Discover the Stars Richard Berry,2010-12-22 For everyone who has looked up at the stars on a clear night and longed
to know more about them here is the perfect introduction and guide to discovering the stars Discover the Stars leads you on
a tour of all the stars and constellations visible with the naked eye and introduces you to deep sky objects that can be seen
with binoculars or a simple telescope The tour is conducted by the editor of Astronomy magazine Richard Berry whose two
color computer plotted sky maps and clear instructions make stargazing fun and productive from your first night out The
heart of Discover the Stars is two sections of big beautiful sky maps and charts The first section features twelve maps that
show the entire sky overhead as it appears during each month of the year These outline all the constellations visible
anywhere in the Northern Hemisphere and the accompanying text reveals the rich ancient mythology that surrounds the star
groups The second section is made up of twenty three star charts that depict smaller regions of the sky in great detail These
charts give the names of key stars and lead you to fascinating features such as stars with unusual colors double stars variable
