responsibility in their own hands making the market an important venue for political action through their decisions of what to purchase This book opens the readers eyes to a new way of viewing everyday consumer choices and the role of the market in our lives illuminating the broader theoretical and historical context of concerns about sweatshops responsible coffee and ethical and free trade Contemporary forms of political consumerism boycotts labelling schemes stewardship certification socially responsible investing etc are described and evaluated Individual actions are shown to be important in the complexity of globalization

The Age of Fragmentation Alessandro Roncaglia,2019-12-05 A wide ranging historical account and critical analysis of the global development of economics from 1940 to the present day

Advanced Introduction to Public Policy B. G. Peters,2021-02-26 In this updated second edition internationally renowned scholar B Guy Peters provides a succinct introduction to public policy and illustrates the design approach to policy problems Peters demonstrates how decision makers can make more effective choices and why a design approach to public intervention can improve policy formulation

Project and Policy Evaluation in Transport Liana Giorgi,Alan Pearman,Annuradha Tandon,Dimitrios Tsamboulas,2017-11-22 This title was first published in 2002 There is a multitude of assessment methods available for analyzing and reporting on the impacts of policies all with different underlying assumptions and a wide range of criteria Since the 1950s much research has gone into creating guidelines for policy analysis yet only a small percentage of evaluation has been carried out on transport policy and none by political scientists or social policy specialists The editors of this volume recognize that European integration has seen a drive to bring policy evaluation on to the transport agenda and has increased demands for strategic assessments It has become apparent that to gain a fuller understanding of the success of a transport programme a much more complex combination of analytical methods must be used and a set of guidelines specifically for the field of transport must be developed This book achieves this by bringing together a multidisciplinary team of analysts from throughout the EU to discuss in a much broader way the various types of assessment methods and how they can best be used to evaluate transport programmes and systems both individually and in combination

The SAGE Encyclopedia of Business Ethics and Society Robert W. Kolb,2018-03-27 Spans the relationships among business ethics and society by including numerous entries that feature broad coverage of corporate social responsibility the obligation of companies to various stakeholder groups the contribution of business to society and culture and the relationship between organizations and the quality of the environment

Politics and Process Geoffrey Brennan,Loren E. Lomasky,1989-09-29 This book explores the strengths and weaknesses of democratic institutions

Choice and Public Policy Peter Taylor-Gooby,2016-01-06 Public policies increasingly emphasize active consumerism entrepreneurship on the part of service providers and professionals privatisation and an expanded role for markets Choice and Public Policy draws on research by economists psychologists sociologists and public policy experts The research

demonstrates that the traditional rational choice model of economic behaviour is unsatisfactory in providing accounts of the way people choose in relation to work saving spending investment and social welfare It also shows that the public policies of active consumerism public sector entrepreneurship and privatisation based on this approach are seriously flawed **A Companion to Contemporary Political Philosophy** Robert E. Goodin, Philip Pettit, Thomas W. Pogge, 2012-03-12 This new edition of A Companion to Contemporary Political Philosophy has been extended significantly to include 55 chapters across two volumes written by some of today's most distinguished scholars New contributors include some of today's most distinguished scholars among them Thomas Pogge Charles Beitz and Michael Doyle Provides in depth coverage of contemporary philosophical debate in all major related disciplines such as economics history law political science international relations and sociology Presents analysis of key political ideologies including new chapters on Cosmopolitanism and Fundamentalism Includes detailed discussions of major concepts in political philosophy including virtue power human rights and just war

The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. The Market And Public Choices An Ethical Assessment : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
