What the Slaves Ate Herbert C. Covey, Dwight Eissach, 2009-05-20 Carefully documenting African American slave foods this book reveals that slaves actively developed their own foodways their customs involving family and food The authors connect African foods and food preparation to the development during slavery of Southern cuisines having African influences including Cajun Creole and what later became known as soul food drawing on the recollections of ex slaves recorded by Works Progress Administration interviewers Valuable for its fascinating look into the very core of slave life this book makes a unique contribution to our knowledge of slave culture and of the complex power relations encoded in both owners manipulation of food as a method of slave control and slaves efforts to evade and undermine that control While a number of scholars have discussed slaves and their foods slave foodways remains a relatively unexplored topic The authors findings also augment existing knowledge about slave nutrition while documenting new information about slave diets

**If We Must Die** Eric Robert Taylor, 2009-03-01 If We Must Die examines nearly five hundred shipboard rebellions that occurred over the course of the entire slave trade directly challenging the prevailing thesis that such resistance was infrequent or insignificant As Eric Robert Taylor shows though most revolts were crushed quickly others raged on for hours days or weeks and occasionally the Africans captured the vessel and returned themselves to freedom In recounting these rebellions Taylor suggests that certain factors like geographic location the involvement of women and children and the timing of a shipboard revolt determined the difference between success and failure Taylor also explores issues like aid from other ships punishment of slave rebels and treatment of sailors captured by the Africans If We Must Die expands the historical view of slave resistance revealing a continuum of rebellions that spanned the Atlantic as well as the centuries These uprisings Taylor argues ultimately helped limit and end the traffic in enslaved Africans and also served as crucial predecessors to the many revolts that occurred subsequently on plantations throughout the Americas

Slavery and Abolition in the Atlantic World Jane Landers, 2018-12-07 This book highlights newly discovered and underutilized sources for the study of slavery and abolition It features the contributions of scholars who work with Portuguese Spanish German Dutch and Swedish materials from Europe Africa and Latin America Their work draws on legal suits merchant correspondence Catholic sacramental records and rare newspapers dating from the seventeenth through the nineteenth centuries Essays cover the volume of the early South Atlantic slave trade African and African descended religious and cultural communities in Rio de Janeiro and the Spanish circum Caribbean Eurafrican trade alliances on the Gold Coast and public participation in

abolition in nineteenth century Brazil These essays change and enrich our understandings of slavery and its end in the Atlantic World This book was originally published as a special issue of *Slavery and Abolition* ***Captive Cosmopolitans*** Mary E. Hicks, 2024-11-13 From the bustling ports of Lisbon to the coastal inlets of the Bight of Benin to the vibrant waterways of Bahia Black mariners were integral to every space of the commercial South Atlantic Navigating this kaleidoscopic world required a remarkable cosmopolitanism the chameleonlike ability to adapt to new surroundings by developing sophisticated medicinal linguistic and navigational knowledge Mary E Hicks shows how Portuguese slaving ship captains harnessed and exploited this hybridity to expand their own traffic in human bondage At the same time she reveals how enslaved and free Black mariners capitalized on their shipboard positions and cosmopolitan expertise to participate in small scale commodity trading on the very coasts where they themselves had been traded as commodities reshaping societies and cultures on both sides of the Atlantic Indeed as Hicks argues the Bahian slave trade was ruthlessly effective because its uniquely decentralized structure so effectively incorporated the desires and financial strategies of the very people enslaved by it Yet taking advantage of such fraught economic opportunities ultimately enabled many enslaved Black mariners to purchase their freedom And in some cases they became independent transatlantic slave traders themselves Hicks thus explores the central paradox that defined the lives of the captive cosmopolitans and in doing so reveals a new history of South Atlantic slavery centered on subaltern commercial and cultural exchange

**Ghosts, Landscapes and Social Memory** Martyn Hudson, 2017-06-26 This book is a groundbreaking attempt to rethink the landscapes of the social world and historical practice by theorising social haunting the ways in which the social forms figures phantasms and ghosts of the past become present to us time and time again Examining the relationship between historical practices such as archaeology and archival work in order to think about how the social landscape is reinvented with reference to the ghosts of the past the author explores the literary and historical

status and accounts of the ghost not for what they might tell us about these figures but for their significance for our constantly re invented re vivified re ghosted social world With chapters on haunted houses and castles slave ghosts the haunting airs of music the prehistoric origin of spirits Marxist spectres Freudian revenants and the ghosts in the machine Ghosts Landscapes and Social Memory adopts multi disciplinary methods for understanding the past the dead and social ghosts and the landscapes they appear in A sociology of haunting that illustrates how social landscapes have their genesis and perpetuation in haunting and the past this volume will appeal to sociologists and social theorists with interests in memory haunting and culture *Jump* Sam C. Tenorio, 2024-04-23 Asks how we can better understand a politics of refusal Writing a new story of Black politics *Jump* emerges from the practice of enslaved Africans jumping overboard off their slavers ships Reading against the narrative that depoliticizes and denigrates the leaps of the enslaved as merely suicidal symptoms of chattel slavery and the Middle Passage Sam C Tenorio demonstrates how bringing these jumps to bear on the foundations of Black politics allows us to rethink a politics of refusal In a period of increasing political mobilization against police brutality and mass incarceration *Jump* attends to the layers of confinement that constitute the racial and gendered hierarchies of the antiblack world Centering radical acts too often relegated to the periphery of Black politics Tenorio proposes a Black anarchist politics of refusal that helps us to think dissent anew Tracing iterations of the jump through the carceral wake of the slave ship Tenorio explores the voyages of the Black Star Line in defiance of the bordered authority of the nation state the Watts Rebellion of 1965 against the property relation of ghettoization and Assata Shakur s abscondence from prison to Cuba Ultimately Tenorio argues that considering the jump as a progenitor of Black politics deepens and widens our conceptualization of the Black radical tradition and introduces a paradigm shifting attention to Black anarchism

insurance companies financed by the traders and owners of enslaved Africans merchants who dealt in sugar coffee and cotton and the owners of factories who profited from exports to the African and Caribbean markets related to Atlantic slavery

**Museum, Place, Architecture and Narrative** Annika Bünz, 2022-09-13 A characteristic trait of the maritime museums is that they are often located in a contemporary and or historical environment from which the collections and narratives originate The museum can thereby be directly linked to the site and its history It is therefore vital to investigate the maritime museums in terms of relationships between landscape architecture museum and collections This volume unravels the kinds of worlds and realities the Nordic maritime museums stage which identities and national myths they depict and how they make use of both the surrounding maritime environments and the architectural properties of the museum buildings
