**Marlborough's America** Stephen Saunders Webb, 2013-01-01 Scholars of British America generally conclude that the early eighteenth century Anglo American empire was commercial in economics liberal in politics and parochial in policy somnambulant in an era of salutary neglect but Stephen Saunders Webb here demonstrates that the American provinces under the spur of war became capitalist coercive and aggressive owing to the vigorous leadership of career army officers trained and nominated to American government by the captain general of the allied armies the first duke of Marlborough and that his influence and that of his legates prevailed through the entire century in America Webb's work follows the duke whom an eloquent enemy described as the greatest statesman and the greatest general that this country or any other country has produced his staff and soldiers through the ten campaigns which by defanging France made the union with Scotland possible and made Great Britain preeminent in the Atlantic world Then Webb demonstrates that the duke's legates transformed American colonies into provinces of empire Marlborough's America fifty years in the making is the fourth volume of The Governors General

**Political Memoir** George W. Egerton, 1994 The genre of political memoir has a long history from its origins in classical times through its popularity in the age of courts and cabinets to its ubiquity in modern mass cultures where retired politicians increasingly attract large and eager readerships for their revelations Yet there is virtually no scholarly criticism which treats this complex form of literature as a distinct genre fusing autobiographical historical and political elements The essays in this book draw together the collaborative findings of a team of British European American and Canadian scholars to present a pioneering historical and critical study of the genre of political memoir analysing the development of its distinct functions and assessing leading memoirists in European American Canadian Indian and Japanese societies The editor George Egerton introduces the volume and surveys the principal features

of the genre over its long history Otto Pflanze analyses the memoirs of Bismarck Robert Young Milton Israel Joshua Mostow and Robert Bothwell study the memoir literature of France India Japan and Canada respectively Barry Gough and Tim Travers look at naval and military memoirists while Zara Steiner B J C McKercher and Valerie Cromwell assess the memoirs of diplomats and their families Leonidas Hill examines the memoirs of leading Nazis John Munro Francis Heller and Robert Ferrell convey inside information on the making of memoirs notably by the Canadian Prime Ministers Diefenbaker and Pearson and the American President Truman Stephen Ambrose assays Nixon as memoirist while Janos Bak portrays the status of memoirists under totalitarian regimes Wesley Wark and John Naylor analyse the proliferation of intelligence memoirs and government efforts to protect official secrets from the revelations of the candid memoirist The principal findings reached by the contributors in their study of this problematic but influential genre are set out by the editor in the concluding chapter

*War for the Every Day* Erik Lund, 1999-10-30 A study of operational warfare in the Habsburg old regime 1683-1740 which recreates everyday warfare and the lives of the generals conducting it this book goes beyond the battlefield to examine the practical skills of war needed in an agricultural landscape of pastures woods and water Although sieges forages marches and raids are universally considered crucial aspects of old regime warfare no study of operational or

maneuver warfare in this period has never been published Early modern warfare had an operational component which required that soldiers possess or learn many skills grounded in the agricultural economy and this requirement led to an economy of knowledge in which the civil and military sectors exchanged skilled labor Many features of scientific warfare thought to be initiated by Enlightenment reformers were actually implicit in the informal structures of armies of the late 1680 1740 period In this period the Habsburg dynasty maintained an army of more than 100 000 men and hundreds of generals This book might be called a labor history of these generals revealing their regional social and educational backgrounds It also details the careerist dimensions of another neglected aspect of the early modern general s work the creation of military theory Theory arose naturally from staff work and commanded wide interest among both high ranking officers for professional reasons and for its significant impact on service politics
