Shows of All Time Christopher J. Olson,CarrieLynn D. Reinhard,2020-05-29 Reaching back to the beginnings of television The Greatest Cult Television Shows offers readers a fun and accessible look at the 100 most significant cult television series of all time compiled in a single resource that includes valuable information on the shows and their creators While they generally lack mainstream appeal cult television shows develop devout followings over time and exert some sort of impact on a given community society culture or even media industry Cult television shows have been around since at least the 1960s with Star Trek perhaps the most famous of that era However the rise of cable contributed to the rise of cult television throughout the 1980s and 1990s and now with the plethora of streaming options available more shows can be added to this categorization Reaching back to the beginnings of television the book includes such groundbreaking series as The Twilight Zone and The Prisoner alongside more contemporary examples like Crazy Ex Girlfriend and Hannibal The authors provide production history for each series and discuss their relevance to global pop culture To provide a more global approach to the topic the authors also consider several non American cult TV series including British Canadian and Japanese shows Thus

Monty Python's Flying Circus appears alongside Sailor Moon and Degraassi Junior High. Additionally, to move beyond the conception of cult as a primarily white heteronormative fanboy obsession, the book contains shows that speak to a variety of cult audiences and experiences such as *Queer as Folk* and *Charmed*. With detailed arguments for why these shows deserve to be considered the greatest of all time, Olson and Reinhard provide ideas for discussion and debate on cult television. Each entry in this book demonstrates the importance of the 100 shows chosen for inclusion and highlights how they offer insight into the period and the cults that formed around them.

The Paris Architect Charles Belfoure, 2013-10-08 THE NEW YORK TIMES BESTSELLER A gripping page turner a riveting reminder of sacrifices made by history's most unlikely heroes Kristina McMorris New York Times bestselling author of *Sold on a Monday* and *The Ways We Hide* An extraordinary book about a gifted architect who reluctantly begins a secret life of resistance, devising ingenious hiding places for Jews in World War II Paris. In 1942 Paris architect Lucien Bernard accepts a commission that will bring him a great deal of money and maybe get him killed. All he has to do is design a secret hiding place for a Jewish man, a space so invisible that even the most determined German officer won't find it while World War II rages on. He sorely needs the money and outwitting the Nazis who have occupied his beloved city is a challenge he can't resist. Soon Lucien is hiding more souls and saving lives. But when one of his hideouts fails horribly and the problem of where to conceal a Jew becomes much more personal and he can no longer ignore what's at stake, Book clubs will pore over the questions Charles Belfoure raises about justice, resistance, and just how far we'll go to make things right. Also by Charles Belfoure *The Fallen Architect: House of Thieves*

HCI International 2016 - Posters' Extended Abstracts Constantine Stephanidis, 2016-07-04

This is the first volume of the two volume set CCIS 617 and CCIS 618 that contains extended abstracts of the posters presented during the 18th International Conference on Human Computer Interaction HCII 2016 held in Toronto, Canada, in July 2016. The total of 1287 papers and 186 posters presented at the HCII 2016 conferences was carefully reviewed and selected from 4354 submissions. These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. The papers thoroughly cover the entire field of Human Computer Interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The papers included in this volume are organized in the following topical sections: design, thinking, education, and expertise; design and evaluation; methods, techniques, and tools; cognitive issues in HCI; information presentation and visualization; interaction design; design for older users; usable security and privacy; human modeling and ergonomics.
